Word by Word Kory Stamper 2017-03-14 “We think of English as a fortress to be defended, but a better analogy is to think of English as a child. We love and nurture it into being, and once it gains gross motor skills, it starts going exactly where we don’t want it to go: it heads right for the goddamned electrical sockets.” With wit and irreverence, lexicographer Kory Stamper cracks open the obsessive world of dictionary writing, from the agonizing decisions about what to define and how to do it to the knotty questions of ever-changing word usage. Filled with fun facts—for example, the first documented usage of “OMG” was in a letter to Winston Churchill—and Stamper’s own stories from the linguistic front lines (including how she became America’s foremost “irregardless” apologist, despite loathing the word), *Word by Word* is an endlessly entertaining look at the wonderful complexities and eccentricities of the English language.

The Invention of Heterosexuality Jonathan Ned Katz 2014-12-10 “Heterosexuality,” assumed to denote a universal sexual and cultural norm, has been largely exempt from critical scrutiny. In this boldly original work, Jonathan Ned Katz challenges the common notion that the distinction between heterosexuality and homosexuality has been a timeless one. Building on the history of medical terminology, he reveals that as late as 1923, the term “heterosexuality” referred to a “morbid sexual passion,” and that its current usage emerged to legitimate men and women having sex for pleasure. Drawing on the works of Sigmund Freud, James Baldwin, Betty Friedan, and Michel Foucault, The Invention of Heterosexuality considers the effects of heterosexuality’s recently forged primacy on both scientific literature and popular culture. “Lively and provocative.”—Carol Tavris, New York Times Book Review “A valuable primer . . . misses no significant twists in sexual politics.”—Gary Indiana, Village Voice Literary Supplement “One of the most important—if not outright subversive—works to emerge from gay and lesbian studies in years.”—Mark Thompson, The Advocate
