The Rings of Saturn W. G. Sebald 2016-11-08 "The book is like a dream you want to last forever" (Roberta Silman, The New York Times Book Review), now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's "Anatomy Lesson," the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's *The Emigrants* (New Directions, 1996) was hailed by Susan Sontag as an "astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims *The Rings of Saturn* "an even more inventive work than its predecessor, *The Emigrants*."

Austerlitz W.G. Sebald 2011-12-06 Austerlitz, the internationally acclaimed masterpiece by "one of the most gripping writers imaginable" (The New York Review of Books), is the story of a man's search for the answer to his life's central riddle. A small child when he comes to England on a Kindertransport in the summer of 1939, one Jacques Austerlitz is told nothing of his real family by the Welsh Methodist minister and his wife who raise him. When he is a much older man, fleeting memories return to him, and obeying an instinct he only dimly understands, he follows their trail back to the world he left behind a half century before. There, faced with the void at the heart of twentieth-century Europe, he struggles to rescue his heritage from oblivion.

Re-thinking Diversity Cordula Braedel-Kühner 2015-12-01 This volume entails a collection of new ideas, themes and questions towards a phenomenon which we are used to refer to with the key term "diversity". The aim of the book is to offer a cultural sciences perspective on "diversity", to advance knowledge about it and enrich the dialogue between academics and practitioners in related domains of action. Today, changes in the demographic structures of the population, the migration flux, multiculturalism, the rising awareness concerning minorities' rights, gender studies and so on lead to a complex picture of what "diversity" means. The narrative of a society and of most organizations is constituted by multiple layers of social categorization, segregation and identity. Therefore, "diversity" defies simple definition. The contributions in this volume approach the phenomenon from different angles and reveal new theoretical, methodological and practical perspectives on it.

Scientific Babel Michael D. Gordin 2015-04-13 English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case. Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With *Scientific Babel*, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and *Scientific Babel* reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed.

Gödel's Theorem Torkel Franzén 2005-06-06 "Among the many expositions of Gödel's incompleteness theorems written for non-specialists, this book stands apart. With exceptional clarity, Franzén gives careful, non-technical explanations both of what those theorems say and, more importantly, what they do not. No other book aims, as his does, to address in detail the misunderstandings and abuses of the

incompleteness theorems that are so rife in popular discussions of their significance. As an antidote to the many spurious appeals to incompleteness in theological, anti-mechanist and post-modernist debates, it is a valuable addition to the literature." --- John W. Dawson, author of *Logical Dilemmas: The Life and Work of Kurt Gödel*

The Meaning of Particle/prefix Constructions in German Robert B. Dewell 2011 This is really two books in one: a valuable reference resource, and a groundbreaking case study that represents a new approach to constructional semantics. It presents a detailed descriptive survey, using extensive examples collected from the Internet, of German verb constructions in which the expressions *durch* ('through'), *über* ('over'), *unter* ('under'), and *um* ('around') occur either as inseparable verb prefixes or as separable verb particles. Based on that evidence, the author argues that the prefixed verb constructions and particle verb constructions themselves have meaning, and that this meaning involves subjective construal processes rather than objective information. The constructions prompt us to distribute focal attention according to patterns that can be articulated in terms of Talmy's notion of *perspectival modes*. Among the other topics that play an important role in the analysis are incremental themes, reflexive trajectors, fictive motion, *multi-directional paths*, and *accusative landmarks*.

Animal Narratology Joela Jacobs 2020-12-15 Animal Narratology interrogates what it means to narrate, to speak-speak for, on behalf of-and to voice, or represent life beyond the human, which is in itself as different as insects, bears, and dogs are from each other, and yet more, as individual as a single mouse, horse, or puma. The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of, attitude toward, and responsibility for the animals that are read and written about, thus demonstrating that just as "the animal" does not exist, neither does "the human". In their zoopoetic focus, the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology, yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non-human in the first place. Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible. Ultimately, the contributions call for a recognition of the many spaces, moments, and modes in which human lives are entangled with those of animals-one of which is located within the creative bounds of storytelling.

Questioning the Canon Christine Meyer 2021-07-05 To what extent do minority writers feel represented by the literary canon of a nation and its body of "great works"? To what extent do they adhere to, or contest, the supposedly universal values conveyed through those texts and how do they situate their own works within the national tradition? Building on Edward W. Said's contrapuntal readings and Gayatri Chakravorty Spivak's reflections on the voice of the subaltern, this monograph examines the ways in which Rafik Schami, Emine Sevgi Özdamar, and Feridun Zaimoglu have re-read, challenged, and adapted the German canon. Similar to other writers in postcolonial contexts, their work on the canon entails an inquiry into history and a negotiation of their relation to the texts and representations that define the "host" nation. Through close analyses of the works of these non-native German authors, the book investigates the intersection between politics, ethics, and aesthetics in their work, focusing on the appropriation and

re-evaluation of cultural legacies in German-language literature. Opening up a rich critical dialogue with scholars of German Studies and Postcolonial Theory, Christine Meyer provides a fresh perspective on German-language minority literature since the reunification.

George Orwell Gordon Bowker 2013-03-14 'Adds enormously to our understanding of the man' Evening Standard George Orwell was one of the greatest writers England produced in the last century. He left an enduring mark on our language and culture, with concepts such as 'Big Brother' and 'Room 101.' His reputation rests not only on his political shrewdness and his sharp satires (*Animal Farm* and *Nineteen Eighty-Four*) but also on his marvellously clear style and superb essays, which rank with the best ever written. Gordon Bowker's new biography includes fascinating new material which brings Orwell's life into unfamiliar focus. He writes revealingly about Orwell's family background; the lasting influence of Eton on his work and character; his superstitious streak and youthful flirtation with black magic; and his chaotic and reckless sex life, which included at least one homoerotic relationship. It highlights the strange circumstances of his first marriage and provides remarkable new evidence of his experiences in Spain and their nightmarish consequences. It also offers a fresh look at his peculiar deathbed marriage to a woman fifteen years his junior. All this has enabled Bowker to give Orwell's life a brilliantly fresh and distinctive interpretation.

A History of Collective Living Susanne Schmid 2019-10-21 The book tells the story of communal living from about 1850 until today. Three motives of sharing - the economic, political and social intention - divide the residential objects, which are investigated in a historical analysis and allocated to nine development phases. The author investigates and compares different forms of housing and the way they developed from their origins until today; she illustrates how everyday shared living and the degrees of privacy in housing are practiced in Europe. Owing to its comprehensive documentation, the analysis of typologies, layout plans, and user and expert interviews, the book can also be considered to be a lexicon or handbook on communal living. A detailed overview that is unique in this form.

Der Attentäter Lutz van Dijk 1988 A reconstructed account of the life of Herschel

Grynspan, based on secondary sources and documents. On 7 November 1938 Grynspan killed Ernst vom Rath in Paris, which precipitated the "Kristallnacht" pogrom. Attempts to analyze Grynspan's motivation for his act. His Polish parents had emigrated to Hannover in 1911; Herschel, their third child, was born in 1921. In 1936 he left for Paris, intending to emigrate to Palestine. After receiving a letter from his sister relating that the family had been expelled from Germany and sent to the Polish border without means, Grynspan murdered vom Rath as an act of vengeance. He was arrested; in 1940 he was turned over to the German occupiers. Between 1941-42 he was interned in Sachsenhausen. According to some reports, he was later imprisoned in Berlin and then liberated by the Red Army. After the war he probably returned to Paris and lived there with a new identity.

Claims, Changes and Challenges in Translation Studies Gyde Hansen 2004-05-28 The volume contains a selection of papers, both theoretical and empirical, from the European Society for Translation Studies (EST) Congress held in Copenhagen in September 2001. The EST Congresses, held every three years in a different country, reflect current ideas, theories and studies covering the whole range of "Translation", both oral and written, and the papers collected here, authored by both experienced and young translation scholars, provide an up-to-date picture of some concerns in the field. Topics covered include translation universals, linguistic approaches to translation, translation strategies, quality and assessment issues, screen translation, the translation of humor, terminological issues, translation and related professions, translation and ideology, language brokering by children, Robert Schumann's relation to translation, directionality in translation and interpreting, community interpreting in Italy, issues in interpreting for refugees, notes in consecutive interpreting, interpreting prosody, and frequent weaknesses in translation papers in the context of the editorial process.

Translation and Meaning Marcel Thelen 2016 This book presents new and innovative ideas on the didactics of translation and interpreting. Flight and Refuge Josef Eisinger 2016-08-30 Flight and Refuge. Reminiscences of A Motley Youth by Josef Eisinger After a calm, middle-class childhood in Vienna, the author escapes, at fifteen, from Nazi-occupied Austria to Britain. He finds work as a farm 'lad' in Yorkshire, and then, as a dish washer in a Brighton hotel. Following the fall of France, he is interned as an enemy alien and is shipped to Canada. Confined in a series of internment camps, he acquires new skills as lumberjack and carpenter, and is also able to resume his interrupted education thanks to an informal school run by fellow inmates, like himself, mostly Jewish refugees. Thanks to a benevolent sponsor he is released from internment and

enrolls in the mathematics and physics honors course at the University of Toronto. He joins the Canadian Army, and after the war ends, he completes his undergraduate studies. Wishing to visit his parents - they had found refuge in Palestine following a harrowing escape from Vienna - he joins the crew of a freighter bound for the Mediterranean as an ordinary seaman. Following his return, he wins a teaching fellowship at MIT and earns his PhD degree for an investigation of the internal structure of nuclei. He enters a richly varied research career in physics, molecular biology, and the history of science, settles down, and creates a family. Four appendices deal with the authors' roots, his parents' escape, and his life in science. *** Josef Eisinger, professor emeritus at the Mount Sinai School of Medicine, New York, is the author of more than 150 articles in professional journals. His recent books, *Einstein on the Road* and *Einstein at Home* were published by Prometheus Books (2011, 2016).

Women Writing War Katharina von Hammerstein 2018-08-06 Recent scholarship has broadened definitions of war and shifted from the narrow focus on battles and power struggles to include narratives of the homefront and private sphere. To expand scholarship on textual representations of war means to shed light on the multiple theaters of war, and on the many voices who contributed to, were affected by, and/or critiqued German war efforts. Engaged women writers and artists commented on their nations' imperial and colonial ambitions and the events of the tumultuous beginning of the twentieth century. In an interdisciplinary investigation, this volume explores select female-authored, German-language texts focusing on German colonial wars and World War I and the discourses that promoted or critiqued their premises. They examine how colonial conflicts contributed to a persistent atmosphere of *Kriegsbegeisterung* (war enthusiasm) that eventually culminated in the outbreak of World War I, or a *Kriegskritik* (criticism of war) that resisted it. The span from German colonialism to World War I brings these explosive periods into relief and challenges readers to think about the intersection of nationalism, violence and gender and about the historical continuities and disruptions that shape such events.

Literary Translation, Reception, and Transfer Norbert Bachleitner 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

Reproduction of the original: *A History of Matrimonial Institutions* by George Elliott Howard

Noble Lies, Slant Truths, Necessary Angels Ellis Shookman 2020-05 Using the nine novels of Christoph Martin Wieland (1733-1813) as case studies, Shookman explores the notion of fictionality both as a distinctive feature of the stories themselves and as a distinguishing characteristic of the fanciful notions, moral laws,

political utopias, religious beliefs, and artistic concepts that they describe. The novels show readers why they should take fictions seriously, yet not literally--or how to suspend disbelief without suspending judgment. Shookman uses the concepts of imagination, ideals, and illusion to investigate how Wieland's novels define fiction, know its referents, and accept its truths. He places Wieland's use of fictionality in the evolution of the German novel, while also using his work to comment on academic and real world implications of fictionality.

Historical Aspects of Pediatric Surgery P. P. Rickham 2012-12-06 At first sight it may appear strange that a volume of *Progress in Pediatric Surgery* should be devoted to the history of our specialty. One assumes that progress is concerned primarily with recent developments whilst history deals with matters of the past. However, in the past there has also been considerable progress in the development of our understanding of paediatric surgical problems, otherwise we would not have progressed to our present achievements. The editors, therefore, do not apologize for compiling this volume but, on the contrary, feel that the publication of this volume is most timely. Modern paediatric surgery has now been practised for three generations. The handful of pioneers who were the founders of our specialty worked mainly before the last world war. A few dozen of the intermediary generation started work immediately after the war, while the new generation who are now dominating our specialty must be counted in thousands. Two factors have radically altered paediatric surgery as practised by the intermediary and the present generation of surgeons.

A War of Loves David Bennett 2018-11-13 At 14, David Bennett came out to his parents. At 19, he encountered Jesus Christ. At that moment, his life changed forever. As a young gay man, David Bennett saw Christianity as an enemy to freedom for LGBTQI people, and his early experiences with prejudice and homophobia led him to become a gay activist. But when Jesus came into his life in a highly unexpected way, he was led down a path he never would have predicted or imagined. In *A War of Loves*, David recounts his dramatic story, from his early years exploring new age religions and French existentialism to his university experiences as an activist.

Following supernatural encounters with God, he embarked on a journey not only of seeking to reconcile his faith and sexuality but also of discovering the higher call of Jesus Christ. *A War of Loves* investigates what the Bible teaches about sexuality and demonstrates the profligate, unqualified grace of God for all people. David describes the joy and intimacy he found in following Jesus Christ and how love has taken on a radically new and far richer meaning for him.

Dialogues between Media Paul Ferstl 2021-01-18 Comparative Literature is changing fast with methodologies, topics, and research interests emerging and reemerging. The fifth volume of ICLA 2016 proceedings, *Dialogues between Media*, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse. "Adaptation" is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature.

Jewish Refugees in Shanghai 1933-1947 Irene Eber 2018-11-12 Around 20.000 Jews, mostly from Germany and Austria, managed to escape Nazi persecution in the late 1930s and fled to Shanghai, where they found a safe refuge despite the increasing harassment of the Japanese authorities. In the face of difficult conditions, the Jewish refugees tried to arrange for both their material needs and the continuation of their communal cultural life. The 184 sources collected in the present volume document not only these efforts, but also the support of the local Jewish aid committees and other, mostly Jewish international aid organizations. The reactions of Nazi authorities in Germany and their representatives in Shanghai are included as well, as are impressions from the Japanese and Chinese sides. The documents - in German, English, Yiddish, Hebrew, Russian, and Chinese - are annotated, partially translated, and accompanied by introductions, maps, and photographs.
