The Dragon Legacy is an important and integral part of the history and traditions of all cultures, and subsequently underlies all cultural magical traditions--not to mention symbols and motifs that lie beneath the development of human civilization as a whole. Nothing is separate. It is quite possible this is among the best kept secrets in the history of occultism, even enshrouded in a cacophony of grand conspiracies. And in its most ancient forms, it is the undefiled, raw and primordial Truth of things--just as we would expect the Druids, wizards and sages of old to understand them. And with understanding comes wisdom.

Now he delivers the first comprehensive look inside the industrial meat system, exposing how a handful of companies executed an audacious corporate takeover of the nation's meat supply. Leonard's revealing account shines a light on the inner workings of Tyson Foods, a pioneer of the industrial system that dominates the market. You'll learn how the food industry got to where it is today, and how companies like Tyson have escaped the scrutiny they deserve. You'll discover how these companies are able to raise meat prices for consumers while pushing down the price they pay to farmers.
