I Am Addict Dennis Wright 2010-12 In here is an offering. An offering designed to enlighten and inspire anyone who is on the less traveled road laid out by the 12 steps of recovery. I say less traveled because the numbers of true recoverees is relatively small in comparison to the numbers of people caught in addictions. This collection has been many, many years in the making. I hope that it may bring some light and maybe a little humor to a relatively dark subject.I have tried not to offend sensitive eyes and pallets but there is some language used in the cramped world of users that works when other language doesn't, and some of it is in this collection. I have refrained from vulgarity however and if you can tolerate some compromise I am sure you will be pleasantly rewarded. If you are new to recovery you may be surprised at some of the things here that you thought no one else had ever thought.It is important to remember that the common thread in addiction is the lie that you are the only one who has ever done the things you are doing. There is only so much dysfunction in the world, and when you have been on the road of recovery for a while it becomes amazingly redundant. Everybody is stunned to find out they are not alone in their weirdness. Stunned and then relieved to find out that there is a way out.The bottom line is that we give up a life of using for a life of service. When you find this and come to terms with serving people who usually don't care, and you serve them anyway, then and only then will you start receiving the rewards that await you.

The Imperial Families of Ancient Rome Maxwell Craven 2019-12-08 The Roman Empire was a spectacular polity of unprecedented scale which stretched from Scotland to Sudan and from Portugal to Persia. It survived for over 500 years in the west and 1,480 years in the east. Ruling it was a task of frightening complexity; few emperors made a good fist of it, yet thanks to dynastic connections, an efficient bureaucracy and a governing class eager to attain the kudos of holding the highest offices, it survived the mad, bad and incompetent emperors remarkably well. Although not always apparent, it was the interplay of emperors' kin and family connections which also made a major contribution to controlling the empire. This book aims to put on record the known ancestry, relations and descendants of all emperors, including ephemeral ones and show connections from one dynasty to another as completely as possible, accompanied by concise biographical notes about each ruler and known facts about family members, which include Romans both famous and obscure. It also attempts to distinguish between certainty and possibility and to eliminate obvious fiction. The introduction provides a narrative lead-in to the creation of the empire, attempts to clarify the complexities of Roman genealogy and assess the sources.

The Circuit Rowan Ricardo Phillips 2018-11-20 Winner of the 2019 PEN/ESPN Award for Literary Sports Writing “The Circuit is the best sports book I've read in years, maybe ever.” –Rich Cohen, author of *The Chicago Cubs and Monsters* “As sports writing goes, *The Circuit* is unusual in the very best way. Rowan Ricardo Phillips writes with such fluidity, and packs the book with bursts of brilliance. This is a compulsively readable guide to one truly Homeric year of professional tennis.” –John Green, author of *The Fault in Our Stars* An energetic, lyrical, genre-defying account of the 2017 tennis season. In *The Circuit*: A Tennis Odyssey, the award-winning poet–and Paris Review sports columnist–Rowan Ricardo Phillips chronicles 2017 as seen through the unique prism of its pivotal, revelatory, and historic tennis season. The annual tennis schedule is a rarity in professional sports in that it encapsulates the calendar year. And like the year, it's divided into four seasons, each marked by a final tournament: the Grand Slams. Phillips charts the year from winter's Australian Open, where Roger Federer and Rafael Nadal renewed their rivalry in a match for the ages, to fall's U.S. Open. Along the way, Phillips paints a new, vibrant portrait of tennis, one that captures not only the emotions, nerves, and ruthless tactics of the point-by-point game but also the quicksilver movement of victory and defeat on the tour, placing that sense of upheaval within a broader cultural and social context. Tennis has long been thought of as an escapist spectacle: a bucolic, separate bauble of life. *The Circuit* will convince you that you don't leave the world behind as you watch tennis—you bring it with you.

Ghosts That I Have Known David D. Ferman 2011-08-27 Dave Ferman is a former high school English and science teacher, and a communications executive in the world's largest defense corporation. In 1956, he completed a tour as a U.S. Marine Grunt, a drill instructor, a military policeman, and a pilot. He also served in Sixth Fleet Air Intelligence with a clandestine atom bomber squadron in the Mediterranean Theatre, and on the West Bank and volatile "Green Line" between Israel and the Kingdom of Jordan. Along the way, he earned a succession of hard-to-get, easy-to-lose top U.S. security clearances that make him among the most highly vetted rookie authors in literature today. Uncle Sam trusts Dave Ferman. While growing up in urban Kansas during the Great Depression, the Dust Bowl, World War II and the birth of Rock 'n Roll, Dave had several unrelated but pleasant paranormal experiences. Curious and wishing for encores at age five, in denial at age10, then comfortably nonjudgmental until age 44 when his deceased father visited Dave one evening during a period of extreme f nancial stress to assure him: "Don't worry, son. Everything is going to be alright," and very soon it was. After that, Dave became a converted believer in some form of life after death. What other choice did he have? Dave's message is twofold: "Don't despair, if all goes well, you and your departed loved ones will be reunited in the hereafter," and "I am no longer afraid to die; and you should not be, either."

Landfill Tim Dee 2019-03-12 Over the past hundred years, gulls have been brought ashore by modernity. They now live not only on the coasts but in our slipstream following trawlers, barges, and garbage trucks. They are more our contemporaries than most birds, living their wild lives among us in towns and cities. In many ways they live as we do, walking the built-up world and grabbing a bite where they can. Yet this disturbs us. We've started fearing gulls for getting good at being among us. We see them as scavengers, not entrepreneurs; ocean-going aliens, not refugees. They are too big for the world they have entered. Their story is our story too. Landfill is the original and compelling story of how in the Anthropocene we have learned about the natural world, named and catalogued it, and then colonized it, planted it, or filled it with our junk. While most other birds have gone in the opposite direction, hiding away from us, some vanishing forever, gulls continue to tell us how the wild can share our world. For these reasons Landfill is the nature book for our times, groundbreaking and genre-bending. Without nostalgia or eulogy, it kicks beneath the littered surface of the things to discover stranger truths.

My Son, Blib. Mandy Aitken 2016-04-23 In the weeks following the death of my son Tony aged just Thirteen, I started writing his memoirs as cathartic therapy in an effort to make some sense of the turmoil I was experiencing and to contain the anger I was feeling. Tony was to experience many prejudices in his life. Bullied from a young age, racism and from the age of nine, he was to live as a diabetic that proved to be brittle and difficult to control. Tony always rose to his challenges with a winning smile and a maturity that belied his age. He experienced premonitions, including his own death. He was a strange mysterious child but he enriched the lives of all those who knew him. I know Tony would wish for any person working in the medical or educational fields. To read his book, thereby preventing any other child suffering the injustices he was forced to endure. I still take strength from my son every single day, and for all bereaved parents that feel such isolation, please read my book. You are not alone.....

NO WAY OUT British actress Callie Crossley is kidnapped and dumped outside a cabin at the edge of Whispering Woods. She seems to be the only one who can hear strange whispering and it’s not long till she realises that there’s something dangerous lurking outside in the woods. The Horrors of Holistic Medicine June B. Schmidt 2017-03-15 For 16 years, the author was a patient at a clinic run by doctors associated with the American Holistic Medical Association (AHMA) who claimed to treat the “whole person” – body, mind, and spirit. As a Christian, this “whole person” philosophy initially appealed to her; however, 16 years later, she realized how completely she had been duped by their unorthodox medical practices. They had subtly brainwashed her to believe she could control her life – and her health. Their advice was not healing; it was destroying her health – body, mind, and spirit. For eight years the author was prescribed iron tablets and iron shots for a “stubborn case” of anemia. When she finally referred herself to a hematologist in late 1981, she learned she never had had iron deficiency anemia; she suffered from a hemolytic process – the anemia of infection and cancer. Her hematologist referred her to a gynecologist who, two weeks later, suspecting ovarian cancer, scheduled her for a hysterectomy. This surgery probably saved her life. After surgery, she thought all her physical complaints would end, but the mystery continued to deepen as new, unexplained symptoms plagued her. With the help of God and her new medical doctors, the mystery was finally resolved – another condition created by her holistic healers. This story is the author’s personal struggle back to “wholeness” once she realized the harm her holistic doctors’ unholy practices had inflicted on her body. The journey back to health was puzzling and often depressing as she struggled through the anger and rage of being deceived by medical professionals she trusted. Only with the help of new, competent doctors and a lot of prayer was she able to achieve wellness and forgive her unscrupulous doctors.

Praise for Infoquake: “Slick high-finance melodrama and dizzying technical speculation lift Edelman’s SF debut. . . . Bursting with invention and panache, this novel will hook readers for the story’s next installment.” –Publishers Weekly “INFOQUAKE should appeal to just about any SF reader, but if you like Herbert’s Dune or any of Stross’ work, you should really enjoy this book.” –SF Signal Praise for MultiReal: “Edelman brings fresh air to the technological thriller. . . . MultiReal itself is firmly established as one of the most fascinating singularity technologies in years.” –Publishers Weekly “Once you realize that Natch is less Neo than he is Steve Jobs, you’re in for a swell ride.” –Sci-Fi WeeklyPraise for Geosynchron: “This smart, idiosyncratic blend of cyberpunk, libertarian entrepreneurship, and social engineering will, I think, stand as a seminal work of 21st century SF.” –Locus “Takes the series one level higher, beyond mundanity to true sense-of-wonder SF, so it finally plays on the level of the masters of modern SF.” –Fantasy Book Critic At the publisher's request, this title is sold without DRM (Digital Rights Management).
