The Wonder Book of Bible Stories Logan Marshall 2016-12-31 The Wonder Book of Bible Stories is a collection of Bible stories from both Old and New Testament written for the youth. This book is not meant to replace the Bible but functions as a appetizer. This edition is large font(Arial 16) for the visually impaired.

The Lost Apocrypha of the Old Testament Montague Rhodes James 2007-03-01 Collected and Translated by Montague Rhodes James. There are many ancient, lost books relating to the Bible and this work covers the ones that are most hard to find, dating between 100 BCE and 100 CE. In many cases we do not have the full works, but have various sections and fragments. The author, Montague James, used quotations found mostly in the works of the Greek Ante-Nicene Fathers like Origen, Hippolytus and Clement of Alexandria to piece together what we are missing. He also uses important lists compiled from Greek, Latin and other languages in order to reveal what we know of other missing books that would, in some cases, otherwise be unheard of. This important piece of scholarship should be part of anyone's library who is seriously researching lost and ancient texts.

Posterity Rocco Rubini 2022-01-18 "Rocco Rubini studies the motives and literary forms in the making of a "tradition," not understood narrowly, as the conservative, stubborn preservation of received conventions, values, and institutions, but rather more generously and etymologically interpreted: as the deliberate effort on the part of writers to transmit a reformulated past across generations. Leveraging Italian thinkers from Petrarch to Gramsci, with stops at the most prominent humanists in between (including Giambattista Vico, Carlo Goldoni, Francesco De Sanctis, and Benedetto Croce), Rubini gives us an innovative lens through which to view an Italian intellectual tradition that is at once premodern and modern, a legacy that does not depend on a date or a single masterpiece, but instead requires the reader to parse an entire career of writings to uncover deeper, transhistorical continuities that span 600 years. Whether reading forward to the 1930s, or backward to the 14th century, Rubini elucidates the interplay of creation and reception underlying the enactment of tradition, the practice of retrieving and conserving, and the revivification of shared themes and intentions linking these thinkers across time"--

Homo Deus Yuval Noah Harari 2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and

international phenomenon Sapiens, returns with an equally original, compelling, and provocative book, turning his focus toward humanity’s future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

Merry's Book of Puzzles J. N. Stearns 2017-01-20 Merry's Book of Puzzles is a classic collection of riddles and puzzles from the late 19th century.

Life of Pi Yann Martel 2022-01-27 "Life of Pi will make you believe in the power of theatre" (Times). After a cargo ship sinks in the middle of the vast Pacific Ocean, there are five survivors stranded on a lifeboat - a hyena, a zebra, an orangutan, a Royal Bengal tiger, and a sixteen year-old boy named Pi. Time is against them, nature is harsh, who will survive? Based on one of the most extraordinary and best-loved works of fiction - winner of the Man Booker Prize, selling over fifteen million copies worldwide - and featuring breath-taking puppetry and state-of-the-art visuals, Life of Pi is a universally acclaimed, smash hit adaptation of an epic journey of endurance and hope. Adapted by acclaimed playwright Lolita Chakrabarti, this edition was published to coincide with the West End premiere in November 2021.

Ark in the Park Wendy Orr 2000-06 When her parents take her to visit a very special pet store in the park across from her apartment, both Sophie and Mr. and Mrs. Noah, the pet store owners, have their secret wishes fulfilled.

Expressing Music: Teacher's edition 1970

The Sibylline Oracles (Annotated Edition) Milton S. Terry 2012 This is the extended and annotated edition including * an extensive annotation of almost 10.000 words about the oracles in religion * an interactive table-of-contents * perfect formatting for electronic reading devices THE Sibyls occupy a conspicuous place in the traditions and history of ancient Greece and Rome. Their fame was spread abroad long before the beginning of the Christian era. Heraclitus of Ephesus, five centuries before Christ, compared himself to the Sibyl "who, speaking with inspired mouth, without a smile, without ornament, and without perfume, penetrates through centuries by the power of the gods." The ancient traditions vary in reporting the number and the names of these weird prophetesses, and much of what has been handed down to us is legendary. But whatever opinion one may hold respecting the various legends, there can be little doubt that a collection of Sibylline Oracles was at one time preserved at Rome. There are, moreover, various oracles, purporting to have been written by ancient Sibyls, found in the writings of Pausanias, Plutarch, Livy, and in other Greek and Latin authors. Whether any of these citations formed a portion of the Sibylline books once kept in Rome we cannot now determine; but the Roman capitol was destroyed by fire in the time of Sulla (B. C. 84), and again in the time of Vespasian (A. D. 69), and whatever books were at those dates kept therein doubtless perished in the flames. It is said by some of the ancients that a subsequent collection of oracles was made, but, if so, there is now no certainty that any fragments of them remain.
