Body and Tradition in Nineteenth-Century France William G. Pooley 2019-12-05 The moorlands of Gascony are often considered one of the most dramatic examples of top-down rural modernization in nineteenth-century Europe. From an area of open moors, they were transformed in one generation into the largest man-made forest in Europe. Body and Tradition in Nineteenth-Century France explores how these changes were experienced and negotiated by the people who lived there, drawing on the immense ethnographic archive of Félix Arnaudin (1844-1921). The study places the songs, stories, and everyday speech that Arnaudin collected, as well as the photographs he took, in the everyday lives of agricultural workers and artisans. It argues that the changes are were understood as a gradual revolution in bodily experiences, as men and women forged new working habits, new sexual relations, and new ways of conceiving of their own bodies. Rather than merely presenting a story of top-down reform, this is an account of the flexibility and creativity of the cultural traditions of the working population. William G. Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded, then uncovers the work carried out by Arnaudin to explore everyday speech about the body, stories of werewolves and shapeshifters, tales of animal cunning and exploitation, and songs about love and courtship. The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered, showing how their cultural choices reflect wider patterns of behaviour in the region, and across rural Europe.

The Superstitious Mind Judith Devlin 1987-01-01 This intriguing book examines popular religion, traditional medicine, witchcraft, apparitions, demonology, and magic in nineteenth-century rural France. Devlin demonstrates that many of the impulses and mental processes now considered superstitious constituted a wholly reasonable response to the pressures of a harsh and impoverished life. Far from the product of a primitive mentality, many of these beliefs have survived in modern culture and can even illuminate the nature of modern mass politics.

My Four Seasons in France Janine Marsh 2020-04-16 A little over ten years ago, Janine Marsh and her husband Mark gave up their city jobs in London to chase the good life in the countryside of northern France. Having overcome the obstacles of starting to renovate her dream home - an ancient, dilapidated barn - and fitting in with the peculiarities of her new neighbours, Janine is now the go-to expat in the area for those seeking to get to grips with a very different way of life. In the Seven Valleys, each season brings new challenges as well as new delights. Freezing weather in February threaten the lives of some of the four-legged locals; snow in March results in a broken arm, which in turn leads to an etiquette lesson at the local hospital; and a dramatic hailstorm in July destroys cars and houses, ultimately bringing the villagers closer together. With warmth and humour, Janine showcases a uniquely French outlook as two eternally ambitious expats drag a neglected farmhouse to life and stumble across the hidden gems of this very special part of the world _____ Praise for Janine Marsh's My Good Life in France: 'Warm, uplifting, and effervescent ... Janine's voice and humor bubble right off the page, making you want to pack your bags and visit her fixer-upper home in rural France' - Samantha Verant, author of Seven Letters from Paris 'If you've ever dreamed of discovering "the real France", you won't want to miss this delightful book' - Keith Van Sickle, author of One Sip at a Time: Learning to Live in Provence

The Military and Colonial Destruction of the Roman Landscape of North Africa, 1830-1900 Michael Greenhalgh 2014-05-08 The French pursued victory and colonisation amid a Roman landscape little affected down the centuries by local inhabitants. In the space of two generations they destroyed much of it, re-using its materials to create security and a modern prosperity.

Remnants of the Franco-Algerian Rupture Mona El Khoury 2020-09-28 At the end of French colonization in Algeria, four categories of people held French citizenship or had strong ties with France: European settlers, Jews, mixed-race individuals, and Harkis. The end of the War of Independence exiled most of them from Algeria, traumatized them in various ways, and transferred many to metropolitan France. Remnants of the Franco-Algerian Rupture: Archiving Postcolonial Minorities examines the legacies of these transnational identities through narratives that dissent from official histories, both in France and Algeria. This literature takes particular stories of exile and loss and constructs a memory around a Mosaic father figure embodying the native land, Algeria. Mona El Khoury argues that these filiation narratives create a postcolonial archive: a discursive foundation that makes historical minorities visible,while disrupting French and Algerian hegemonies. El Khoury questions the power of literature to repair history while contending that these literary strategies seek to do justice to the dead Algerian father, even as they valorize enduring minority identifications.

Immigrants in American History Elliott Robert Barkan 2013 This encyclopedia is a unique collection of entries covering the arrival, adaptation, and integration of immigrants into American culture from the 1500s to 2010. Few topics inspire such debate among American citizens as the issue of immigration in the United States. Yet, it is the steady influx of foreigners into America over 400 years that has shaped the social character of the United States, and has favorably positioned this country for globalization. Immigrants in American History: Arrival, Adaptation, and Integration is a chronological study of the migration of various ethnic groups to the United States from 1500 to the present day. This multivolume collection explores dozens of immigrant populations in America and delves into major topical issues affecting different groups across time periods. For example, the first author of the collection profiles African Americans as an example of the effects of involuntary migrations. A cross-disciplinary approach--derived from the contributions of leading scholars in the fields of history, sociology, cultural development, economics, political science, law, and cultural adaptation--introduces a comparative analysis of customs, beliefs, and character among groups, and provides insight into the impact of newcomers on American society and culture. American Indians in the Lower Mississippi Valley Daniel H. Usner, Jr. 1998-01-01 During the eighteenth and nineteenth centuries, the Native peoples inhabiting the Lower Mississippi Valley confronted increasing domination by colonial powers, disastrous reductions in population, and the threat of being marginalized by a new cotton economy. Their strategies of resistance and adaptation to these changes are brought to light in this perceptive study. An introductory overview of the historiography of Native peoples in the early Southeast examines how the study of Native-colonial relations has changed over the last century. Daniel H. Usner Jr. reevaluates the Natchez Indians? ill-

fated relations with the French and the cultural effects of Native population losses from disease and warfare during the eighteenth century. Usner next examines in detail the social and economic relations the Native peoples forged in the face of colonial domination and demographic decline, and he reveals how Natives adapted to the cotton economy, which displaced their familiar social and economic networks of interaction with outsiders. Finally, Usner offers an intriguing excursion into cultural criticism, assessing the effects of popular images of Natives from this region.

SOMMES-NOUS A LA FIN D'UN TEMPS? Daniel Leveillard « La fin du monde ». Allez savoir pourquoi on en parle tant pour l’année 2012, en référence à une prétendue prophétie maya. L’idée d’une fin du monde est commune à toutes les civilisations. Partout, le monde a été créé, et puisqu’il y a un commencement des temps, il y aura forcément une fin des temps. Ceci étant d’ailleurs vérifié par la Science. Dans la Bible, il est parlé également de « fin », mais si l’Apocalypse n’exclut pas l’idée d’une catastrophe destructrice de l’Humanité, elle parle aussi d’une Révélation (c’est la signification du mot grec apocalypsos). Qui disant « Révélation » signifiant sans ambiguïté qu’il y a quelque chose d’autre « après ». Un Monde Nouveau, un temps nouveau. « La fin d’un temps » s’inscrit dans la Bonne Espérance d’un changement, radical et durable, une « révolution » dans notre façon de penser et notre façon d’être. Sommes-nous à la fin d’un temps ? retrace l’évolution d’un système qui eut ses heures de gloire et qui, devenu par trop obsolète, a abouti à un bouleversement. On ne peut ignorer la différence d’esprit entre l’Ancien Régime, royaliste, et le Nouveau Régime, républicain, mais on oublie facilement la différence, volontairement occultée, entre l’Église avant la Révolution et l’Église après la Révolution. Alors que la royauté était intimement liée à l’Église, cette Alliance entre le Trône et l’Autel qui remonte à la nuit des temps, la République, par une extension de la laïcité, s’est détachée des choses du Ciel, reléguant la divinité au rang de deus otiosus. L’étude honnête montre pourtant qu jamais le Merveilleux n’a été autant manifesté que depuis la Révolution, et que tout annonce (pour bientôt) un événement de nature providentielle qui va bouleverser le cours de l’Histoire. Cet ouvrage, fruit de très nombreuses années de recherches, constitue une somme quant aux manifestations mariales et christiques, où l’auteur renouant avec les textes authentiques, montre à quel point il y a loin de l’Histoire Simple à l’Histoire Sainte.
