Father's Dey Keith G. Walker 2011-07-26 A Book on Fatherhood

Revealing the Consequences of Fatherless Homes Statistics, provided by US D.H.H.S., Bureau of Census, show that 85% of all youths sitting in prisons, 63% of youth suicides, 90% of all homeless and runaway children; and 85% of all children that exhibit behavioral disorders come from fatherless homes. These are only few of the depressing truths and information caused by this situation. Author Keith G. Walker shares his own personal struggles from living a life without a father to trying to save his sons from a similar fate. In his engrossing book, *Father's Dey*, readers will discover how he lived such a complicated life at such a young age and how he made it through. Why do these things occur and how could these issues be addressed? "I feel there is a great disparity when it comes to fathers gaining custody of their children and want to bring this problem to the attention of the public so that changes can be made, giving fathers an even playing field," Walker says. In *Father's Dey*, readers will follow the story of a young man who grew up without his parents, lived with several

different relatives, and despite the low odds of surviving, he goes on to do great things and become very successful and a good example to others in similar situations. Walker has written two fictitious chapters which show what has happened with others and what can happen depicting situations and outcomes where no one wins. This book is an eye-opening instrument that would enlighten readers about the value of family, the essence of parental love, and the importance of parental guidance and presence in their children's growing up years. Filled with real life events common to many families throughout the world, suffused with intense emotions, and dashed with indispensable insights on fatherhood and family rearing, *Father's Dey* is an interesting and inspirational read everyone will find fascinating and revealing.

A First-Year Course in Criminal Law Daniel B. Yeager 2018-09-06 The approach of *A First-Year Course in Criminal Law: Trials, Appeals, Theories*, Third Edition focuses students on preparing to discuss a single case per lecture. The author's philosophy is "Teach one case a day and do it well." To help students understand the big picture as well as the details, the organization strives for unification rather than departmentalization. Rather than treat crimes and defenses as "tubs on their own bottoms," the defenses within the crimes are presented. In other

words, the book brings out that crime occurs only in the absence of fully or partially successful exculpatory pleas. Although homicide is the crime that organizes the book, the elements and scope of other crimes are presented within the context of the law of homicide. Comprehension of assault, burglary, kidnapping, mayhem, robbery, and rape is crucial to the cases used to present the law of felony murder. Those crimes are analyzed in the cases, questions, and notes sufficiently to provide students with competency in the grammar of those crimes. New to the Third Edition: More patient explication of chapter introductions and sub-sections Reorganization of questions and notes to improve flow and avoid unintended redundancies Improved internal cross-references Increased emphasis on the function of mental illness in the role of fear in homicide cases Enhanced searchable citations Elaborated index Accounts for intervening changes in the law

Mervyn's Russia Mervyn Matthews 2010-01 Looking back on their lives, most people have a tale to tell, sad or happy. Mervyn's first volume of reminiscences, *Mervyn's Lot*, covered his troubled boyhood in war-torn Swansea of the thirties and forties, and his second memoir, *Mila and Mervusya*, recounts the gripping tale of his extraordinary adventures with the KGB in Khrushchev's Russia during the Cold War - described in the *Spectator* as 'absorbing', and 'thrilling'. Here, in a third volume, he tells of

his life in Pimlico with a colourful Russian wife Ludmilla, following their marriage under the shadow of Lenin's statue in the Moscow Palace of Weddings in 1969; his return visits to the new, post-Soviet Russia and the many unusual Russians he met; and a splendid Russian wedding on a beautiful Turkish island in the Marmara Sea. These events, together with the unexpected ups and downs of life in a mixed, Anglo-Russian family, make captivating reading. Mervyn Matthews taught Russian and Soviet affairs for many years at the University of Surrey, and is a prolific writer and broadcaster.

The Chronicles of My Unique Life Darlene House 2012-06 The author was raised in the San Fernando Valley of Southern California, when the Valley was a wide-open area of orange groves, homes and estates. The large estates were owned by the movie stars such as Roy Rogers and other stars in their heyday. After marriage, my husband and I desired to raise our family in a country atmosphere with a minuscule population. We sold our first home in the valley in order to move to the tiny town of Acton, in the mountainous countryside sixty miles north of Los Angeles. The time line of book is 1928 to 2011 with many odd happening in our lives and unusual memories and pleasant days in the country. We cleared the land, put down a well, and built our home ourselves and raised a family of four

children. Upon completion of the house it was necessary to move the home if we wished to continue living in it. It was a new home and yes we wanted it, but this proved to be frightening experience and a near tragic disaster! This is only one of the many unusual happenings in our life in the country. Unwanted animals are freely given to people who live in the country from friends. In this manner, we acquired a burro that soon gave birth to a strong baby burro (on its first day of birth, kicked our young son and knocked him down), several dogs, a beautiful horse and another burro. Life in the country was always surprising and a pleasant place to raise a family, sometimes difficult but nice! We knew friends in a circle of twenty miles in every direction. Our two sons still live in Acton, our daughters have moved to the beach cities in California.

Nowhere Near Normal Traci Foust 2011-04-05 In the bestselling tradition of Augusten Burroughs, a compassionate, witty, and completely candid memoir that chronicles growing up with obsessive-compulsive disorder. When all the neighborhood kids were playing outdoors, seven-year-old Traci Foust was inside making sure the miniature Catholic saint statues on her windowsill always pointed north, scratching out bald patches on her scalp, and snapping her fingers after every utterance of the word God. As Traci grew older, her OCD blossomed to include panic attacks and bizarre behaviors, including a fear of the sun, an obsession with contracting

eradicated diseases, and the idea that she could catch herself on fire just by thinking about it. While stints of therapy -- and lots of Nyquil -- sometimes helped, nothing alleviated the fact that her single mother and mid-life crisis father had no idea how to deal with her. Traci Foust shares her wacky and compelling journey with brutal honesty, from becoming a teenage runaway on the poetry slam beat in the hippie beach towns of Northern California to living at a family-owned nursing home, in a room with a seventy-five-year-old WWII Vet who kept mistaking her for a prostitute. In this funny, frenetic, and wonderfully dark-humored account of her struggles with a variety of psychological disorders, Traci ultimately concludes that there is nothing special about being “normal.”

A Kramsky Scrap Book Robert Barth 2021-06 Jack Kramsky – the author’s maternal great grandfather – escaped from Russia as a 13-year-old stowaway on a ship, ending up in South Wales, and not America, which was his intended destination with dreams of a better life. Jack was a kind religious man and a real character, confirmed by his many run-ins with the law while bringing up his large family. A Kramsky Scrap Book is full of family anecdotes and tales, often originally captured by the author on tape

recorder. It's also a mine of information about Swansea and the Gower coast, which held special memories for the author, who has retraced many of the journeys made by Jack.

Private Equity at Work Eileen Appelbaum 2014-03-31 Private equity firms have long been at the center of public debates on the impact of the financial sector on Main Street companies. Are these firms financial innovators that save failing businesses or financial predators that bankrupt otherwise healthy companies and destroy jobs? The first comprehensive examination of this topic, *Private Equity at Work* provides a detailed yet accessible guide to this controversial business model. Economist Eileen Appelbaum and Professor Rosemary Batt carefully evaluate the evidence—including original case studies and interviews, legal documents, bankruptcy proceedings, media coverage, and existing academic scholarship—to demonstrate the effects of private equity on American businesses and workers. They document that while private equity firms have had positive effects on the operations and growth of small and mid-sized companies and in turning around failing companies, the interventions of private equity more often than not lead to significant negative consequences for many businesses and workers. Prior research on private equity has focused almost exclusively on the financial performance of private equity funds and the returns to their investors. *Private Equity at*

Work provides a new roadmap to the largely hidden internal operations of these firms, showing how their business strategies disproportionately benefit the partners in private equity firms at the expense of other stakeholders and taxpayers. In the 1980s, leveraged buyouts by private equity firms saw high returns and were widely considered the solution to corporate wastefulness and mismanagement. And since 2000, nearly 11,500 companies—representing almost 8 million employees—have been purchased by private equity firms. As their role in the economy has increased, they have come under fire from labor unions and community advocates who argue that the proliferation of leveraged buyouts destroys jobs, causes wages to stagnate, saddles otherwise healthy companies with debt, and leads to subsidies from taxpayers. Appelbaum and Batt show that private equity firms' financial strategies are designed to extract maximum value from the companies they buy and sell, often to the detriment of those companies and their employees and suppliers. Their risky decisions include buying companies and extracting dividends by loading them with high levels of debt and selling assets. These actions often lead to financial distress and a disproportionate focus on cost-cutting, outsourcing, and wage and benefit losses for workers, especially if they are unionized. Because the law views private equity firms as investors rather than employers, private equity owners are not held accountable for

their actions in ways that public corporations are. And their actions are not transparent because private equity owned companies are not regulated by the Securities and Exchange Commission. Thus, any debts or costs of bankruptcy incurred fall on businesses owned by private equity and their workers, not the private equity firms that govern them. For employees this often means loss of jobs, health and pension benefits, and retirement income. Appelbaum and Batt conclude with a set of policy recommendations intended to curb the negative effects of private equity while preserving its constructive role in the economy. These include policies to improve transparency and accountability, as well as changes that would reduce the excessive use of financial engineering strategies by firms. A groundbreaking analysis of a hotly contested business model, *Private Equity at Work* provides an unprecedented analysis of the little-understood inner workings of private equity and of the effects of leveraged buyouts on American companies and workers. This important new work will be a valuable resource for scholars, policymakers, and the informed public alike.

Stalin's Children Owen Matthews 2010-07-23 On a mid-summer day in 1937, a car pulled up to the house of the Bibikov family in Chernigov in the heart of the Ukraine. Boris, the father, kissed his two daughters and wife goodbye and disappeared inside the car. His family never saw him again. His wife would later vanish, leaving the young Lyudmila and Lenina alone to drift across the vast Russian landscape as the Wehrmacht advanced in WWII. In the early 1960s Owen Matthews' father, Mervyn, moved to Moscow to work for the British embassy after a childhood in Wales dreaming of Russia. He fell in with the KGB, and in love with Lyudmila, and before he could disentangle himself from the former he was ordered to leave the country. For the next six years, Mervyn tried desperately to get Lyudmila out of Russia, and when he finally succeeded they married. Decades on from these events, their son, now Newsweek's bureau chief in Moscow, pieces together the tangled threads of his family's past and present—the extraordinary files that record the life and death of his grandfather at the hands of Stalin's secret police; his mother's and aunt's perilous journey to adulthood; his parents' Cold War love affair and the magnet that has drawn him back to the Russia—to present an indelible portrait of the country over the past seven decades and an unforgettable memoir about how we struggle to define ourselves in opposition to our

ancestry only to find ourselves aligning with it.

To Die For Kathy Braidhill 2014-11-18 Impeccably dressed, meticulously neat, Dana Sue Gray spared no expense on herself. Dropping thousands of dollars on a shopping binge or a luxurious day spa was nothing out of the ordinary for Dana--nor for many wealthy women. But Dana wasn't wealthy--she was an unemployed nurse. She was also a serial murderess, who preyed upon elderly women, violently killed them, then used their credit cards to embark on wild, post-murder spending sprees. Women serial killers are rare--there are only 36 documented cases--and those, like

Dana Sue Gray, who murder so brutally that veteran police officers are shaken by the bloodiness of the crime scene, are even rarer. In *To Die For*, an exposé as shocking and fascinating as its subject matter, author Kathy Braidhill explores the stunning story of Dana Sue Gray, one of the most dangerous, deadly, and disturbed women in history.

Italians in Wales and their Cultural Representations, 1920s-2010s Bruna Chezzi 2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century, opening hundreds of coffee shops, particularly in the South Wales Valleys. Despite this, such immigrants remain a largely unexplored case study in the history of Italian immigration to the UK. This book uses a variety of unexplored sources, and engages with the broader academic debate on migration, identity, and the trans-generational transmission of memory, to describe the emergence of Welsh-Italian narratives and the formation of a distinctive, yet complex, Welsh-Italian identity. It follows a chronological journey, moving from the interwar period, a time in which Italians in Wales were generally regarded as fully established and integrated, through to the Second World War, a time when Italian identity became problematic and resulted in nearly seventy years of 'silencing', up until the first decade of the 21st century, where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh-Italian narratives. The book begins by studying photographic

representations of Italians in Wales during the interwar period, using photographs available in local history books, private collections and history books. The analysis of the photographic material draws from the work of scholars such as Sontag, Noble, Hirsh and Bate on photo-textual analysis, to show how photographs can reveal understudied, yet important, aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War. The book then examines how the events of the Second World War destabilised the images of family, sociability and integration suggested by these photographs, and how such events aggravated tensions between host and migrant cultures. It continues by investigating recent Welsh-Italian texts where, in revisiting the past and the experience of their ancestors, the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity. It concludes with a comparison between these 'narratives of belonging' and the representation of the Italian migrant experience in Anglo-Welsh literature.

Mervyn's Lot Mervyn Matthews 2002 "In this prequel to *Mila and Mervusya: A Russian Wedding*, Mervyn Matthews describes his remarkable childhood in Wales in the late 1930s, '40s and early '50s. To escape the bombing during the Swansea blitz during World War II, Matthews went to live with his grandmother in the working-class Hafod district. He was evacuated to west Wales to escape further bombing and spent a long period hospitalized. In addition to suffering the discomforts of war and ill health, Matthews was also the focus of his parents' unhappy

separation. Set against the backdrop of bombed-out Swansea, the natural beauty of the Gower peninsula, and the austerity of postwar Britain, with a homely cast of friends, teachers, neighbors, and a large family, this is a story by turns comic and poignant, though always true to the life of the times. It is a classic account of a young boy growing up in difficult circumstances."
