*The Great Mistake* Jonathan Lee  
2021-06-17 The 'Father of Greater New York' is dead. Shot outside his Park Avenue mansion in the year of our Lord, 1903. In the hour of his death, will the truth of his life finally break free? Born to a struggling farming family in 1820, Andrew Haswell Green was a self-made man who reshaped Manhattan, built Central Park and turned New York into a modern metropolis. Now, at eighty-three, when he thought the world could hold no more surprises, he is murdered. As the detective assigned to the case traces his ghost across the city, other spectres appear: a wealthy courtesan; a broken-hearted man in a bowler hat; and an ambitious politician, Samuel, whose lifelong friendship was a source of joy and frustration. In a life of industry and restraint, where is the space for love? As restlessly inventive and absorbing as its protagonist, *The Great Mistake* is the story of a city, and a singular man, transformed by longing.

**Occult Roots of Religious Studies**

Yves Mühlematter 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological, most prominently theological and phenomenological ideas: first through the establishment of comparative, philological and sociological methods and secondly through the demand for intentional neutrality. This interpretation caused important roots in occult-esoteric traditions to be repressed. This process of "purification" (Latour) is not to be equated with the origin of the academic studies. De facto, the elimination of idealistic theories took time and only happened later. One example concerning the early entanglement is Tibetology, where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society. Similarly, the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance, which hold that all religions have a common origin. In this perspective, it is not only the history of religious studies which must be revisited, but also the partial shaping of religious studies by these traditions, insofar as it saw itself as a counter-model to occult ideas.

**Fairy Tale as Myth/Myth as Fairy Tale**

Jack Zipes 2013-04-06 " Explores the historical rise of the literary fairy tale as genre in the late seventeenth century. In his examinations of key classical fairy tales, Zipes traces their unique metamorphoses in history with stunning discoveries that reveal their ideological relationship to domination and oppression. Tales such as *Beauty and the Beast*, *Snow White and the Seven Dwarves*, and *Rumpelstiltskin* have become part of our everyday culture and shapers of our identities. In this lively work, Jack Zipes explores the historical rise of the literary fairy tale as genre in the late seventeenth century and examines the ideological relationship of classic fairy tales to domination and oppression in Western society. The fairy tale received its most "mythic" articulation in America.

Consequently, Zipes sees Walt Disney's *Snow White* as an expression of American male individualism, film and literary interpretations of L. Frank Baum's *The Wizard of Oz* as critiques of American myths, and Robert Bly's *Iron John* as a misunderstanding of folklore and traditional fairy tales. This book will change forever the way we look at the fairy tales of our youth. *National American Kennel Club Stud Book* 1901

Spaces of Identity examines the ways in which collective cultural identities are being reshaped under conditions of a post-modern geography and a communications environment of cable and satellite broadcasting. To address current problems of identity, the authors look at contemporary politics between Europe and its most significant others: America; Islam and the Orient. They show that it's against these places that Europe's own identity has been and is now being defined. The Strange Case of the Dutch Painter

Timothy Miller 2022-02-01 Paris, 1890. When Sherlock Holmes finds himself chasing an art dealer through the streets of Paris, he's certain he's smoked out one of the principals of a cunning forgery ring responsible for the theft of some of the Louvre's greatest masterpieces. But for once,

Holmes is dead wrong. He doesn't know that the dealer, Theo Van Gogh, is rushing to the side of his brother, who lies dying of a gunshot wound in Auvers. He doesn't know that the dealer's brother is a penniless misfit artist named Vincent, known to few and mourned by even fewer. Officialdom pronounces the death a suicide, but a few minutes at the scene convinces Holmes it was murder. And he's bulldog-determined to discover why a penniless painter who harmed no one had to be killed—and who killed him. Who could profit from Vincent's death? How is the murder entwined with his own forgery investigation? Holmes must retrace the last months of Vincent's life, testing his mettle against men like the brutal Paul Gauguin and the secretive Toulouse-Lautrec, all the while searching for the girl Olympia, whom Vincent named with his dying breath. She can provide the truth, but can anyone provide the proof? From the madhouse of St. Remy to the rooftops of Paris, Holmes hunts a killer—while the killer hunts him.
