El liderazgo en la educación teológica, volumen 3 Fritz Deininger 2021-04-12 El programa de ICETE para el liderazgo académico (IPAL, por sus siglas en inglés) fue establecido oficialmente en 2010 a raíz de la necesidad de brindar capacitación a las instituciones teológicas en diversas regiones del mundo. IPAL ofrece seminarios de cuatro días en un ciclo de tres años para el desarrollo profesional de administradores académicos evangélicos, con el fin de ayudar a las instituciones en su búsqueda de calidad y excelencia. Este libro es el tercer y último volumen de la serie, cuya finalidad es acompañar y apoyar los seminarios de IPAL, además de proveer, independientemente, un recurso para ayudar a las instituciones teológicas en el desarrollo de su facultad de profesores. El desarrollo docente está en el corazón de la educación teológica. Este libro sienta los fundamentos para que las instituciones puedan equipar y entrenar a sus líderes emergentes y encomendarles la tarea de avanzar sus carreras y mejorar los estándares de su docencia e investigación.

Los que han contribuido a este volumen comparten los hallazgos de investigaciones llevadas a cabo en instituciones académicas evangélicas en diversos contextos alrededor del mundo, a fin de que otros administradores sénior puedan mejorar la calidad de la educación teológica en su propia institución.

Encyclopedia of Christian Education George Thomas Kurian 2015-05-07 This reference work tells the unique history of Christian education and shows how Christian educators pioneered such institutions and reforms as universal literacy, home schooling, Sunday schools, women's education, graded schools, compulsory education of the deaf and blind, and kindergarten.

The Science of Effective Mentorship in STEMM National Academies of Sciences, Engineering, and Medicine 2020-01-24 Mentorship is a catalyst capable of unleashing one's potential for discovery, curiosity, and participation in STEMM and subsequently improving the training environment in which that STEMM potential is fostered. Mentoring relationships provide developmental spaces in which students' STEMM skills are honed and pathways into STEMM fields can be discovered. Because mentorship can be so influential in shaping the future STEMM workforce, its occurrence

should not be left to chance or idiosyncratic implementation. There is a gap between what we know about effective mentoring and how it is practiced in higher education. The Science of Effective Mentorship in STEMM studies mentoring programs and practices at the undergraduate and graduate levels. It explores the importance of mentorship, the science of mentoring relationships, mentorship of underrepresented students in STEMM, mentorship structures and behaviors, and institutional cultures that support mentorship. This report and its complementary interactive guide present insights on effective programs and practices that can be adopted and adapted by institutions, departments, and individual faculty members.

**Adviser, Teacher, Role Model, Friend**

National Academy of Engineering 1997-08-30 This guide offers helpful advice on how teachers, administrators, and career advisers in science and engineering can become better mentors to their students. It starts with the premise that a successful mentor guides students in a variety of ways: by helping them get the most from their educational experience, by introducing them

to and making them comfortable with a specific disciplinary culture, and by offering assistance with the search for suitable employment. Other topics covered in the guide include career planning, time management, writing development, and responsible scientific conduct. Also included is a valuable list of bibliographical and Internet resources on mentoring and related topics.

**Seeking the Lost, Keeping Them, Making Them Disciples**

Dr. Benoit Petit-Homme 2018-08-27 Seeking the Lost, Keeping Them, Making Them Disciples By: Dr. Benoit Petit-Homme God bless Dr. Benoit Petit-Homme for all the work he has done in putting this book together. I believe that any church or leader who will follow these biblically-grounded principles will see beautiful results in changed lives for the kingdom. Teresa L. Reeve, PhD, Associate Dean, Seventh-day Adventist Theological Seminary, Associate Professor of New Testament Contexts, Andrews University, United States of America Dr. Benoit Petit-Homme's contribution to the discipleship crisis is a compelling re-examination of scripture, church history, and 21st century pastoral experience. Practical and convincing, his straightforward style brings real solutions to the evangelistic Achilles' heels of attrition. He reminds us of what has been forgotten and calls us back to our relational roots. Pr. Ron Kelly, Senior Pastor, Village Seventh-day Adventist Church, Berrien Springs, Michigan, United States of America Seeking the Lost, Keeping Them, Making Them Disciples by Dr. Benoit Petit-Homme is a handy Christ-based discipleship resource that will contribute to the mission of training and equipping church ministry leaders in the evangelistic work of reaping, retaining, and nurturing new believing Christians. This is a must-read for church officers, pastors, and ministry directors in the Christian church. Ron C. Smith, PhD., D.Min, President, Southern Union Conference of SDA Every year, many thousands of people hear the Good News of Jesus Christ and choose to be baptized and join a church community. Unfortunately, it is

also true that every year many new converts leave a church relatively shortly after joining. The specific reasons that each person leaves the church could fill a book by themselves, but they all boil down to one thing: a lack of focus on the part of the church community on turning converts into disciples of our Savior. A disciple of Christ does more than attend church services. A disciple is an active member of the church community. A disciple is a witness to others. A disciple seeks to grow the church by seeking to lead everyone they meet to Christ. Dr. Benoit Petit-Homme is a committed disciple of Christ, and after extensive study of exactly why new converts leave the church, he has developed a process by which any church can make disciples. All it takes is a little extra work, a bit of encouragement, and an unwavering faith in the Lord.

**Faculty Mentoring** Susan L. Phillips 2015-08-13 Faculty mentoring programs greatly benefit the institutions that have instituted them, and are effective in attracting and retaining good faculty. Prospective faculty members commonly ask about mentoring at on-campus interviews, and indicate that it is a consideration when choosing a position. Mentoring programs also increase the retention rate of junior faculty, greatly reducing recruitment costs, and particularly help integrate women, minority and international faculty members into the institution, while providing all new hires with an orientation to the culture, mission and identity of the college or university. The book provides step-by-step guidelines for setting up, planning, and facilitating mentoring programs for new faculty members, whether one-on-one, or using a successful group model developed and refined over twenty-five years by the authors. While it offers detailed guidance on instituting such programs at the departmental level, it also makes the case for establishing school or institutional level programs, and delineates the considerable benefits and economies of scale these can achieve. The authors provide guidance for

mentors and mentees on developing group mentoring and individual mentor / protégé relationships – the corresponding chapters being available online for separate purchase; as well as detailed outlines and advice to department chairs, administrators and facilitators on how to establish and conduct institution-wide group mentoring programs, and apply or modify the material to meet their specific needs. For training and faculty development purposes, we also offer two chapters as individual e-booklets. Each respectively provides a succinct summary of the roles and expectations of the roles of Mentor and Mentee. Faculty Mentoring / Mentor Guide Faculty Mentoring / Mentee Guide The booklets are affordably priced, and intended for individual purchase by mentors and mentees, and are only available through our Web site.

Leadership in Christian Higher Education

Michael Wright 2016-06-27 Universities and Colleges with a Christian affiliation have in recent years sought to renew and redefine their identities and almost all have rearticulated their mission for the modern age after a long and serious process of reappraisal. This process has been accompanied by an ongoing discussion of the nature and identity of higher education itself. This discussion has required leadership that is different from most secular leadership. This book provides a range of experienced voices, including the Archbishop of Canterbury, that reflect on the character and mission of leadership in Christian higher education in the 21st Century.

**Vocation Across the Academy** David S. Cunningham 2017 "The language of vocation and calling can encourage faculty and students to venture out of their academic silos and to reflect on larger questions of meaning and purpose. With contributors from across the disciplines, the book demonstrates that vocation can reframe current debates about the role of higher education today"--

**Leading Lives That Matter** Mark R. Schwen 2006-04-25 Compiles a wide range of texts-from fiction, social science,

philosophy, and ancient poetry-related to questions that arise for those who are trying to decide what to do with their lives

**Modern Mentoring** Randy Emelo 2015-05-14 If you want to do more with mentoring, you've found the right book. The notion that only the most experienced members of an organization can guide a few promising go-getters no longer applies in today's business world. In *Modern Mentoring*, Randy Emelo advocates for a vastly different mentoring practice. Drawing from a rich career, he explains why organizations should consider all employees potential mentors, making everyone both advisors and learners. *Modern Mentoring* offers a blueprint for success with a model that benefits more than the select few and steers clear of forcing connections between people. Emelo demonstrates that a culture in which people choose what they want to learn and whom they learn from, while increasing overall organizational intelligence, is completely within reach. In this book you will learn: what it takes to grow a modern mentoring culture which tools to use as you facilitate organization-wide mentoring how organizations like Monsanto and Humana benefit from modern mentoring.

*Putting Students First* Larry A. Braskamp 2006 Braskamp (emeritus, education, Loyola U., Chicago), along with colleagues at Northwestern and Washington State, discuss their study of how ten diverse church-related colleges and universities (of some 900) prepare their students for life beyond the campus. Through a "4C framework" based on personal investment theory-- culture, curriculum, co-curriculum (connecting in-class and out-of-class experiences), and community, they examine the career training, intellectual, moral, and spiritual contexts in which this mission is pursued. Questions are posed about how campuses can support holistic student development.

**Faculty Mentorship at Historically Black Colleges and Universities** Conway, Cassandra Sligh 2018-02-28 An important aspect of higher education is the mentorship

of junior faculty by senior faculty. Addressing the vital role mentorship plays in an academic institution's survival promotes more opportunities and positive learning experiences. *Faculty Mentorship at Historically Black Colleges and Universities* provides emerging research on the importance of recruiting, retaining, and promoting faculty within Historically Black Colleges and Universities. While highlighting specific issues and aspects of mentorship in college, readers will learn about challenges and benefits of mentorship including professional development, peer mentoring, and psychosocial support. This book is an important resource for academicians, researchers, students, and librarians seeking current research on the growth of mentorship in historically black learning institutions.

*Leadership in Theological Education, Volume 3* Fritz Deininger 2018-10-14 The ICETE Programme for Academic Leadership (IPAL) was officially established in 2010 and arose out of the need to provide training to theological institutions in different regions of the world. IPAL provides a three-year cycle of seminars for the professional development of evangelical academic leaders and administrators to help institutions in their pursuit of quality and excellence in theological education. This publication is the third and final volume intended to accompany and support the IPAL seminars as well as be an independent resource to aid theological institutions with faculty development. Faculty development is at the heart of theological education. This book lays the foundation for institutions to equip, train and release emerging academic leaders to advance their careers and improve the standards of their teaching and research. The contributors to this volume share the findings of research conducted at evangelical academic institutions in various contexts around the world so other senior administrators can enhance the quality of theological education at their own institution.

*Mapping Your Academic Career* Gary M. Burge 2015-07-09 Experienced professor

Gary Burge identifies three cohorts or stages in the academic career and explores the challenges, pitfalls and triumphs of each. Based on a career's worth of experiences, observations and insights, he leads academics to reflect on where they are, have been and are headed in their professional lives.

### **Catholic Schools and the Future of the Church**

Kathleen Engebretson 2014-02-27  
During the first decade of the 21st century the Catholic Church in the developed world has faced a decline in its moral authority, increasing accusations of irrelevance to a secular age, and a steep and steady decline in commitment among successive generations from the 1960s on. Despite this Catholic schools have multiplied and grown in popularity and educational achievement. The book sets out a programme for the contribution of Catholic schools to the future of the Church, covering such topics as the religious education curriculum in its cognitive and affective aspects, the sacramental life of the school, selection of staff, the issue of staff and Catholic witness and many other topics. Engebretson argues that Catholic schools are a powerful key to the future of the Church and shows how, within their diversity, Catholic schools can be ecclesial communities, which have at their heart the building up of the Church.

### **A Companion to Organizational Anthropology**

D. Douglas Caulkins 2012-09-24  
The first comprehensive guide to anthropological studies of complex organizations Offers the first comprehensive reference to the anthropological study of complex organizations Details how organizational theory and research in business has adopted anthropology's key concept of culture, inspiring new insights into organizational dynamics and development Highlights pioneering theoretical perspectives ranging from symbolic and semiotic approaches to neuroscientific frameworks for studying contemporary organizations Addresses the comparative and cross-cultural dimensions of multinational corporations and of non-governmental organizations working in the

globalizing economy Topics covered include organizational dynamics, entrepreneurship, innovation, social networks, cognitive models and team building, organizational dysfunctions, global networked organizations, NGOs, unions, virtual communities, corporate culture and social responsibility Presents a body of work that reflects the breadth and depth of the field of organizational anthropology and makes the case for the importance of the field in the anthropology of the twenty-first century

### **Can Hope Endure?**

James C. Kennedy 2005  
The spate of books written recently on Christian higher education highlights a common theme -- how numerous colleges founded by church bodies have gradually lost their religious moorings, often culminating in what historian George Marsden calls "established nonbelief." "Can Hope Endure?" examines the history of Hope College in Holland, Michigan, as it has struggled to find a faithful middle way between secularization and withdrawal from mainstream academic and American culture. Authors James Kennedy and Caroline Simon track Hope College's responses to various social and intellectual challenges through careful analysis of school records, newspaper stories, extant histories, and interviews with faculty members and past presidents. Hope's history reveals that the school is exceptional, having followed the predictable trajectory, yet changing course in some ways. Given this unusual history, the story of why and how Hope College moved toward reestablishing the role of religion in its institutional life yields important lessons for other schools facing the same challenges. Neither an attack on Hope College nor the kind of celebratory institutional history that so many schools have authorized, this book is instead a thoughtful, instructive study written by two professors who have witnessed firsthand many of Hope's struggles to retain its identity and purpose. The book's narrative is enriched by the "binocular vision" provided by a professional historian and a professional philosopher,

and collaboration has afforded Kennedy and Simon the critical distance necessary to ask hard questions about Hope and, by extension, other institutions like it. "Can Hope Endure?" will be of real interest not only to readers associated with Hope College but also to those following or participating in the ongoing conversation about Christianity and higher education.

*The Supportive Learning Environment* Jennifer Hindman 2013-10-02 This entry in the James H. Stronge Research-to-Practice Series focuses on the characteristics of teachers who create supportive learning environments for their students. By

conveying a sense of immediacy, credibility, and caring, they communicate to students in both verbal and nonverbal ways that are essential to cultivating a positive and productive learning community. In this book, Stronge, Grant, and Hindman provide a comprehensive overview of the qualities of a supportive teacher. They offer a bridge between research-based theories and practical classroom applications, with templates, planning forms, and other reproducibles. The authors help teachers move toward establishing a learning environment that contributes to effective instructional practices. Topics include: engaging students and their families, effective communication, student ownership of the learning environment, and much more.

*Shaping Work-Life Culture in Higher Education* Laura Koppes Bryan 2014-07-11 Shaping Work-Life Culture in Higher Education provides strategies to implement beneficial work-life policies in colleges and universities. As compared to the corporate sector, higher education institutions have been slow to implement policies aimed at fostering diversity and a healthy work-life balance, which can result in lower morale, job satisfaction, and productivity, and causes poor recruitment and retention. Based on extensive research, this book argues that an effective organizational culture is one in which managers and supervisors recognize that professional and personal lives are not mutually exclusive. With concrete guidelines, recommendations, techniques, and additional resources throughout, this book outlines best practices for creating a beneficial work-life culture on campus, and documents cases of supportive department chairs and administrators. A necessary guide for higher education leaders, this book will inform administrators about how they can foster positive work-life cultures in their departments and institutions.

**Cultivating Careers** Cynthia Golden 2006 [This book] provides an overview of current principles and practices for mentoring and developing IT professionals in higher

education. Edited by EDUCAUSE Vice President Cynthia Golden and written by top leaders in the industry who have distinguished themselves and their organizations for sharpening others' skills, institutional savvy, and ability to lead, the book's chapters are organized into two sections: the organizational perspective and the individual perspective. In addition, the online site for the book will have exclusive audio interviews with CIOs and other senior IT leaders in higher education who give advice for future leaders and talk about how they overcame challenges and moved ahead in their own careers.

**Cultivating Mentors** Todd C. **Thriving in Leadership** Karen A. Longman 2012-08-14 In this book, seventeen senior leaders from faith-based colleges and universities across North America—collectively bringing with them hundreds of years of leadership experience—share fresh insights into the theory and practice of Christian higher education leadership. These authors speak honestly about the successes, failures, and

demands that have shaped their current leadership decisions and their visions for the future.

Putting Students First Larry A. Braskamp 2016-01-19 In *Putting Students First*, the authors argue that colleges can and should invest in holistic student development by recognizing and building on the students' search for purpose in life, intellectually, spiritually, and morally. Based on a study conducted at ten religiously-affiliated schools, the book urges all colleges to rethink their approach to teaching and advising the increasingly diverse students of today; their critical mission should be to prepare students to become ethically responsible and active contributors to society, as well as critical thinkers and skilled professionals. *Putting Students First* offers perspectives and recommendations in areas of holistic student development such as Understanding millennial college students The role of faculty in defining culture The design and implementation of curriculum The impact of cocurricular involvement Fostering relationships with on-campus and off-campus communities By organizing the campus environment into "4Cs"—culture, curriculum, cocurriculum, and community—the authors create a conceptual framework for faculty, student affairs staff, and administrators to discuss, plan, and create college environments that effectively support the learning and development of students. Each chapter includes an introduction, evidence and analysis, a summary, and questions to help readers consider how to develop students holistically on their own campuses.

Joining the Mission Susan VanZanten 2011-02-18 *Joining the Mission* is a helpful guide for new (and experienced) faculty at religious colleges and universities. Susan VanZanten here provides an orientation to the world of Christian higher education and an introduction to the academic profession of teaching, scholarship, and service, with a special emphasis on opportunities and challenges common to mission-driven institutions. From designing a syllabus to dealing with problem students, from working

with committees to achieving a balanced life, VanZanten's guidebook will help faculty across the disciplines Art to Zoology and every subject between understand better what it means to pursue faithfully a vocation as professor. Susan VanZanten's *Joining the Mission* is an exceptional resource for all faculty members at Christian colleges and universities. While it is a very practical guide to teaching at a university, the book also helps the reader understand and wrestle with the nuances of what it means to be a faculty member at a mission-driven institution. I appreciate VanZanten's contribution to articulating why mission is important at our institutions, why we care about it so much, and how we can better accomplish it. Thomas Cedel President, Concordia University Texas

**Seeing the Light** Samuel Schuman  
2010-01-18 Schuman concludes that these schools—Baylor University, Anderson University, New Saint Andrews College, Calvin College, North Park University, George Fox University, Westmont College, Oral Roberts University, Northwestern College, and Wheaton College—and others like them offer important and timely lessons for the broader higher-education community.
