Practical Economics Nika Gilauri 2016-12-26 This book is open access under a CC BY license. In this book, Nika Gilauri reveals his formulas for government reform and economic recovery, including how to fight against corruption, reform fiscal policy and tax systems, privatize state-owned enterprises, build a welfare system for those most in need, create a competitive education and healthcare system, and streamline procurement. All formulas are corroborated by practical experience and empirical evidence gathered during Mr Gilauri's term as a cabinet member (2004-2009) and prime minister (2009-2012) of Georgia, and provide an in-depth view of what worked in the case of Georgia since 2003, and how lessons learned could be applied in other parts of the world.

Creative Strategy in Advertising Bonnie L. Drenwiny 2007 CREATIVE STRATEGY IN ADVERTISING provides everything students need to be successful as advertising professionals in today's fast-changing media environment. Focusing on the idea that good advertising always starts with an understanding of people and an awareness of their needs, the text advances through the creative process step by step. It focuses first on the creative person, and then on strategy and problem solving. Complementing expert instruction with extensive examples of layouts and ad copy, this book gives students the necessary tools to create winning advertising strategies.

Family Wars Grant Gordon 2010-03-03 Many of the world's most successful businesses are family owned. With this comes the threat of family bust-ups, sibling rivalry and petty jealousies. Family Wars takes you behind the scenes on a rollercoaster ride through the ups and downs of some of the biggest family-run companies in the world, showing how family in-fighting has threatened to bring about their downfall. Whether it's the Redstone's courtroom battles or the feud over Henry Ford's reluctance to let go of the reins, the book reveals the origins, the extent and the final resolution of some of the most famous family feuds in recent history. Names you'll recognise include: the Gallo Family; the Guinness story; the Pathak family; and the Gucci family. An astonishing exposé of the way families do business and how arguments can threaten to blow a business apart, Family Wars also offers valuable advice on how such problems can be contained and solved.

Mergent's Dividend Achievers Summer 2004 Mergent Inc 2004-07 To find the most consistent dividend-paying stocks, professional investment managers, analysts, and knowledgeable individual investors use Mergent's Dividend Achievers™-- the definitive guide for sound investments. Mergent's Dividend Achievers™ profiles approximately 300 U.S. and 30 Canadian companies that have increased their regular cash dividends annually for ten or more consecutive years. These are truly remarkable companies. The average total return of these dividends Achiever companies has outperformed the S&P 500 for the last ten years.

From our Dividend Achievers, you can put together an extraordinary, diversified portfolio. They include large-cap, mid-cap, and small-cap companies. The companies represent more than fifty different industries, from consumer goods to real estate to utilities. For each Dividend Achievers company, this handbook provides a full-page profile with in-depth investment criteria, including a stock performance chart, dividend record, business description, up to eight years of financial results and ratios, analysis of recent developments, and more. With just a glance, you can see how the company has done in the past and decide whether you want to investigate further. This latest edition includes numerous valuable rankings, such as ten-year average annual dividend growth rate; one-, three-, and five-year total returns; top twenty return on equity and return on assets; along with top twenty rankings by revenue, net income, total assets, long-term and short-term price scores, highest and lowest P/E ratios, and more! And now, with new tax law changes slashing dividend taxes, investing in Dividend Achiever companies has never been better! Our Dividend Achievers will provide low-taxed income today and perhaps low-taxed capital gains tomorrow. A century of Providing Trusted Information. For over a century, Mergent has been the preferred source for global business and financial information. Providing comprehensive data to savvy investors--both novice and professional, Mergent offers the easy way to pick specific stocks that excel at paying dividends and piling up profits

Rich States, Poor States Arthur B. Laffer 2009-03

Mergent's Dividend Achievers Mergent, Inc. 2007-06 This reference profiles 300 U.S. companies that have increased their regular cash dividends annually for the past ten or more consecutive years. Since 1979, Mergent has tracked companies that have consistently rewarded their shareholders through outstanding records of dividend increases.

Entrepreneurship Marc J. Dollinger 2003 For junior/senior/graduate-level courses in Entrepreneurship, New Venture Creation, and Small Business Strategy. Based on the premise that entrepreneurship can be studied systematically, this text offers a comprehensive presentation of the best current theory and practice. It takes a resource-based point-of-view, showing how to acquire and use resources and assets for competitive advantage. FOCUS ON THE NEW ECONOMY * NEW-Use of the Internet-Integrated throughout with special treatment in Ch. 6. * Demonstrates to students how the new economy still follows many of the rigorous rules of economics, and gives them examples of business-to-business and business-to-customer firms so that they can build better business models. * NEW-2 added chapters on e-entrepreneurship-Covers value pricing; market segmentation; lock-in; protection of intellectual property; and network externalities. * Examines the new economy and the types of resources, capabilities, and strategies that are needed for success in the Internet world. * Resource-based theory-Introduced in Ch. 2 and revisited in each subsequent chapter to help tie concepts together. * Presents an overarching framework, and helps students focus

A Patriot's History of the United States Larry Schweikart 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

World History Eugene Berger 2014 Annotation World History: Cultures, States, and Societies to 1500 offers a comprehensive introduction to the history of humankind from prehistory to 1500. Authored by six USG faculty members with advance degrees in History, this textbook offers up-to-date original scholarship. It covers such cultures, states, and societies as Ancient Mesopotamia, Ancient Israel, dynastic Egypt, India's Classical Age, the Dynasties of China, Archaic Greece, the Roman Empire, Islam, Medieval Africa, the Americas, and the Khanates of Central Asia. It includes 350 high-quality images and maps, chronologies, and learning questions to help guide student learning. Its digital nature allows students to follow links to applicable sources and videos, expanding their educational experience beyond the textbook. It provides a new and free alternative to traditional textbooks, making World History an invaluable resource in our modern age of technology and advancement.

The Millionaire Real Estate Investor Gary Keller 2005-04-07 "This book is not just a bargain, it's a steal. It's about your financial potential. It's about discovering the millionaire investor in you.

Educating Students with High Ability Catherine Clark 2004 Perceived to be academically successful, highly able or gifted children often appear not to require much teacher assistance and subsequently are given less attention. However, these students do have needs, and this book seeks to explain what these are and ways in which teachers can begin to meet them, even when working in difficult circumstances with little support. This revised second edition includes chapters on identification of high ability and the impact of that identification, unrecognised ability, teaching methods, underachievement, student/teacher relations, organisation of learning, gender and culture, general advice to teachers, parental and community involvement.

Practical Trend Analysis Michael C. Thomsett 2019-05-20 Written for traders with a basic knowledge of trends and technical analysis, Practical Trend Analysis introduces advanced analytical tools for recognizing how risks evolve as trends progress. Readers will learn how to use trend prediction to manage market risks far more effectively. Michael C. Thomsett provides insights on technical signals such as candlestick reversals, price gaps, and movement through resistance or support; distinguishing between strong and weak trends; objectively evaluating the health of a stock's current price levels, trading breadth, and technical condition; and anticipating plateaus, slowdowns, or price reversals. He presents detailed coverage of trendlines and channel lines; patterns and confirmations of both reversals and continuations; broadening and narrowing trends, price jumps; and trends based on volume, moving averages, and momentum. Practical Trend Analysis will enable traders, both amateur and professional, to go far beyond mere trend "following." Michael C. Thomsett is a market expert, author, speaker, and coach. His many books include Stock Market Math, Candlestick Charting, and The Mathematics of Options.

Security Operations Management Robert McCreie 2011-03-31 The second edition of Security Operations Management continues as the seminal reference on corporate security management operations. Revised and updated, topics covered in depth include: access control, selling the security budget upgrades to senior management, the evolution of security standards since 9/11, designing buildings to be safer from terrorism, improving relations between the public and private sectors, enhancing security measures during acute emergencies, and, finally, the increased security issues surrounding the threats of terrorism and cybercrime. An ideal reference for the professional, as well as a valuable teaching tool for the security student, the book includes discussion questions and a glossary of common security terms. Additionally, a brand new appendix

contains contact information for academic, trade, and professional security organizations. * Fresh coverage of both the business and technical sides of security for the current corporate environment * Strategies for outsourcing security services and systems * Brand new appendix with contact information for trade, professional, and academic security organizations

Zero to One Peter Thiel 2014-09-16 #1 NEW YORK TIMES BESTSELLER • "This book delivers completely new and refreshing ideas on how to create value in the world."--Mark Zuckerberg, CEO of Meta "Peter Thiel has built multiple breakthrough companies, and Zero to One shows how."--Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we're too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

When Cultures Collide, Third Edition Richard Lewis 2010-11-26 The classic work that revolutionized the way business is conducted across cultures around the world.

There Was a Country Chinua Achebe 2012-10-11 From the legendary author of Things Fall Apart comes a longawaited memoir about coming of age with a fragile new nation, then watching it torn asunder in a tragic civil war The defining experience of Chinua Achebe's life was the Nigerian civil war, also known as the Biafran War, of 1967-1970. The conflict was infamous for its savage impact on the Biafran people, Chinua Achebe's people, many of whom were starved to death after the Nigerian government blockaded their borders. By then, Chinua Achebe was already a world-renowned novelist, with a young family to protect. He took the Biafran side in the conflict and served his government as a roving cultural ambassador, from which vantage he absorbed the war's full horror. Immediately after, Achebe took refuge in an academic post in the United States, and for more than forty years he has maintained a considered silence on the events of those terrible years, addressing them only obliquely through his poetry. Now, decades in the making, comes a towering reckoning with one of modern Africa's most fateful events, from a writer whose words and courage have left an enduring stamp on world literature. Achebe masterfully relates his experience, bothas he lived it and how he has come to understand it. He begins his story with Nigeria's birth pangs and the story of his own upbringing as a man and as a writer so that we might come to understand the country's promise, which turned to horror when the hot winds of hatred began to stir. To read *There Was a Country* is to be powerfully reminded that artists have a particular obligation, especially during a time of war. All writers, Achebe argues, should be committed writers--they should speak for their history, their beliefs, and their people. Marrying history and memoir, poetry and prose, *There Was a Country* is a distillation of vivid firsthand observation and forty years of research and reflection. Wise, humane, and authoritative, it will stand as definitive and reinforce Achebe's place as one of the most vital literary and moral voices of our age.

Mergent's Handbook of Common Stocks Summer 2006 Mergent, Inc. 2006-07-31 "Mergents Handbook of Common Stocks" offers quick and easy access to key financial statistics on approximately 900 New York Stock Exchange-listed issues. Filled with the latest available facts and figures, "Mergents Handbook of Common Stocks" can help readers make the most informed investment decisions possible.

The Millionaire Real Estate Agent Gary Keller 2004-04-01 Take your real estate career to the highest level! "Whether you are just getting started or a veteran in the business, The Millionaire Real Estate Agent is the step-by-step handbook for seeking excellence in your profession and in your life." --Mark Victor Hansen, cocreator, #1 New York Times bestselling series Chicken Soup for the Soul "This book presents a new paradigm for real estate and should be required reading for real estate professionals everywhere." --Robert T. Kiyosaki, New York Times bestselling author of Rich Dad, Poor Dad The Millionaire Real Estate Agent explains: Three concepts that drive production Economic, organizational, and lead generation models that are the foundations of any high-achiever's business How to "Earn a Million," "Net a Million," and "Receive a Million" in annual income

Money and Power William D. Cohan 2011-04-12 The bestselling author of the acclaimed House of Cards and The Last Tycoons turns his spotlight on to Goldman Sachs and the controversy behind its success. From the outside, Goldman Sachs is a perfect company. The Goldman PR machine loudly declares it to be smarter, more ethical, and more profitable than all of its competitors. Behind closed doors, however, the firm constantly straddles the line between conflict of interest and legitimate deal making, wields significant influence over all levels of government, and upholds a culture of power struggles and toxic paranoia. And its clever bet against the mortgage market in 2007--unknown to its clients--may have made the financial ruin of the Great Recession worse. Money and Power reveals the internal schemes that have guided the bank from its founding through its remarkable windfall during the 2008 financial crisis. Through extensive research and interviews with the inside players, including current CEO Lloyd Blankfein, William Cohan constructs a nuanced, timely portrait of Goldman Sachs, the company that was too big--and too ruthless--to fail.

Gambling Debt E. Paul Durrenberger 2014-12-04 Gambling Debt is a game-changing contribution to the discussion of economic crises and neoliberal financial systems and strategies. Iceland's 2008 financial collapse was the first case in a series of meltdowns, a warning of danger in the global order. This full-scale anthropology of financialization and the economic crisis broadly discusses this momentous bubble and burst and places it in theoretical, anthropological, and global historical context through descriptions of the complex developments leading to it and the larger social and cultural implications and consequences. Chapters from anthropologists, sociologists, historians, economists, and key local participants focus on the neoliberal policies--mainly the privatization of banks and fishery resources--that concentrated wealth among a select few, skewed the distribution of capital in a way that Iceland had never experienced before, and plunged the country into a full-scale economic crisis. Gambling Debt significantly raises the level of understanding and debate on the issues relevant to financial crises, painting a portrait of the meltdown from many points of view--from bankers to schoolchildren, from fishers in coastal villages to the urban poor and immigrants, and from artists to philosophers and other intellectuals. This book is for anyone interested in financial troubles and neoliberal politics as well as students and scholars of anthropology, sociology, economics, philosophy, political science, business, and ethics. Publication supported in part by the National Science Foundation.

Mergent Handbook of Dividend Achievers: Winter 2020-2021 Mergent Inc. 2021-01-15 To find the most consistent dividend-paying stocks, professional investment managers, analysts, and knowledgeable individual investors use Mergent's Handbook of Dividend Achievers- the definitive guide for sound investments. Also Includes Canadian Companies with 5 consecutive years of Dividend Increases.

Socio-scientific Issues in the Classroom Troy D. Sadler 2011-05-11 Socio-scientific issues (SSI) are open-ended, multifaceted social issues with conceptual links to science. They are challenging to negotiate and resolve, and they create ideal contexts for bridging school science and the lived experience of students. This book presents the latest findings from the innovative practice and systematic investigation of science education in the context of socio-scientific issues. Socio-scientific Issues in the Classroom: Teaching, Learning and Research focuses on how SSI can be productively incorporated into science classrooms and what SSI-based education can accomplish regarding student learning, practices and interest. It covers numerous topics that address key themes for contemporary science education including scientific literacy, goals for science teaching and learning, situated learning as a theoretical perspective for science education, and science for citizenship. It presents a wide range of classroom-based research projects that offer new insights for SSI-based education. Authored by leading researchers from eight countries across four continents, this book is an important compendium of syntheses and insights for veteran researchers, teachers and curriculum designers eager to advance the SSI agenda.

Education as Cultivation in Chinese Culture Shihkuan Hsu 2014-10-24 Given the increasing global interest in Chinese culture, this book uses case studies to describe and interpret Chinese cultivation in contemporary Taiwanese schools. Cultivation is a concept unique to Chinese culture and is characterized by different attitudes towards teaching and learning compared to Western models of education. The book starts with a discussion of human nature in Chinese schools of philosophy and levels of goodness. Following the philosophical background is a presentation of how cultivation is practiced in Chinese culture from prenatal through high school education. The case studies focus both on how students are cultivated as they become members of Chinese society, and on what role teachers play in cultivating the children in school. In addition, supports from Chinese educational institutions, including public schools, families, and organizations such as private cram schools, are introduced and explained. In closing, the book presents a critique of the modern school reform movement and the conflicts between the reform proposals and traditional practices. Based on the collective work of Taiwanese researchers in the fields of education, history and anthropology, the book identifies the purpose of education as cultivating virtue in a process of creating an ideal person who serves society, and describes the way teachers have carried on this tradition despite its faltering status in contemporary educational discourse and in the face of reform movements.

India Unbound Gurcharan Das 2002 Traces India's economic and social transformation into a free-market democracy, sharing the stories of its top players while weaving in the author's own life experiences as a former CEO for Procter & Gamble India. Reprint.

American Inventors, Entrepreneurs, and Business Visionaries Charles W. Carey 2009-01-01 This A to Z biographical dictionary contains 260 entries on important Americans from colonial times to the present. Each entry begins with a short description of the person's importance, then the entry provides the person's birth date and information, and proceeds chronologically through his/her life. Suggestions for further reading follow each entry. There is a topical introduction to the book, a bibliography at the end of the book, two subject indexes, and a general index.

Collective Courage Jessica Gordon Nembhard 2015-06-13 In *Collective Courage*, Jessica Gordon Nembhard chronicles African American cooperative business ownership and its place in the movements for Black civil rights and economic equality. Not since W. E. B. Du Bois's 1907 *Economic Co-operation Among Negro Americans* has there been a full-length, nationwide study of African American cooperatives. *Collective Courage* extends that story into the twenty-first century. Many of the players are well known in the history of the African American experience: Du Bois, A. Philip Randolph and the Ladies' Auxiliary to the Brotherhood of Sleeping Car Porters, Nannie Helen Burroughs, Fannie Lou Hamer, Ella Jo Baker, George Schuyler, and the Young Negroes' Co-operative League, the Nation of Islam, and the Black Panther Party. Adding the cooperative movement to

Black history results in a retelling of the African American experience, with an increased understanding of African American collective economic agency and grassroots economic organizing. To tell the story, Gordon Nembhard uses a variety of newspapers, period magazines, and journals; co-ops' articles of incorporation, minutes from annual meetings, newsletters, budgets, and income statements; and scholarly books, memoirs, and biographies. These sources reveal the achievements and challenges of Black co-ops, collective economic action, and social entrepreneurship. Gordon Nembhard finds that African Americans, as well as other people of color and low-income people, have benefitted greatly from cooperative ownership and democratic economic participation throughout the nation's history.

The ETF Book Richard A. Ferri 2011-01-04 Written by veteran financial professional and experienced author Richard Ferri. The ETF Book gives you a broad and deep understanding of this important investment vehicle and provides you with the tools needed to successfully integrate exchange-traded funds into any portfolio. An Introduction to Japanese Society Yoshio Sugimoto 2010-06-22 Essential reading for students of Japanese society. An Introduction to Japanese Society now enters its third edition. Here, internationally renowned scholar, Yoshio Sugimoto, writes a sophisticated, yet highly readable and lucid text, using both English and Japanese sources to update and expand upon his original narrative. The book challenges the traditional notion that Japan comprises a uniform culture, and draws attention to its subcultural diversity and class competition. Covering all aspects of Japanese society, it includes chapters on class, geographical and generational variation, work, education, gender, minorities, popular culture and the establishment. This new edition features sections on: Japan's cultural capitalism; the decline of the conventional Japanese management model; the rise of the 'socially divided society' thesis; changes of government; the spread of manga, animation and Japan's popular culture overseas; and the expansion of civil society in Japan.

Automatic Income Matthew Paulson 2016-11-08 Your Blueprint for Successful Dividend Investing Disappointed with your current investment portfolio? Do you wish you had more money set aside for retirement? Are you tired of the day-to-day ups and downs of the market? Do you wish there was a strategy that you could follow that actually outperforms the market? Automatic Income is the best-selling dividend-investing book that teaches investors how to earn double-digit returns using a simple, proven and conservative investment strategy. Written by the founder and editor of MarketBeat, a daily investment newsletter with more than 425,000 subscribers, this invaluable resource will show you how to identify investments that offer lower volatility, higher returns and an automatic income stream of dividends that you can live off of during retirement. This strategy is easy to implement and will set you off on a path toward true financial independence. Here's what you'll learn: How you can create an automatic income stream you can actually live on during retirement. How to build an investment portfolio of rock-solid companies that outperform the S&P 500. What criteria can identify dividend stocks that consistently return 10% or more per year. Which newsletters, websites and other resources you should use to research dividend stocks. Why you won't be tempted to cash out your dividend stock portfolio during the next recession. How to reduce your tax bill by choosing the right dividend investments and the right accounts. Why dividend-growth investing is superior to traditional income investing strategies. Market risk is near an all-time high and interest rates are at a historic low. There has never been a better time to switch to a more sensible wealth-generation strategy. If you want to improve your market returns, spend less time worrying about money and achieve true financial independence, this book is for you.

Unshakeable Anthony Robbins 2017-02-28 After interviewing fifty of the world's greatest financial minds and penning the #1 New York Times bestseller Money: Master the Game, Tony Robbins returns with a step-by-step playbook, taking you on a journey to transform your financial life and accelerate your path to financial freedom. No matter your salary, your stage of life, or when you started, this book will provide the tools to help you achieve your financial goals more rapidly than you ever thought possible. Robbins, who has coached more than fifty million people from 100 countries, is the world's #1 life and business strategist. In this book, he teams up with Peter Mallouk, the only man in history to be ranked the #1 financial advisor in the US for three consecutive years by Barron's. Together they reveal how to become unshakeable--someone who can not only maintain true peace of mind in a world of immense uncertainty, economic volatility, and unprecedented change, but who can profit from the fear that immobilizes so many. In these pages, through plain English and inspiring stories, you'll discover... -How to put together a simple, actionable plan that can deliver true financial freedom. -Strategies from the world's top investors on how to protect yourself and your family and maximize profit from the inevitable crashes and corrections to come. -How a few simple steps can add a decade or more of additional retirement income by discovering what your 401(k) provider doesn't want you to know. -The core four principles that most of the world's greatest financial minds utilize so that you can maximize upside and minimize downside. -The fastest way to put money back in your pocket: uncover the hidden fees and half truths of Wall Street--how the biggest firms keep you overpaying for underperformance. -Master the mindset of true wealth and experience the

fulfillment you deserve today.

There's a Future Nayef Al-Fodhan 2013-04-01 The book presents eighteen essays that explore the future from very different perspectives, grouped under five overarching themes: Fundamentals, Science and Technology, The Environment, Global Society, and People. The final chapter details how BBVA is pr

Social Inequality and Social Stratification in U.S. Society Christopher Doob 2015-08-27 Social Inequality – examining our present while understanding our past. Social Inequality and Social Statification in US Society, 1st edition uses a historical and conceptual framework to explain social stratification and social inequality. The historical scope gives context to each issue discussed and allows the reader to understand how each topic has evolved over the course of American history. The authors use qualitative data to help explain socioeconomic issues and connect related topics. Each chapter examines major concepts, so readers can see how an individual's success in stratified settings often relies heavily on their access to valued resources—types of capital which involve finances, schooling, social networking, and cultural competence. Analyzing the impact of capital types throughout the text helps map out the prospects for individuals, families, and also classes to maintain or alter their position in social-stratification systems. Learning Goals Upon completing this book, readers will be able to: Analyze the four major American classes, as well as how race and gender are linked to inequalities in the United States Understand attempts to reduce social inequality Identify major historical events that have influenced current trends Understand how qualitative sources help reveal the inner workings that accompany people's struggles with the socioeconomic order Recognize the impact of social-stratification systems on individuals and families

Consumption and Well-Being in the Material World Miriam Tatzel 2013-09-30 This volume addresses how we can find happiness and well-being in the material world. It builds on previous works that find that materialism is associated with lowered well-being (materialists are less happy) and that consumerism, in all its profusion, is harmful to environmental well-being. How can we use the money and possessions in our lives in the service of well-being? Apparently not by being materialistic. Can we benefit from the many wonders of the marketplace -- in technology, convenience and aesthetics -- without falling prey to the lures and dangers of excessive material preoccupation? Can we meet our material needs in ways that nourish growth and well-being? The authors of the chapters in this volume are on-going researchers into such questions. Herein you can learn about the hedonic benefits of thrift and of spending on experiences; how possessions can be beneficial; how different types of consumers spend money; cultural variations in conceptions of the "good life;" how we might reconcile environmental and consumer well-being; and how to measure the whole of human, economic, and environmental well-being. Taken all together, this collection finds grounds for compatibility between what's good for the consumer and what's good for the environment. This volume appeals to academics, professionals, students and others interested in materialism and consumer well-being.

Mergent's Handbook of Common Stocks Summer 2004 Mergent Inc 2004-07 Mergent's Handbook of Common Stocks(TM) offers you quick and easy access to key financial statistics on approximately 900 New York Stock Exchange--listed issues. Start-up Nation Dan Senor 2011-09-07 START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.
