The Power of the Will - Over self, over others, over fate (Translated) Paul C. Jagot 2022-01-02 To possess a great strength of character; the self-confidence that allows initiative and success; a thoughtful, resolute, tenacious will; the faculty to dominate oneself, to guide oneself deliberately; a clear, easy, judicious confidence in the presence of anyone; the gift of influencing the thoughts and dispositions of others; the mental vigor and dexterity necessary to overcome a thousand sorts of difficulties: all this, indeed, seems inaccessible to

most of us. These things, however, can be acquired. The present book will show you how to methodically determine in yourselves, to a large extent, all these qualities. To fortify by education the will, the power that governs the consciousness, is a matter of exercise. The subordination of the various psychological activities to the reflexive control of the intelligence constitutes the greatest quality of success, because it makes you fit to act in spite of obstacle or difficulty, in accordance with a decision or principle fixed in advance. At a certain level of psychic development, the will is constantly and intimately associated with the central "I". It allows the will to direct one's thoughts, to moderate or heighten, as the case may be, emotions or impulses, and to reign supreme over sensory states. Precise, continuous, intense volitions have, it is well understood, a much more effective action at a distance than indecisive, fugitive and neglected thoughts. The individual psychic influence is therefore increased by reducing the multiplicity of moods, learning to think with energy. In this book we will deal with a method of development of the will; first of all, self-control, then the practice of mental influence at a distance over one or more persons, and finally the application of the methods of voluntary conditioning of destiny. The first effects result first in an impulse to mental initiative, then in a feeling of security, of "power": one has the consciousness of being capable of efforts of will. Little by little, one's self-mastery increases, and soon one's senses, one's sensitivity, one's intellect are directed with the greatest satisfaction. Even independently of the direct tele-psychic influence on others, it is evident that one has succeeded in learning to master oneself, to reason about one's impressions. A look that expresses determination, a precise speech conducted with judgment, a calm and energetic attitude, impresses considerably. The man will carry out what he has planned in a manifestly active manner, with full attention to what he is doing, passing at the appointed moment to the next occupation, maintaining during all phases of his work the same directive expressing the same volition.

Thought Vibration William Walker Atkinson 1906

The Law Of Attraction & Practical Mental Influence William Walker Atkinson 2018-01-01 In this New Thought classic, Atkinson looks at the law of attraction in the thought world. He points out the similarities between the law of gravitation and the mental law of attraction. He explains that thought vibrations are as real as those manifesting as light, heat, magnetism and electricity. The difference is in the vibratory rate which also explains the fact that thought vibrations cannot usually be perceived by our 5 senses. This is a really inspiring book. It gets you focused on your dreams and goals with very simple to understand directions. Everyone who reads and applies the information with a spirit of enthusiasm can feel the transformation in his life.

Chiropractic Text Book R. W. Stephenson 2015-12-07 This book is written for use in the class room. It may, however, be studied just as easily by the field practitioner, and is not too technical in most of its parts to be readily grasped by the layman. It has grown, rather than having been written; it is the expansion of the notes which were tested in the class room for six years, and the writer believes that, with the constant arrangement and betterment to suit the requirements of the students of Chiropractic, this has created a real textbook, rendering easily understood a subject that students have always said was difficult.

Guest is God Drew Thomases 2019-10-30 Every year, the Indian pilgrimage town of Pushkar sees its population of 20,000 swell by two million visitors. Since the 1970s, Pushkar, which is located about 250 miles southwest of the capital of New Delhi, has received considerable attention from international tourists. Originally hippies and backpackers, today's visitors now come from a wide range of social positions. To locals, though, Pushkar is more than just a gathering place for pilgrims and tourists: it is where Brahma, the creator god, made his home; it is where Hindus should feel blessed to stay, if only for a short time; and it is where locals would feel lucky to be reborn, if only as a pigeon. In short, it is their paradise. But even paradise needs upkeep. In *Guest is God*, Drew Thomases uses ethnographic fieldwork to explore the massive enterprise of building heaven on earth. The articulation of sacred space necessarily works alongside economic changes brought on by tourism and globalization. Here the contours of what actually constitutes paradise are redrawn by developments in, and the agents of, tourism. And as paradise is made and remade, people in Pushkar help to create a brand of Hindu religion that is tailored to its local surroundings while also engaging global ideas. The goal, then, becomes to show how religion and tourism can be mutually constitutive.

Practical Mental Influence: The Secret Edition – Open Your Heart to the Real Power and Magic of Living Faith and Let the Heaven Be in You, Go Deep Inside Yourself and Back, Feel the Crazy and Divine Love and Live for Your Dreams William Walker Atkinson 2013-03-14 Students of history find a continuous chain of reference to the mysterious influence of one human mind over that of others. In the earliest records, traditions and legends may be found reference to the general belief that it was possible for an individual to exert some weird uncanny power over the minds of other persons, which would influence the latter for good or evil. And more than this, the student will find an accompanying belief that certain individuals are possessed of some mental power which bends even "things" and circumstances to its might...

Mental Therapeutics; Or, Just how to Heal Oneself and Others Theron Q. Dumont 1916 This influential 1916 pseudonymous work on the power of self-healing, combines scientific knowledge regarding the prevention and cure of physical ills, with "New Thought" belief in the power of the human mind. The text also includes a series of breathing and mental exercises that link the thinking mind with the "abdominal brain," to help master emotions and improve physical well being.

Practical Mental Influence William W Atkinson 2018-02-07 There is nothing unscientific, nothing romantic in admitting that an idea can influence a brain from a distance. The action of one human being upon another, from a distance, is a scientific fact. When a Thought or Feeling is generated in the mind or brain of a

person, the energy generated flows forth from the brain of the person in the form of waves of mental energy, spreading from the immediate neighborhood of the thinker to a distance proportioned to the strength of the thought or feeling. These Thought-Waves have the property of awakening similar vibrations in the minds of other persons coming within their field of force, according to the laws of Mental Influence.

Mental Therapeutics Theron Q. Dumont 2012 These lessons give you the essence and substance of the best scientific knowledge regarding the prevention and cure of physical ills by the power of the mind. But in presenting the theory and practice of Mental Therapeutics there is absolutely no reference to mysticism or occultism, or strange metaphysical and philosophical theories. Mental Therapeutics is a science, not a superstition; it is something based on sound scientific facts, and not upon vague imaginings.
