Merchant Princes and Charlatans Or Makers of Money?

Henry Sless 2021 This book provides a critical analysis

of visual images of British and international finance during the nineteenth century. Its focus is on the financiers themselves, contrasting the depiction of the respectable Merchant Princes with the less than perfect charlatans (white-collar criminals) who defrauded investors of millions. The breakdown of trust between financiers and investors that evolved during this period is represented visually in depictions of the emotional response of investors to the uncertain financial climate. Throughout the book a PEARL methodology has been used to critique the images reflecting the impact of any Publishers political bias, the Editorial and Artistic techniques used to convey the messages in the images, and the Legal context (especially a concern in countries such as France and Germany where censorship was strict). The book concludes that white-collar criminals were invariably secretly admired in Britain, and rarely severely satirised. Similarly, Merchant Princes were depicted favourably in Britain as members of the ruling elite during the latter half of the century. This is contrasted with the more extreme anti-monopolistic images in the US and the extreme anti-Semitic treatment of Jewish financiers in France and Germany. Henry Sless is currently a Research Associate at Henley Business School at the University of Reading, UK. He received a Masters in historical cartoons from the University of Kent, UK, and a doctorate in visual

images of finance in the Victorian era from the University of Reading.

Painting and Patronage in Cologne, 1300-1500 Brigitte Corley 2000 Cologne in the later Middle Ages was an elegant and wealthy mercantile city much favoured by popes and emperors. The largest town in Northern Europe, the site of an important university and seat of a major archbishopric, it had a cosmopolitan population of painters, illuminators, sculptors and goldsmiths and a patrician class who were sophisticated collectors and knowledgeable patrons of art. This book - the first such study in English - traces the development of the Cologne school of painting over two centuries. It begins with the period before 1400, when the adaption of French ideas to the indige- nous tradition produced an elegant,

genteel art, characterized by elongated figures and graceful gestures. A change was heralded by the Veronica Master's introduction of the International Courtly Style around 1400, with its sophisticated iconography, costly pigments, exquisite punchwork, gesso jewels and precious brocade fabrics, and by the Dombild Master's introduction around 1440 of Eyckian proportions and realism. In the final phase of this development, the Master of the St Bartholomew Altarpiece opened the door to the Renaissance with his highly distinctive style and innovative iconography. The book is fully illustrated and accompanied by a translation of the guild regulations; a biographical index of archbishops and lay patrons; and a hand- list of cited panels grouped according to location.

Death of an Empire Robert Booth 2011-08-16 SALEM has long been notorious for the witch trials of 1692. But a hundred years later it was renowned for very different pursuits: vast wealth and worldwide trade. Now Death of an Empire tells the story of Salem's glory days in the age of sailing, and the murder that hastened its descent. When America first became a nation, Salem was

the richest city in the republic, led by a visionary merchant who still ranks as one of the wealthiest men in history. For decades, Salem connected America with the wider world, through a large fleet of tall ships and a pragmatic, egalitarian brand of commerce that remains a model of enlightened international relations. But America's emerging big cities and westward expansion began to erode Salem's national political importance just as its seafaring economy faltered in the face of tariffs and global depression. With Salem's standing as a world capital imperiled, two men, equally favored by fortune, struggled for its future: one, a progressive merchant-politician, tried to build new institutions and businesses, while the other, a reclusive crime lord, offered a demimonde of forbidden pleasures. The scandalous trial that followed signaled Salem's fall from national prominence, a fall that echoed around the world in the loss of friendly trade and in bloody reprisals against native peoples by the U.S. Navy. Death of an Empire is an exciting tale of a remarkably rich era, shedding light on a little-known but fascinating period of American history in which characters such as Nathaniel Hawthorne, John Quincy Adams, and Daniel Webster interact with the ambitious merchants and fearless mariners who made Salem famous around the world.

The Merchant Prince of Black Chicago Robert E. Weems Jr. 2020-03-09 Born to enslaved parents, Anthony Overton became one of the leading African American entrepreneurs of the twentieth century. Overton's Chicago-based empire ranged from personal care products and media properties to insurance and finance. Yet, despite success and acclaim as the first business figure to win the NAACP's Spingarn Medal, Overton remains an enigma. Robert E. Weems Jr. restores Overton to his rightful place in American business history. Dispelling stubborn myths, he traces Overton's rise from mentorship by Booker T. Washington, through early failures, to a fateful move to Chicago in 1911. There, Overton started a popular

magazine aimed at African American women that helped him dramatically grow his cosmetics firm. Overton went on to become the first African American to head a major business conglomerate, only to lose significant parts of his businesses—and his public persona as “the merchant prince of his race”—in the Depression, before rebounding once again in the early 1940s. Revealing and panoramic, *The Merchant Prince of Black Chicago* weaves the fascinating life story of an African American trailblazer through the eventful history of his times. *Halting State* Charles Stross 2007-10-02 “Halting State [is] a near-future story that is at once over-the-top and compellingly believable.” – Vernor Vinge, author of *Rainbows End* In the year 2018, Sergeant Sue Smith of the Edinburgh constabulary is called in on a special case. A daring bank robbery has taken place at Hayek Associates—a dot-com start-up company that’s just floated onto the London stock exchange. But this crime may be a bit beyond Smith’s expertise. The prime suspects are a band of marauding orcs with a dragon in tow for fire support. The bank is located within the virtual reality land of Avalon Four, and the robbery was supposed to be impossible. When word gets out, Hayek Associates and all its virtual “economies” are going to crash hard. For Smith, the investigation seems pointless. But the deeper she digs, the bigger the case gets. There are powerful players—both real and pixelated—who are watching her every move. Because there is far more at stake than just some game-head’s fantasy financial security...

Empire Games Charles Stross 2017-01-17 Charles Stross builds a new series with *Empire Games*, expanding on the world he created in the *Family Trade* series, a new generation of paratime travellers walk between parallel universes. The year is 2020. It's seventeen years since the Revolution overthrew the last king of the New British Empire, and the newly-reconstituted North American Commonwealth is developing rapidly, on course to defeat the French and bring democracy to a troubled world. But Miriam Burgeson, commissioner in charge of the shadowy Ministry of Intertemporal Research and Intelligence—the paratime espionage agency tasked with catalyzing the Commonwealth's great leap forward—has a problem. For years, she's warned everyone: “The Americans are coming.” Now their drones arrive in the middle of a succession crisis. In another timeline, the U.S. has recruited Miriam's own estranged daughter to spy across timelines in order to bring down any remaining world-walkers who might threaten national security. Two nuclear superpowers are set on a collision course. Two increasingly desperate paratime espionage agencies try to find a solution to the first contact problem that doesn't result in a nuclear holocaust. And

two women—a mother and her long-lost daughter—are about to find themselves on opposite sides of the confrontation. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Revolution Business Charles Stross 2009-04-14 A latest installment in the series that includes *The Merchants' War* and *The Clan Corporate* finds the army of the Clan locked in a fortress under siege that coexists in two parallel universes—a situation that is further complicated by Miriam's prospects for succeeding the fallen Duke Angbard.

The Clan Corporate Charles Stross 2007-04-01 The third book (after *The Family Trade* and *The Hidden Family*) in the saga of the Merchant Princes by Charles Stross, in which Miriam gets into deadly trouble. Miriam Beckstein has gotten in touch with her roots and they have nearly strangled her. A young, hip, business journalist in Boston, she discovered (in *The Family Trade*) that her family comes from an alternate reality, that she is very well-connected, and that her family is a lot too much like the mafia for comfort. In addition, starting with the fact that women are family property and required to breed more family members with the unique talent to walk between worlds, she has tried to remain an outsider and her own woman. And start a profitable business in a third world she has discovered, outside the family reach (recounted in *The Hidden Family*). She fell in love with a distant relative but he's dead, killed saving her life. There have been murders, betrayals. Now, however, in *The Clan Corporate*, she may be overreaching. And if she gets caught, death or a fate worse is around the bend. There is for instance the brain-damaged son of the local king who needs a wife. But they'd never make her do that, would they? The Merchant Prince Armin Shimerman 2000-06-01 For seven years, Armin Shimerman played the diminutive entrepreneur Quark on *Star Trek: Deep Space Nine*®. Now, he teams up with author Michael Scott to chronicle the tale of a diminutive entrepreneur straight out of Earth history: Dr. John Dee. Despite his lack of physical stature, the five-foot-tall Dee was a towering figure in Renaissance Europe: alchemist, necromancer, scientist, philosopher, adviser to royalty, enemy to the vicious de Medici clan -- and confidant of Dyckon, a member of the alien race known as the Roc. Ancient and wise, the Roc have come to Earth to observe the evolution of humanity, not to interfere. But during the course of his studies, Dyckon has come to call John Dee friend. When the de Medicis arrest Dee in Venice, Dyckon chooses to save his friend from prison and leave him in suspended animation until the year 2099. The "philosopher of Albion" wakes in a confusing future where humanity is on the brink of developing the ultimate weapon -- a weapon that will mean the destruction of the human race! The only thing that can prevent Armageddon in the future is a genius from the past -- but can even the great John Dee save humanity from itself?

Something destroyed that civilization, Rita's people are about to rouse it - and two worlds will face the consequences.

Trans-Himalayan Caravans Janet Rizvi 2001 This book documents the extraordinarily complex pattern of trade upon which the pre-Independence economy of Ladakh largely depended. Although the trans-Himalayan traffic in subsistence commodities in other parts of the Himalaya has been researched, that in Ladakh has until now remained almost entirely undocumented. The book is based mainly on oral evidence; this is related to documentary sources ranging from the seventeenth to the twentieth century. This intriguing account of Ladakhi trade is spiced with enough personal details of the traders at all levels, to demonstrate that trade is something more than a matter of routes and commodities, prices and rates of profit; it is an activity carried out by real human beings, profoundly colouring their entire way of life.

The Merchants' War Charles Stross 2008-09-30 In the sequel to *The Clan Corporate*, Miriam seeks refuge from the machinations of both the Clan and their opponents by escaping to yet another world, only to discover that there is a nasty war going on in the Gruinmarkt world of the Clan and that unexpected perils await her. Her alternate home seems located around the Middle Ages, making her world-hopping relatives top dogs when it comes to "importing" guns and other gadgets from modern-day America. Payment flows from their services to U.S. drug rings--after all, world-skipping drug runners make great traffickers. In a land where women are property, she struggles to remain independent. The Karimjee Jivanjee Family Gijsbert Oonk 2009 This book provides a well documented analysis of the Karimjee Jivanjee family and the family business, Karimjee Jivanjee & Co. Drawing from a variety of sources, including interviews with the Karimjee family and associates, the author offers a comprehensive, fascinating biography that spans over 200 years. The Karimjee family has played a major role in shaping the political and economic history of Zanzibar and Tanzania, with close ties to the British and German Empires, as well as the African Independence Movements. Although heavily affected by the nationalization programmes of the late 1960's, they have since recovered and are now back in business. Much more than a 'rags to riches' story, it is an account of East Africa told through the

eyes of the family of a South Asian settler. --Book Jacket.

Merchant Kings Stephen R. Bown 2010-12-07 Commerce meets conquest in this swashbuckling story of the six merchant-adventurers who built the modern world It was an era when monopoly trading companies were the unofficial agents of European expansion, controlling vast numbers of people and huge tracts of land, and taking on governmental and military functions. They managed their territories as business interests, treating their subjects as employees, customers, or competitors. The leaders of these trading enterprises exercised virtually unaccountable, dictatorial political power over millions of people. The merchant kings of the Age of Heroic Commerce were a rogue's gallery of larger-than-life men who, for a couple hundred years, expanded their far-flung commercial enterprises over a sizable portion of the world. They include Jan Pieterszoon Coen, the violent and autocratic pioneer of the Dutch East India Company; Peter Stuyvesant, the one-legged governor

of the Dutch West India Company, whose narrow-minded approach lost Manhattan to the British; Robert Clive, who rose from company clerk to become head of the British East India Company and one of the wealthiest men in Britain; Alexandr Baranov of the Russian American Company; Cecil Rhodes, founder of De Beers and Rhodesia; and George Simpson, the "Little Emperor" of the Hudson's Bay Company, who was chauffeured about his vast fur domain in a giant canoe, exhorting his voyageurs to paddle harder so he could set speed records. Merchant Kings looks at the rise and fall of company rule in the centuries before colonialism, when nations belatedly assumed responsibility for their commercial enterprises. A blend of biography, corporate history, and colonial history, this book offers a panoramic, new perspective on the enormous cultural, political, and social legacies, good and bad, of this first period of unfettered globalization.

Now, in *The Merchants' War*, Miriam has escaped to yet another world and remains in hiding from both the Clan and their opponents. There is a nasty shooting war going on in the Gruinmarkt world of the Clan, and we know something that Miriam does not; something that she's really going to hate--if she lives long enough to find out. The Routledge Companion to the History of Retailing Jon Stobart 2018-11-08 Retail history is a rich, cross-disciplinary field that demonstrates the centrality of retailing to many aspects of human experience, from the provisioning of everyday goods to the shaping of urban environments; from earning a living to the construction of identity. Over the last few decades, interest in the history of retail has increased greatly, spanning centuries, extending to all areas of the globe, and drawing on a range of disciplinary perspectives. By offering an up-to-date, comprehensive thematic, spatial

and chronological coverage of the history of retailing, this Companion goes beyond traditional narratives that are too simplistic and Euro-centric and offers a vibrant survey of this field. It is divided into four broad sections: 1) Contexts, 2) Spaces and places, 3) People, processes and practices and 4) Geographical variations. Chapters are written in an analytical and synthetic manner, accessible to the general reader as well as challenging for specialists, and with an international perspective. This volume is an important resource to a wide range of readers, including marketing and management specialists, historians, geographers, economists, sociologists and urban planners.

Conrad Von Soest Brigitte Corley 1996 This book is the first fully illustrated and comprehensive monograph devoted to the Westphalian artist Conrad von Soest, who played a pivotal role in the development of North European art around 1400, and whose elegant and luxurious altarpieces highlight a fascinating period of German social and economic history. His complete oeuvre is reproduced here in 34 colour plates as well as a host of black and white, detail and comparative illustrations. Among the works are the famous *Niederwildungen* and *Dortmund* altarpieces as well as the smaller scale panels which project in their rich and exquisitely painted figures both the importance of their subjects and the sophistication of their donors. Dr Corley has researched Conrad's work in depth setting it in the context of his period and his early training in Paris in the 1380s. His iconography and style are analyzed, particularly the vibrant and vigorous underdrawing revealed by infra-red photography which has helped the author to establish, among the works attributed to him, which of these were from his hand and which by his workshop or imitators. Finally, she has traced his legacy throughout the countries in the sphere of the Hanseatic League and his influence over later German masters of the School of Cologne. A detailed Catalogue and an extensive Bibliography establish the known corpus of his oeuvre.

"Our Crowd" Stephen Birmingham 2015-12-01 The #1 New York Times bestseller that traces the rise of the Guggenheims, the Goldmans, and other families from immigrant poverty to social prominence. They immigrated to America from Germany in the nineteenth century with names like Loeb, Sachs, Seligman, Lehman, Guggenheim, and Goldman. From tenements on the Lower East Side to Park Avenue mansions, this handful of Jewish families turned small businesses into imposing enterprises and amassed spectacular fortunes. But despite possessing breathtaking wealth that rivaled the Astors and Rockefellers, they were barred by the gentile establishment from the lofty realm of "the 400," a register of New York's most elite, because of their

religion and humble backgrounds. In response, they created their own elite "100," a privileged society as opulent and exclusive as the one that had refused them entry. "Our Crowd" is the fascinating story of this rarefied society. Based on letters, documents, diary entries, and intimate personal remembrances of family lore by members of these most illustrious clans, it is an engrossing portrait of upper-class Jewish life over two centuries; a riveting story of the bankers, brokers, financiers, philanthropists, and business tycoons who started with nothing and turned their family names into American institutions.
