Frontier Society R.A.J. Lier 2013-12-01 The Dutch version of Frontier Society (Samenleving in een Grens gebied) first appeared in 1949. A second Dutch edition of this work has been published in 1971, in the text of which a number of minor improvements have been made and a few passages added here and there, though on the whole the work has remained unchanged. The English translation presented here is of the Dutch text for the second impression. It is more than twenty years since the book was first published. There have been no publications since which have induced me to introduce major corrections or additions to the original work, and although further research in the Public Record Office in The Hague has brought more material to light, this did not give cause for altering the picture presented or the examples given either. This is due in the first place to the character of the work, being an attempt at presenting a structural and historical analysis of the development of an exploitation colony based on slavery into the type of society found in many parts of the world outside Europe in the period preceding decolonization. But it is probably also a consequence of the paucity of historical publications about a country on which there is such a wealth of material available.

Munch : Van Gogh Magne Bruteig 2015-01-06 The affinities between Vincent van Gogh (1853-1890) and Edvard Munch (1863-1944) have long been noted, yet a formal comparative study of the two artists has never been made. Known for emotionally charged paintings, deeply personal and innovative styles, and dramatic lives of hardship, both Van Gogh and Munch fundamentally shaped the modern art movement in late-19th-century Europe. Munch:Van Gogh is the first publication to compare these two infamous and influential artists side by side, offering a groundbreaking critical examination of the parallels between their oeuvres and artistic ambitions. Gorgeously illustrated, the book offers a close consideration of the artists' uses of color, stylization, brushwork, and unconventional compositions in both paintings and drawings. The authors also draw connections between Van Gogh's and Munch's evocative and poignant correspondence with family and friends, allowing readers to understand more profoundly the essence of their art.

Portraits and Dreams Wendy Ewald 2020 This expanded edition of Wendy Ewald's now-rare book, first published in 1985, offers a view of the rural south over the past thirty five years. It includes pictures and stories by eight of Ewald's students, now grownups. Their visions, old and new, illuminate the present and the past.

Dead Aid Dambisa Moyo 2009-03-17 Describes the state of postwar development policy in Africa that has channeled billions of dollars in aid but failed to either reduce poverty or increase growth, offering a hopeful vision of how to address the problem.

Charles I 2018 During his reign, King Charles I (1600-1649) assembled one of Europe's most extraordinary art collections. Indeed, by the time of his death, it contained some 2,000 paintings and sculptures. Charles I: King and Collector explores the origins of the collection, the way it was assembled and what it came to represent. Authoritative essays provide a revealing historical context for the formation of the King's taste. They analyse key areas of the collection, such as the Italian Renaissance, and how the paintings that Charles collected influenced the contemporary artists he commissioned. Following Charles's execution, his collection was sold. This book, which accompanies the exhibition, reunites its most important works in sumptuous detail. Featuring paintings by such masters as Van Dyck, Rubens and Raphael, this striking publication offers a unique insight into this fabled collection. AUTHORS: Desmond Shawe-Taylor is Surveyor of the Queen's Pictures. Per Rumberg is Curator at the Royal Academy of Arts, London. David Ekserdjian is Professor of Film and Art History at the University of Leicester. Dr Barbara Furlotti is Associate Lecturer at the Courtauld Institute of Art, London. Gregory Martin, formerly Curator of Baroque Paintings and Assistant Keeper of the National Gallery, London, is Editor of the Corpus Rubenianum. Guido Rebecchini is Lecturer and Head of the Renaissance Section at the Courtauld Institute of Art, London. Vanessa Remington is Senior Curator of Paintings at The Royal Collection. Dr Karen Serres is the Schroder Foundation Curator of Paintings at the Courtauld Gallery, London. Lucy Whitaker is Assistant Surveyor of the Queen's Pictures. Jeremy Wood is Professor Emeritus of Art History at the University of Nottingham. Helen Wyld is Curator at National Museums Scotland.

SELLING POINTS: * The compelling story of the British monarch who created one of the most stupendous art collections ever assembled * Accompanies the once-in-a-lifetime exhibition that brings together astonishing works by Van Dyck, Rubens, Titian, Holbein, Mantegna and Rembrandt, among many others * A major BBC TV series on the Royal Collection and a documentary on Charles I is planned 200 colour illustrations

Past in the Making Michal Kopeček 2008-01-01 Historical revisionism, far from being restricted to small groups of 'negationists,' has galvanized debates in the realm of recent history. The studies in this book range from general accounts of the background of recent historical revisionism to focused analyses of particular debates or social-cultural phenomena in individual Central European countries, from Germany to Ukraine and Estonia. Where is the borderline between legitimate re-examination of historical interpretations and attempts to rewrite history in a politically motivated way that downgrades or denies essential historical facts? How do the traditional 'national historical narratives' react to the 'spill-over' of international and political controversies into their 'sphere of influence'? Technological progress, along with the overall social and cultural decentralization shatters the old hierarchies of academic historical knowledge under the banner of culture of memory, and breeds an unequalled democratization in historical representation. This book offers a unique approach based on the provocative and instigating intersection of scholarly research, its political appropriations, and social reflection from a representative sample of Central and East European countries.

Literacy Studies Mastin Prinsloo 2013-08-12 This five-volume collection lays out

the foundations and nuances of literacy studies. Beginning with the theoretical and epistemological perspectives that have been influential in shaping contemporary approaches in literacy studies, the set further explores new digital literacies, literacy in educational and institutional contexts, and the crucial issues of literacy in relation to social mobility, multilingualism and globalization. With a full introduction to the set and to each volume, researchers will find in this set a comprehensive guide to this crucial area of study.

Third Generation R & D Philip A. Rousel 1991 This hardcover edition is available only in a premium, full-cloth binding. It will not ship with a dust jacket. Written by three senior consultants from Arthur D. Little, this book provides managers with a new approach that will make R&D a truly competitive weapon. Relates how R&D management has evolved from the naive strategy of hope approach of the 1950s and 1960s, when companies spent lavishly in the vague expectation that something good would result, to the more systematic approach of the past two decades. The third generation of R&D is a pragmatic method for linking R&D to long-term business planning. It shows managers how to: integrate technology and research capabilities with overall management and strategy; break down organizational barriers that isolate R&D from the rest of the company; foster a spirit of partnership and trust between R&D and other units; and create managed portfolios of R&D projects that match corporate goals.

Missing the Revolution Jerome H. Barkow 2006 "The naturalizing perspective of Darwinian thought has become one of the major intellectual currents of our time, pervading contemporary understandings of human nature and society. Unfortunately, many social scientists in sociology, psychology, and sociocultural anthropology have failed to engage with it. Barkow asks his fellow social scientists to put aside their all-too-common preconceptions and stereotypes of the "biological" and to consider a powerful argument that is far different from that of those who once invoked a vocabulary of genes and Darwin as a justification for genocide. He argues that the theoretical perspective that has been so successful when applied to the behavior of every other animal species can be applied just as successfully to our own, and that the real debate is about how to apply it."--BOOK JACKET.

The Humanure Handbook Joseph C. Jenkins 2005 The most comprehensive, up-to-date and thoroughly researched book on the topic of composting human manure available anywhere. It includes a review of the historical, cultural and environmental issues pertaining to "human waste," as well as an in depth look at the potential health risks related to humanure recycling, with clear instructions on how to eliminate those dangers in order to safely convert humanure into garden soil. Written by a humanure composter with over thirty years experience, this classic work now includes illustrated, step-by-step instructions on how to build a humanure toilet, a chapter on alternative graywater systems, photos of owner-built humanure toilets from around the world, and an overview of commercial composting toilets and systems.

The Rites of Passage Arnold van Gennep 2013-11-05 Van Gennep was the first observer of human behaviour to note that the ritual ceremonies that accompany the landmarks of human life differ only in detail from one culture to another, and that they are in essence universal. Originally published in English in 1960. This edition reprints the paperback edition of 1977.

Slow Motion Riot Peter Blauner 2011-03-29 A New York probation officer locks horns with a brutal drug dealer in this "gripping" Edgar Award winner from a New York Times--bestselling author (Library Journal). As a probation officer in a city plagued by drugs, murders, and corruption, Steven Baum supervises marginal criminals--not dangerous enough for prison, but too damaged to go totally free. He watches them, keeps them in line, and once in a long while, helps one improve his life. The job is a vicious grind, but Steven is good at it, and he is about to be rewarded with a transfer to active duty. But first he has to deal with Darryl King. A small-time dealer with big aspirations, Darryl is the kind of thug who makes probation officers want to quit. Although the boy terrifies him, Steven holds out hope for helping him turn his life around. What he doesn't know is that Darryl is a cop-killer--and his troubles have only just begun. This ebook features an illustrated biography of Peter Blauner including rare photos and never-before-seen documents from the author's personal collection.

The Road Since Structure Thomas S. Kuhn 2000-11 Divided into three parts, this work is a record of the direction Kuhn was taking during the last two decades of his life. It consists of essays in which he refines the basic concepts set forth in "Structure"--Paradigm shifts, incommensurability, and the nature of scientific progress.

Human Trafficking and Trauma in the Digital Era Mirjam van Reisen 2017-02-13 Eritrean refugees crisscross between countries in the Horn of Africa and North Africa in search of a safe place. Along their journeys, they are looted, threatened, intimidated, violated, and held for ransom. This book revisits the human trafficking crisis that first emerged in the Sinai at the end of 2008 and examines the expansion of human trafficking of Eritrean refugees and other forms of exploitation beyond the Sinai. It focuses on the modus operandi of these practices and on identifying their key facilitators and beneficiaries. The book locates the origin of these practices within Eritrea; it reveals how a deliberate policy of impoverishment and human rights abuses has driven the people out of the country, and how individuals within Eritrea, and particularly within the ruling party, benefit from the smuggling and trafficking of Eritrean refugees. The use of information communication technologies (ICTs) is identified as key to the new modus operandi of this criminal business and is found to further facilitate widespread collective trauma amongst Eritreans, who witness the abuse of their family members and fellow nationals through digital networks. An entire section in this book is dedicated to assessing the extent and effects of individual and collective trauma caused by Sinai trafficking and to examining potential approaches to healing. Other sections discuss the vulnerabilities of Eritrean minors and women, and the connections between human trafficking, terrorism and organ trafficking. The last section of the book raises the question of accountability. It examines and evaluates international responses to this forgotten crisis, and discusses the need for policies that tackle the problem where it emerges: in Eritrea.

Producing Open Source Software Karl Fogel 2005-10-07 The corporate market is now embracing free, "open source" software like never before, as evidenced by the recent success of the technologies underlying LAMP (Linux, Apache, MySQL, and PHP). Each is the result of a publicly collaborative process among numerous developers who volunteer their time and energy to create better software. The truth is, however, that the overwhelming majority of free software projects fail. To help you beat the odds, O'Reilly has put together *Producing Open Source Software*, a guide that recommends tried and true steps to help free software developers work together toward a common goal. Not just for developers who are considering starting their own free software project, this book will also help those who want to participate in the process at any level. The book tackles this very complex topic by distilling it down into easily understandable parts. Starting with the basics of project management, it details specific tools used in free software projects, including version control, IRC, bug tracking, and Wikis. Author Karl Fogel, known for his work on CVS and Subversion, offers practical advice on how to set up and use a range of tools in combination with open mailing lists and archives. He also provides several chapters on the essentials of recruiting and motivating developers, as well as how to gain much-needed publicity for your project. While managing a team of enthusiastic developers -- most of whom you've never even met -- can be challenging, it can also be fun. *Producing Open Source Software* takes this into account, too, as it speaks of the sheer pleasure to be had from working with a motivated team of free software developers.

Fine Sediment Dynamics in the Marine Environment Johan C. Winterwerp 2002-06-05 Cohesive sediment, or mud, is encountered in most water bodies throughout the world. Often mud is a valuable resource, synonymous with fertile land, enriching the natural environment and used as an important building material. Yet mud also hinders navigation and consequently, dredging operations have been carried out since ancient times to safeguard navigation. Unfortunately, many mud deposits are now contaminated, endangering the eco-system and increasing the costs of dredging operations. The transport and fate of mud in the environment are still poorly understood and the need for basic research remains. This text contains the proceedings of the INTERCOH-2000 conference on progress in cohesive sediment research. It was the sixth in a series of conferences initially started by Professor Ashish Mehta in 1984 as a "Workshop on Cohesive Sediment Dynamics with Special Reference to the Processes in Estuaries". During these conferences the character of the first workshop has always been maintained, that is, small scale and dedicated to the physical and engineering aspects of cohesive sediments, without parallel sessions, but with ample time for discussions during and after the presentations, and followed by a book of proceedings containing thoroughly reviewed papers. INTERCOH-2000 was integrated with the final workshop of the COSINUS project. This project was carried out as a part of the European MAST-3 programme, and almost all European cohesive sediment workers were involved. INTERCOH-2000 focused on the behaviour and modelling of concentrated benthic suspensions, i.e. high-concentrated near-bed suspensions of cohesive sediment. Special attention was paid to: sediment - turbulence interaction; flocculation and settling velocity; high-concentrated mud suspensions; processes in the bed - consolidation; processes on the bed - erosion; field observations on mud dynamics; instrumentation; and numerical modelling.

The Comfort Bird Hylke Speerstra 2017-03-30 A fact-based novel, *The Comfort Bird* follows the experiences of two families of farm laborers from a small town in the Northern Netherlands. One family moves across the ocean in 1911 to seek their fortune on the American Prairies. In a strange twist of fate World War II brings the families together again, on opposing sides of the conflict.

Changing Working Life and the Appeal of the Extreme Right Jörg Flecker 2016-04-08 This book investigates the interplay of the recent transformation of working life and the growing appeal of political right-wing populism and extremism in Europe. It explores the individual and collective reactions and the strategies people develop in order to come to terms with socio-economic change. It raises the question of whether, and to what extent, changes in the employment system and in working life contribute to making people receptive to xenophobia, nationalism and racism. Based on an eight country study using both quantitative and qualitative research methods, this volume makes a significant contribution to the deeper understanding of the subjective reactions to socio-economic change and its political reverberations.

Only a Girl Lian Gouw 2011 Three generations of Chinese women struggle for identity against a political backdrop of the World Depression, World War II, and the Indonesian Revolution. The unique ways in which Nanna, Carolien, and Jenny face their own challenges reveal the complex tale of Chinese society in Indonesia between 1930 and 1952.

Human Development Report 2000 United Nations Development Programme 2000 The eleventh edition in the series, the *Human Development Report 2000: Human Development and Human Rights* provides a thought provoking analysis of these two interrelated and intertwined issues. Human rights and human development are mutually reinforcing and culminate in enlarged human freedom. The Report traces the history of struggle for human rights as a common human experience and outlines the new frontier of the rights agenda for the 21st Century. HDR 2000 demonstrates the ways in which human rights enrich human development goals: adding moral force and ideas of claims, duties and obligations. Human development, in turn, brings a dynamic long-term perspective to human rights and adds more concrete analysis, quantification, and must consider the human rights impacts of policy choices. The Report analyses how human rights must be respected, protected and promoted in the development process. To that end, it addresses the accountability of governments to fulfill their duties, and provides a timely analysis of the duties and obligations of newer actors in the fields of human rights and human development such as corporations, NGOs, individuals, the international community and markets. Of particular importance is consideration of how the current global economic rules

and institutions address human rights issues. The Report proposes strategies for promoting development that also protect and further human rights, with significant implications for a pro-human rights approach to development. HDR 2000 includes and updates the widely respected Human Development Indicators that compare the relative levels of human development in most countries of the world, and presents data tables on all aspects of human development.

The African Colonial State in Comparative Perspective Crawford Young 1994-01-01 In this comprehensive and original study, a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule, which left the continent with a "singularly difficult legacy" that is unique in modern history. Crawford Young proposes a new conception of the state, weighing the different characteristics of earlier European empires (including those of Holland, Portugal, England, and Venice) and distilling their common qualities. He then presents a concise and wide-ranging history of colonization in Africa, from the era of construction through consolidation and decolonization. Young argues that several qualities combined to make the European colonial experience in Africa distinctive. The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self-financing drove colonial powers toward policies of "ruthless extractive action." The persistent, virulent racism that established a distance between rulers and subjects was especially central to African colonial history. Young concludes by turning his sights to other regions of the once-colonized world, comparing the fates of former African colonies to their counterparts elsewhere. In tracing both the overarching traits and variations in African colonial states, he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent.

The Compost Toilet Handbook Joseph Jenkins 2021-05-27 From the author of *The Humanure Handbook*, an expert guide to compost toilets you can build yourself *The Compost Toilet Handbook* is an illustrated instructional manual explaining how to make, use, and manage compost toilets, which are waste-free toilets that rely on the biological process of composting to recycle toilet material. It is based on the author's 40+ years of first-hand experience with "composting as a sanitation alternative." The 254-page indexed book has 161 pages of color photos including 203 photos or illustrations from 13 countries where compost toilet systems are in use. The 2nd half of the book includes case study reviews of compost toilet projects in African prisons and schools; Haitian schools, orphanages, and villages; schools in Mozambique; neighborhoods in Mongolia; a school and village in Nicaragua; and an ecovillage in the US. Along with the nuts and bolts of compost toilet construction, use, and management, the book covers emergency preparedness, cold weather composting, pharmaceuticals, heavy metals, health, and safety.

The Dancing Column Joseph Rykwert 1998-02-06 Joseph Rykwert is one of the major architectural historians of this century, whose full humanistic understanding of architecture and its historical significance is unrivaled. *The Dancing Column* is certain to be his most controversial and challenging work to date. A decade in preparation, it is a deeply erudite, clearly written, and wide-ranging deconstruction of the system of column and beam known as the "orders of architecture," tracing the powerful and persistent analogy between columns and/or buildings and the human body. The body-column metaphor is as old as architectural thought, informing the works of Vitruvius, Alberti, and many later writers; but *The Dancing Column* is the first comprehensive treatment to do this huge subject full justice. It provides a new critical examination of the way the classical orders, which have dominated Western architecture for nearly three millennia, were first formulated. Rykwert opens with a review of their consequence for the leading architects of the twentieth century, and then traces ideas related to them in accounts of sacred antiquity and in scientific doctrines of humor and character. The body-column metaphor is traced in archaeological material from Egypt, Asia Minor, and the Levant, as well as from Greece, drawing on recent accounts by historians of Greek religion and society as well as the latest discoveries of archaeologists. Perhaps most important, Rykwert reexamines its significance for the formation of any theoretical view of architecture. Chapters cover an astonishing breadth of material, including the notions of a set number and a proportional as well as an ornamental rule of the orders; the theological-philosophical interpretation of antiquity on which the domination of the orders relied; the astrological and geometrical canon of the human figure; gender and column; the body as a constantly refashioned cultural product; the Greek temple building and the nature of cu

Flying At Night Ted Kooser 2005-09-20 Named U.S. Poet Laureate for 2004-2006, Ted Kooser is one of America's masters of the short metaphorical poem. Dana Gioia has remarked that Kooser has written more perfect poems than any poet of his generation. In *Flying at Night: Poems 1965-1985*, Kooser has selected poems from two of his earlier works, *Sure Signs* and *One World at a Time* (1985). Taken together or read one at a time, these poems clearly show why William Cole, writing in the *Saturday Review*, called Ted Kooser "a wonderful poet," and why Peter Stitt, writing in the *Georgia Review*, proclaimed him "a skilled and cunning writer. . . . An authentic 'poet of the American people.'"

The Humanure Handbook Joseph C. Jenkins 2019-05 "This is a self-published book that no respectable publisher would touch with a ten-foot shovel. The fourth edition of this underground classic is completely revised, expanded, and updated, help new edition and half sequel. The author draws on forty years of research, experience, and travel, to expand and clarify your knowledge and understanding of . . . your poop and what you can do with it!" --Page 4 of cover.

Two Girls, Fat and Thin Mary Gaitskill 2012-03-13 This captivating novel shimmers with dark intensity and wicked wit. In a stunning synthesis of eroticism, rage, pathos, and humor, Gaitskill's "fine storyteller's pace and brilliant metaphors" (*The New York Times Book Review*) create a haunting and unforgettable journey into the dark side of contemporary life and the deepest recesses of the soul.

The History of Congo Ch. Didier Gondola 2002 Gondola offers concise account of one of Africa's most mineral-rich and strife-torn countries.
