of the pipe shall be taken after the water has stopped rising i n the plastic tube. Multiply the height in feet above the pipe invert to the ground water table by 0.43 psig/ft and add it to the required 3.5 psig minimum test pressure. For example, if the height of water is 11.5 ft, then the added pressure will be 0. 43 psig/ft x 11.5 ft or 4.9 ...

falling intonation rising intonation Other symbols The symbol / (oblique stroke) between two words or phrases means that either is possible. I will be/shall be at home tomorrow means that two sentences are possible: I will be at home tomorrow and I shall be at home tomorrow. We also use an oblique stroke around phonetic symbols, e.g. tea

Mercury Land of Craters Image Credit: NASA Mercury is extreme. Of all the planets in our solar system, it is the smallest, it has the oldest surface, it is closest to the Sun, it has the largest daily variations in surface temperature, and, until recently it was the least explored. NASA's Mercury Surface, Space Environment, Geochemistry, and
