**Human rights in Europe: no grounds for complacency** 2013-04-01 Political rhetoric on human rights in Europe is different from daily reality. Almost every politician is on record as favouring the protection of freedom and justice. Standards on human rights have been agreed at European and international level; many have been integrated into national law; but they are not consistently enforced. There is an implementation gap. It is this implementation gap that this book seeks to address. It is built on a compilation of separate "viewpoints" or articles which Thomas Hammarberg has written, and later updated, since beginning his mandate as Council of Europe Commissioner for Human Rights in April 2006. He has now visited almost all of the 47 member states of the Council of Europe. On each visit he has met victims of violations of human rights and their families, leading politicians, prosecutors, judges, ombudsmen, religious leaders, journalists and civil society representatives as well as inmates of prisons and other institutions, law enforcement personnel and others. The "viewpoints" written on the basis of these many visits summarise his reflections, conclusions and recommendations.

**Men in Prison** Victor Serge 2014-04-01 "Everything in this book is fictional and everything is true," wrote Victor Serge in the epigraph to *Men in Prison*. "I have attempted, through literary creation, to bring out the general meaning and human content of a personal experience." The author of *Men in Prison* served five years in French penitentiaries (1912–1917) for the crime of "criminal association"—in fact for his courageous refusal to testify against his old comrades, the infamous "Tragic Bandits" of French anarchism. "While I was still in prison," Serge later recalled, "fighting off tuberculosis, insanity, depression, the spiritual poverty of the men, the brutality of the regulations, I already saw one kind of justification of that infernal voyage in the possibility of describing it. Among the thousands who suffer and are crushed in prison—and how few men really know that prison!—I was perhaps the only one who could try one day to tell all... There is no novelist's hero in this novel, unless that terrible machine, prison, is its real hero. It is not about 'me,' about a few men, but about men, all men crushed in that dark corner of society." Ironically, Serge returned to writing upon his release from a GPU prison in Soviet Russia, where he was arrested as an anti-Stalinist subversive in 1928. He completed *Men in Prison* (and two other novels) in "semi-captivity" before he was rearrested and deported to the Gulag in 1933. Serge's classic prison novel has been compared to Dostoyevsky's *House of the Dead*, Koestler's *Spanish Testament*, Genet's *Miracle of the Rose*, and Solzhenitsyn's *One Day in the Life of Ivan Denisovitch* both for its authenticity and its artistic achievement. This edition features a substantial new introduction by translator Richard Greeman, situating the work in Serge's life and times.

*I Have the Right to Save My Planet* Alain Serres 2021-04-01 From the author and illustrator duo who created the award-winning *I Have the Right to Be a Child* comes this beautifully illustrated picture book about a child's right to advocate for the environment they live in. All children have the right to learn about the world, to celebrate the water, air and sunshine, and to be curious about the animals and plants that live on our planet. All children also have the right to learn about endangered species, to be concerned about plastic in the ocean, and to understand what a changing climate means for our Earth. Scientists tell us that every living thing is connected. When we cut down forests, we destroy animal habitats. When we throw plastic in the garbage, it never really goes away. When we spray pesticides on our fruit and vegetables, we poison the earth, animals and ourselves. What can children do to help? All children can draw posters of endangered animals to raise awareness. All children can send a letter to the leader of their country, signed by every member of their family. All children can protest along with their parents. Children have the right to do all these things as proclaimed in the United Nations Convention on the Rights of the Child. All children have the right to try to help our Earth, in whatever ways they can. Told from the perspective of a child, this colorful and vibrant book explores what it means to be a child who dreams of a beautiful future for their planet. **Travels of the Criminal Question** Dario Melossi 2011-02-03 The expression 'the criminal question' does not at present have much currency in English-language criminology. The term was carried across from Italian debates about the orientation of criminology, and in particular debates about what came to be called critical criminology. One definition offered early in the debate described it as 'an area constituted by actions, institutions, policies and discourses whose boundaries shift'. According to this writer, crime, and the cultural and symbolic significance carried by law and criminal justice, is an integral aspect of the criminal question. 'The criminal question' draws attention to the specific location and constitution of a given field of forces, and the themes, issues, dilemmas and debates that compose it. At the same time it enables connections to be made between these embedded realities and the wider, conceivably global, contours of influence and flows of power with which it connects. This in turn raises many questions. How far do the responses to crime and punishment internationally flow from and owe their contemporary shape to the cultural and economic transformations now widely known as 'globalisation'? How can something that is in significant ways embedded, situated, and locally produced also travel? What is not in doubt is that it does travel - and travel with serious consequences. The international circulation of discourses and practices

has become a pressing issue for scholars who try to understand their operation in their own particular cultural contexts. This collection of essays seeks a constructive comparative view of these tendencies to convergence and divergence.

**White Poison** Kayemb ". Uri L. ". Nawej 2006-09-26 White Poison is probably the strongest and most reasonable appeal ever addressed to the African continent, for its spiritual liberation, and therefore its real independence. With non refutable historical facts, the author calls upon his African brothers and sisters to break down the chains in which colonial christian Europe still oppresses them. He encourages them to find back the glory and the values of their own ancestral spiritual heritage. This book has the power to revolutionize spiritual life in Africa. This book is a new religious message which offers to Africans the keys for their real spiritual decolonization, a real new authentic gospel for Africa. An intense call for Africa to wake up. You read it, and you will never again be the same.

**Ophelia** Charlotte Gingras 2018-03-01 "...explore how painting, writing, and building things with your hands can be the outlet that helps a person get through the hell that is high school." — Quill & Quire The kids at school call her rag girl because she hides under layers of oversized clothing, but she calls herself Ophelia. She hardly speaks to anyone — until one day a visiting author comes to give a talk in the school library. The writer speaks about what it means to create art, and at the end of her talk, she thanks Ophelia for asking the first question by giving her a blue notebook with her address on it. Ophelia starts to write to the author in the notebook — letters that become a kind of lifeline. The idea that someone, somewhere, might care, is enough for her to keep writing, an escape from her real life. By day she goes to school and works at the dollar store before returning home to her mother, a former addict who once had to put her daughter in care. At night she creates graffiti around town, leaving little broken hearts as her tag. One night she finds an abandoned building that she decides to use as her workshop, where she can make larger-than-life art. When she finds that a classmate, an overweight boy named Ulysses, is also using the space to repair an old van, the two form an uneasy truce, with a chalk line drawn down the middle to mark their separate territories. As time passes, Ophelia and Ulysses forge a fraught but growing friendship, but their cocooned existence cannot last forever. One night, intruders invade their sanctuary, and their shared bond and individual strength are sorely tested. **Key Text Features** illustrations doodles sketches photographs Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.6.3 Describe how a particular story's or drama's plot unfolds in a series of episodes as well as how the characters respond or change as the plot moves toward a resolution.

**Stalemate** Iczokas Meras 2020-11-24 A classic of Holocaust literature from "one of the great masters of the short novel." —The New Yorker In the Vilna Ghetto during World War II, Nazi Commandant Schoger demands that all children be sent to the death camp. When Abraham Lipman pleads with him to spare their lives, Schoger reconsiders, and tells Lipman there will be a chess match between himself and Lipman's only surviving son, Isaac, a chess prodigy. If Isaac wins, the children will live, but Isaac will die. If Isaac loses, the children will die, but Isaac will live. Only a draw will save the ghetto from this terrible predicament. The chess game begins: a nightmarish contest played over the course of several evenings, witnessed by an audience impotent to act, staking the lives of

their children on a stalemate. This is a moving story of a father and a son who shame their cruel perpetrator with their dignity, spirit, and extraordinary courage. Stalemate speaks to the power of humor even under the direst circumstances. As a parable that gives voice to the unspeakable, Stalemate is an antidote to despair. "Gripping . . . a truly memorable work." —Booklist

**World Development Report 2018** World Bank Group 2017-10-16 Every year, the World Bank's World Development Report (WDR) features a topic of central importance to global development. The 2018 WDR—LEARNING to Realize Education's Promise—is the first ever devoted entirely to education. And the time is right: education has long been critical to human welfare, but it is even more so in a time of rapid economic and social change. The best way to equip children and youth for the future is to make their learning the center of all efforts to promote education. The 2018 WDR explores four main themes: First, education's promise: education is a powerful instrument for eradicating poverty and promoting shared prosperity, but fulfilling its potential requires better policies—both within and outside the education system. Second, the need to shine a light on learning: despite gains in access to education, recent learning assessments reveal that many young people around the world, especially those who are poor or marginalized, are leaving school unequipped with even the foundational skills they need for life. At the same time, internationally comparable learning assessments show that skills in many middle-income countries lag far behind what those countries aspire to. And too often these shortcomings are hidden—so as a first step to tackling this learning crisis, it is essential to shine a light on it by assessing student learning better. Third, how to make schools work for all learners: research on areas such as brain science, pedagogical innovations, and school management has identified interventions that promote learning by ensuring that learners are prepared, teachers are both skilled and motivated, and other inputs support the teacher-learner relationship. Fourth, how to make systems work for learning: achieving learning throughout an education system requires more than just scaling up effective interventions. Countries must also overcome technical and political barriers by deploying salient metrics for mobilizing actors and tracking progress, building coalitions for learning, and taking an adaptive approach to reform.

**Going Up the River** Joseph T. Hallinan 2003-07-08 The American prison system has grown tenfold in thirty years, while crime rates have been relatively flat: 2 million people are behind bars on any given day, more prisoners than in any other country in the world — half a million more than in Communist China, and the largest prison expansion the world has ever known. In *Going Up The River*, Joseph Hallinan gets to the heart of America's biggest growth industry, a self-perpetuating prison-industrial complex that has become entrenched without public awareness, much less voter consent. He answers, in an extraordinary way, the essential question: What, in human terms, is the price we pay? He has looked for answers to that question in every corner of the "prison nation," a world far off the media grid — the America of struggling towns and cities left behind by the information age and desperate for jobs and money. Hallinan shows why the more prisons we build, the more prisoners we create, placating everyone at the expense of the voiceless prisoners, who together make up one of the largest migrations in our nation's history.

**Human rights in culturally diverse societies** Council of Europe 2016-08-16 This updated publication contains the

Committee of Ministers' guidelines to member States on the protection and promotion of human rights in culturally diverse societies as well as the Compilation of Council of Europe standards relating to the principles of freedom of thought, conscience and religion and links to other human rights upon which the Guidelines are inspired. These standards are based mainly on the European Convention on Human Rights and the jurisprudence of the European Court of Human Rights, but also on conclusions and recommendations of other monitoring mechanisms and other Council of Europe bodies. The Guidelines are innovative as they do not consider these standards in isolation, rather they rethink and recast them through their interaction with other human rights: freedom of expression, freedom of association and assembly, the right to private life. They are intended as a realistic and usable tool which reflects the often complex interplay of different rights within diverse societies.

*Male Roles, Masculinities and Violence* Ingeborg Breines 2000 This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

This growing awareness is reflected in the adoption of the Council of Europe Charter on Education for Democratic Citizenship and Human Rights Education (EDC/ HRE) by the Organisation's 47 member states in the framework of Recommendation CM/Rec(2010)7. The Charter was developed over a period of several years as a result of wide-ranging consultations and is non-binding. it will be an important reference point for all those dealing with citizenship and human rights education. it will hopefully provide a focus and catalyst for action in the member states, As well as a way of disseminating good practice and

raising standards throughout Europe and beyond.

Robin S. Engel 2019-07-06 This insightful volume examines key research questions concerning police decision to arrest as well as police-led diversion. The authors critically evaluate the tentative answers that empirical evidence provides to those questions, and suggest areas for future inquiry. Nearly seven decades of empirical study have provided extensive knowledge regarding police use of arrest. However, this research highlights important gaps in our understanding of factors that shape police decision-making and what is required to alter current police practice. Reviewing this research base, this brief takes stock of what is known empirically about all aspects related to the use of arrests, providing important insights on the knowledge needed to make evidence-based policy decisions moving forward. With the potential to better impact policy and programs for alternatives to arrest, this brief will appeal to researchers and practitioners in evidence-based policing and police decision-making, as well as those interested in alternatives to arrest and related fields such as public policy.

**The Diary of Ma Yan** Ma Yan 2009-09-08 Wednesday, November 7 My father gave me and my brother a little money. My stomach is all twisted up with hunger, but I don't want to spend the money on anything as frivolous as food. Because it's money my parents earn with their sweat and blood. I have to study well so that I won't ever again be tortured by hunger. . . . In a drought-stricken corner of rural China, an education can be the difference between a life of crushing poverty and the chance for a better future. But money is scarce, and the low wages paid for backbreaking work aren't always enough to pay school fees. Ma Yan's heart-wrenching, honest diary chronicles her struggle to escape hardship and bring prosperity to her family through her persistent, sometimes desperate, attempts to continue her schooling. First published in France in 2002, the diary of ma yan created an outpouring of support for this courageous teenager and others like her -- support that led to the creation of an international organization dedicated to helping these children . . . all because of one ordinary girl's extraordinary diary.
