*Painting in Renaissance Venice* Peter Humfrey 1995-01-01 The Renaissance was a golden age in the long history of Venetian painting, and the art

that came from Venice during that era includes some of the most visually exciting works in the whole of western art. This attractive book - a comprehensive account of painting in Venice from Bellini to Titian to Tintoretto - is an accessible introduction to the paintings of this period. Peter Humfrey surveys the development of a distinctly Venetian artistic tradition from the middle years of the fifteenth century to the end of the sixteenth century. He discusses the work of Jacopo and Giovanni Bellini, Giorgione, Titian, Veronese and Tintoretto as well as the paintings of those less well known - such as the three Vivarini, Cima, Carpaccio, Palma Vecchio, Lorenzo Lotto and Jacopo Bassano. Humfrey analyses these painters' works in terms of their pictorial

style, technique, subject matter, patronage and function. He also sets the art against the background of the political, social and religious conditions of Renaissance Venice, as outlined in his Introduction. The book includes an appendix that provides brief biographies of thirty-six of the most important painters active in Renaissance Venice.

**Sense Of Place** Barbara Allen 2021-10-21 Despite the homogenization of American life, areas of strong regional consciousness still persist in the United States, and there is a growing interest in regionalism among the public and among academics. In response to that interest ten folklorists here describe and interpret a variety of American regional cultures in the twentieth century. Their book is the first to deal specifically with regional culture and the first to employ the perspective of folklore in the study of regional identity and

consciousness. The authors range widely over the United States, from the Eastern Shore to the Pacific Northwest, from the Southern Mountains to the Great Plains. They look at a variety of cultural expressions and practices—legends, anecdotes, songs, foodways, architecture, and crafts. Tying their work together is a common consideration of how regional culture shapes and is shaped by the consciousness of living in a special place. In exploring this dimension of regional culture the authors consider the influence of natural environment and historical experience on the development of regional culture, the role of ethnicity in regional consciousness, the tensions between insiders and outsiders that stem from a sense of regional identity, and the

changes in culture in response to social and economic change. With its focus on cultural manifestations and its folkloristic perspective this book provides a fresh and needed contribution to regional studies. Written in a clear, readable style, it will appeal to general readers interested in American regions and their cultures. At the same time the research and analytical approach make it useful not only to folklorists but to cultural geographers, anthropologists, and other scholars of regional studies.

*Digging Our Own Graves* Barbara Ellen Smith 2020-10-06 Employment and production in the Appalachian coal industry have plummeted over recent decades. But the lethal black lung disease, once thought to be near-eliminated, affects miners at rates never before recorded. *Digging Our Own Graves* sets this epidemic in the context of the brutal assault, begun in the 1980s and continued since, on the United Mine Workers of America and the collective power of rank-and-file coal miners in the heart of the Appalachian coalfields. This destruction of militancy and working class power reveals the unacknowledged social and political roots of a health crisis that is still barely acknowledged by the state and coal industry. Barbara Ellen Smith's essential study, now

with an updated introduction and conclusion, charts the struggles of miners and their families from the birth of the Black Lung Movement in 1968 to the present-day importance of demands for environmental justice through proposals like the Green New Deal. Through extensive interviews with participants and her own experiences as an activist, the author provides a vivid portrait of communities struggling for survival against the corporate extraction of labor, mineral wealth, and the very breath of those it sends to dig their own graves.

*Foul Means* Anthony S. Parent Jr. 2012-12-01 Challenging the generally accepted belief that the introduction of racial slavery to America was an unplanned consequence of a scarce labor market, Anthony Parent, Jr., contends that during a brief period spanning the late seventeenth and early eighteenth centuries a small but powerful planter class, acting to further its emerging economic interests, intentionally brought racial slavery to Virginia. Parent bases his argument on three historical developments: the expropriation of Powhatan lands, the

switch from indentured to slave labor, and the burgeoning tobacco trade. He argues that these were the result of calculated moves on the part of an emerging great planter class seeking to consolidate power through large landholdings and the labor to make them productive. To preserve their economic and social gains, this planter class inscribed racial slavery into law. The ensuing racial and class tensions led elite planters to mythologize their position as gentlemen of pastoral virtue immune to competition and corruption. To further this benevolent image, they implemented a plan to Christianize slaves and thereby render them submissive. According to Parent, by the 1720s the Virginia gentry projected a distinctive cultural ethos that

buffered them from their uncertain hold on authority, threatened both by rising imperial control and by black resistance, which exploded in the Chesapeake Rebellion of 1730.

**Dixie Be Damned** Neal Shirley  
2015-05-11 In 1891, when coal companies in eastern Tennessee brought in cheap convict labor to take over their jobs, workers responded by storming the stockades, freeing the prisoners, and loading them onto freight trains. Over the next year, tactics escalated to include burning company property and looting company stores. This was one of the largest insurrections in US working-class history. It happened at the same time as the widely publicized northern labor war in Homestead, Pennsylvania. And it was largely ignored, then and now. Dixie

Be Damned engages seven similarly "hidden" insurrectionary episodes in Southern history to demonstrate the region's long arc of revolt. Countering images of the South as pacified and conservative, this adventurous retelling presents history in the rough. Not the image of the South many expect, this is the South of maroon rebellion, wildcat strikes, and Robert F. Williams's book *Negroes with Guns*, a South where the dispossessed refuse to quietly suffer their fate. This is people's history at its best: slave revolts, multiracial banditry, labor battles, prison uprisings, urban riots, and more. Neal Shirley grew up in Winston-Salem, North Carolina, and now lives in Durham, NC, where he is involved in several anti-prison initiatives and runs a small

publishing project called the North Carolina Piece Corps. Saralee Stafford was born in the Piedmont of North Carolina. Her recent political work has focused on connecting the struggles of street organizations with those of anarchists in the area. She teaches gender-related health in Durham, North Carolina.

*John Renbourn & Jacqui McShee in Concert* John Renbourn 2006-12 John Renbourn and Jacqui McShee are two pivotal figures in the history of British folk music. Founding members of the British folk-rock group Pentangle in the 1960s, guitarist John Renbourn and vocalist Jacqui McShee have been musical collaborators and innovators for four decades. Renbourn's guitar style is a unique product of years of curiosity and investigation. Exploring the

guitar in unusual and beautiful ways, John takes his listeners through a luxuriant musical landscape of masterful playing, warm vocals and witty asides. The consummate fingerstylist plays a unique folk-baroque fusion of British and Celtic folk music with jazz, blues, ragtime, classical, Middle Eastern, and pre-Renaissance music. London-born McShee combines an enchanting soprano voice with an experimenters outlook. Together, John Renbourn and Jacqui McShee are a magical treat.
