Routledge Library Editions: The English Language Various 2021-07-28

This set reissues 29 books on the English language, originally published between 1932 and 2003.

Together, the volumes cover key topics within the larger subject of the English Language, including grammar, dialect and the history of English. Written and edited by an international set of scholars,

particular volumes employ comparisons with other languages such as French and German, whilst other volumes are devoted to specific English dialects such as Cockney and Canadian English, or English in general. This collection provides insight and perspective on various elements of the English language over a period of 70 years and demonstrates its enduring importance as a field of research.

Merlin Henry Lovelich 1975

Collected Letters Clive Staples Lewis 2000 This collection brings together the best of C.S. Lewis's letters, many published for the first time. Arranged in chronological order, this final volume covers the years 1950 -

the year 'The Lion, the Witch and the Wardrobe' was published - through to Lewis's untimely death in 1963. C.S. Lewis was a most prolific letter-writer and his personal correspondence reveals much of his private life, reflections, friendships and feelings. This collection, carefully chosen and arranged by Walter Hooper, is the most extensive ever published. In this great and important collection are the letters Lewis wrote to J.R.R. Tolkien, Dorothy L. Sayers, Owen Barfield, Arthur C. Clarke, Sheldon Vanauken and Dom Bede Griffiths. To some particular friends, such as Dorothy L. Sayers, Lewis wrote over fifty letters alone. The letters deal with all of Lewis's interests: theology, literary criticism, poetry, fantasy, children's stories as well

as revealing his relationships with family members and friends. The third and final volume begins with Lewis, already a household name from his BBC radio broadcasts and popular spiritual books, on the cusp of publishing his most famous and enduring book, 'The Lion, the Witch and the Wardrobe', which would ensure his immortality in the literary world. It covers his relationship with Joy Davidman, subject of the film 'Shadowlands', and includes letters right up to his death on 22 November 1963, the day that John F. Kennedy was assassinated.

Elf Queens and Holy Friars Richard Firth Green 2016-09-28 Starting from the assumption of a far greater cultural gulf between the learned and the lay in the medieval world than between rich and poor, Elf Queens

explores the church's systematic campaign to demonize fairies and infernalize fairyland and the responses this provoked in vernacular romance.

Merlin Henry Lovelich 1904
MLN. 1908

Pronouns and Word Order in Old English Linda van Bergen 2015-07-03 First published in 2003, this is a study of the syntactic behaviour of personal pronoun subjects and the indefinite pronoun *man*, in Old English. It focuses on differences in word order as compared to full noun phrases. In generative work on Old English, noun phrases have usually divided into two categories: 'nominal' and 'pronominal'. The latter category has typically been restricted to personal pronouns, but despite striking similarities to the

behaviour of nominals there has been good reason to believe that man should be grouped with personal pronouns. This book explores investigations carried out in conjunction with the aid of the Toronto Corpus, which confirmed this hypothesis.

Studies in German 1926

Arthurian Studies in Honour of P.J.C.

Field P. J. C. Field 2004 Studies range over the whole field of Arthurian literature, in Europe and North America, with special focus on Malory and Morte Darthur.

William Ward 1920

A Middle English Syntax Tauno F.

Mustanoja 2016-08-18 For a good orientation into the history of English grammar, several books are indispensable. One of those is Mustanoja's *A Middle English Syntax*. However, for a long time this work was not readily available; the present edition changes that. This is a fac simile reprint from the 1960 publication which appeared as volume XXIII in 'Mémoires de la Société Néophilologique de Helsinki', with a new Introduction by Elly van Gelderen. Compared to Old English, Middle English has fewer grammars and textbooks devoted to it. This book provides an interesting supplement by going deeper into certain questions and, especially, into exceptions. The book points out differences with Old English and certain peculiarities of the Middle English system. It was

originally written for students of Middle English literature but serves a linguist well in detailed descriptions of the parts of speech, the use of the various cases, gender, and number. Word order, complex sentences, and conjunctions were meant to be dealt with in a second volume, which was never published.

□□□□ 1932

The Collected Letters of C.S. Lewis, Volume 3 C. S. Lewis 2004 A final installment of a three-volume series is comprised of personal correspondences as penned during the final part of his life, a time during which he passed his days at Cambridge and wrote the Narnia chronicles.

Reading and War in Fifteenth-century England Catherine Nall 2012 An investigation into the connections between military and literary culture

in the late medieval period, and how warfare shaped such texts as Malory's *Morte*.

Handbook of Arthurian Romance Leah Tether 2017-06-26 The renowned and illustrious tales of King Arthur, his knights and the Round Table pervade all European vernaculars, as well as the Latin tradition. Arthurian narrative material, which had originally been transmitted in oral culture, began to be inscribed regularly in the twelfth century, developing from (pseudo-)historical beginnings in the Latin chronicles of "historians" such as Geoffrey of Monmouth into masterful literary works like the romances of Chrétien

de Troyes. Evidently a big hit, Arthur found himself being swiftly translated, adapted and integrated into the literary traditions of almost every European vernacular during the thirteenth and fourteenth centuries. This Handbook seeks to showcase the European character of Arthurian romance both past and present. By working across national philological boundaries, which in the past have tended to segregate the study of Arthurian romance according to language, as well as by exploring primary texts from different vernaculars and the Latin tradition in conjunction with recent theoretical concepts and approaches, this Handbook brings together a pioneering and more complete view of the specifically European context of Arthurian romance, and promotes the

more connected study of Arthurian literature across the entirety of its European context.
