Navajo Multi-household Social Units

Thomas R. Rocek 1995 Furthermore, attention to middle-level units is critical for understanding household or community-level organization, because the flexibility they offer can fundamentally alter the behavior of social units of larger or smaller scale.

SWAT Madness and the Militarization of the American Police A. James Fisher 2010 With the immediacy of a daily newspaper, this book reveals how the irresponsible use of SWAT teams, shock-and-awe policing, and the increasing militarization of American law enforcement is changing the face of "the land of the free." * Provides 30 case studies documenting inappropriate SWAT team deployment

The New Americans Mary C. Waters 2007-01-30 Listen to a short interview with Mary Waters Host: Chris Gondek | Producer: Heron & Crane Salsa has replaced ketchup as the most popular condiment. A mosque

has been erected around the corner. The local hospital is staffed by Indian doctors and Philippine nurses, and the local grocery store is owned by a Korean family. A single elementary school may include students who speak dozens of different languages at home. This is a snapshot of America at the turn of the twenty-first century. The United States has always been a nation of immigrants, shaped by successive waves of new arrivals. The most recent transformation began when immigration laws and policies changed significantly in 1965, admitting migrants from around the globe in new numbers and with widely varying backgrounds and aspirations. This comprehensive guide, edited and written by an interdisciplinary group of prominent scholars, provides an authoritative account of the most recent surge of immigrants. Twenty thematic essays address such topics as immigration law and policy,

refugees, unauthorized migrants, racial and ethnic identity, assimilation, nationalization, economy, politics, religion, education, and family relations. These are followed by comprehensive articles on immigration from the thirty most significant nations or regions of origin. Based on the latest U.S. Census data and the most recent scholarly research, *The New Americans* is an essential reference for students, scholars, and anyone curious about the changing face of America.

Oral History, Community, and Work in the American West Jessie L. Embry 2013-10-03 "The essays in this volume are case studies of the importance of oral history in understanding community and work in the American West"--Provided by publisher.

and contemporary commentaries on the economy, politics, culture and identity of American cities. This seventh edition examines the ability of highly autonomous local governments to grapple with the serious challenges of recent years, challenges such as the stresses of the lingering economic crisis, and a series of recent natural disasters. Features: Each chapter is introduced by an editor's essay that places the readings into context and highlights their central ideas and findings. Division into three historical periods emphasizes both the changes and continuities in American urban politics over time. The reader is the perfect complement for Judd & Swanstrom's *City Politics: The Political Economy of Urban American*, 7/e, also available in a new edition (ISBN 0-205-03246-X)

Gangs in America's Communities James C. Howell 2018-02-08 "[Gangs in America's Communities] is one of the most comprehensive treatments of gangs in the marketplace. . . . I highly recommend its adoption as you will not be disappointed and, most importantly, neither will your students." —Elvira White-Lewis, Texas A&M University-Commerce *Gangs in America's Communities*, Third Edition blends theory with current research to help readers identify essential features associated with youth violence and gangs, as well as apply strategies for gang control and prevention. Authors Dr. James C. Howell and Dr. Elizabeth Griffiths introduce readers to theories of gang formation, illustrate various ways of defining and classifying gangs, and discuss national trends in gang

presence and gang-related violence across American cities. They also offer evidence-based strategies for positioning communities to prevent, intervene, and address gang activity. New to the Third Edition: A series of new case studies document the evolution of numerous gangs in large cities, including the community aspect, evolutionary nature, and how cities influence levels of violence. New discussions highlighting the role of social media, insights into how gangs use it to recruit members, and the response from law enforcement. Current nationwide gang trends are discussed to encourage readers to analyze and interpret the most recent statistics for which representative data is available. Updated macro and micro gang theories enable readers to explore a recent encapsulation of leading developmental models. New discussions around female gang members offer readers potentially effective programs for discouraging

Downloaded from www.sfeg.it on

females from joining gangs—along with highly regarded delinquency prevention and reduction programs that have the potency to be effective in reducing gang crimes among young women. A comprehensive gang prevention, intervention, and suppression program in Multnomah County, Oregon shows how theory was successfully applied to reduce gang activity in a local community. New research on "gang structures" and their rates of crime illustrate the connections between violent crimes and the amount of violent offenders within a gang. Additional discussion of distinguishing features (e.g., typologies) of major gangs, and numerous examples of gang symbols, tattoos, and graffiti has been added to help readers identify and differentiate various types of gangs.

Foundations of Anasazi Culture Paul F. Reed 2002-08-29 This major synthesis of work explores new evidence gathered at Basketmaker III sites on the Colorado Plateau in search of further understanding of Anasazi development. Since the 1960s, large-scale cultural resource management projects have revealed the former presence of Anasazi within the entire northern Southwest. These discoveries have resulted in a greatly expanded view of the BMIII period (A.D. 550-750) which immediately proceeds the Pueblo phase. Particularly noteworthy are finding of Basketmaker remains under those of later periods and in sites with open settings, as opposed to the more classic Basketmaker cave and rock shelter sites. *Foundations of Anasazi Culture* explores this new evidence in search of further

understanding of Anasazi development. Several chapters address the BMII-BMIII transition, including the initial production and use of pottery, greater reliance on agriculture, and the construction of increasingly elaborate structures. Other chapters move beyond the transitional period to discuss key elements of the Anasazi lifestyle, including the use of gray-, red-, and white-ware ceramics, pit structures, storage cists, surface rooms, full dependence on agriculture, and varying degrees of social specialization and differentiation. A number of contributions address one or more of these issues as they occur at specific sites. Other contributors consider the material culture of the period in terms of common elements in architecture, ceramics, lithic technology, and decorative media. This work on BMIII sites on the Colorado Plateau will be useful to anyone with an interest in the

earliest days of Anasazi civilization. *Encyclopedia of Muslim-American History* Edward E. Curtis 2010 A two volume encyclopedia set that examines the legacy, impact, and contributions of Muslim Americans to U.S. history. **The Arab-American Handbook** Nawar Shora 2009 Tune up your knowledge of the Arab and Muslim worlds with this easy to read text. The Arab-American Handbook contains useful reference material and comment by a wide variety of participants and observers. The book includes: a thumbnail history; the essentials of Islam; social insights & cultural norms. The perfect tool for : teachers, employers, travelers, law enforcement. Government workers and the general public will find that they can quickly penetrate the stereotypes and misconceptions to appreciate the tenor and nuance of Arab and Muslim life. Without a better grasp of this subject, the

citizens of liberal democracies are unsafe at home and at a disadvantage in the global competition for hearts and minds.

Resources in Education 1997-07

Aztlán Arizona Darius V. Echeverría
2014-03-27 Aztlán Arizona is a history of the Chicano Movement in Arizona in the 1960s and 1970s. Focusing on community and student activism in Phoenix and Tucson, Darius V. Echeverría ties the Arizona events to the larger Chicano and civil rights movements against the backdrop of broad societal shifts that occurred throughout the country. Arizona's unique role in the movement came from its (public) schools, which were the primary source of Chicano activism against the inequities in the judicial, social, economic, medical, political, and educational arenas. The word Aztlán, originally meaning the legendary ancestral home of the Nahua peoples of Mesoamerica, was adopted as a symbol of

independence by Chicano/a activists during the movement of the 1960s and 1970s. In an era when poverty, prejudice, and considerable oppositional forces blighted the lives of roughly one-fifth of Arizonans, the author argues that understanding those societal realities is essential to defining the rise and power of the Chicano Movement. The book illustrates how Mexican American communities fostered a togetherness that ultimately modified larger Arizona society by revamping the educational history of the region. The concluding chapter outlines key Mexican American individuals and organizations that became politically active in order to address Chicano educational concerns. This Chicano unity, reflected in student, parent, and community leadership organizations, helped break barriers, dispel the Mexican American inferiority concept, and create educational change that

Downloaded from www.sfeg.it on
December 5, 2022 by guest

benefited all Arizonans. No other scholar has examined the emergence of Chicano Movement politics and its related school reform efforts in Arizona. Echeverría's thorough research, rich in scope and interpretation, is coupled with detailed and exact endnotes. The book helps readers understand the issues surrounding the Chicano Movement educational reform and ethnic identity. Equally important, the author shows how residual effects of these dynamics are still pertinent today in places such as Tucson. The Diversity Style Guide Rachele Kanigel 2018-10-15 New diversity style guide helps journalists write with authority and accuracy about a complex, multicultural world A companion to the online resource of the same name, The Diversity Style Guide raises the consciousness of journalists who strive to be accurate. Based on studies, news reports and style guides, as well as

interviews with more than 50 journalists and experts, it offers the best, most up-to-date advice on writing about underrepresented and often misrepresented groups. Addressing such thorny questions as whether the words Black and White should be capitalized when referring to race and which pronouns to use for people who don't identify as male or female, the book helps readers navigate the minefield of names, terms, labels and colloquialisms that come with living in a diverse society. The Diversity Style Guide comes in two parts. Part One offers enlightening chapters on Why is Diversity So Important; Implicit Bias; Black Americans; Native People; Hispanics and Latinos; Asian Americans and Pacific Islanders; Arab Americans and Muslim Americans; Immigrants and Immigration; Gender Identity and Sexual Orientation; People with Disabilities; Gender Equality in the News Media; Mental

Illness, Substance Abuse and Suicide; and Diversity and Inclusion in a Changing Industry. Part Two includes Diversity and Inclusion Activities and an A-Z Guide with more than 500 terms. This guide: Helps journalists, journalism students, and other media writers better understand the context behind hot-button words so they can report with confidence and sensitivity Explores the subtle and not-so-subtle ways that certain words can alienate a source or infuriate a reader Provides writers with an understanding that diversity in journalism is about accuracy and truth, not "political correctness." Brings together guidance from more than 20 organizations and style guides into a single handy reference book The Diversity Style Guide is first and foremost a guide for journalists, but it is also an important resource for journalism and writing instructors, as well as other media professionals. In addition, it

will appeal to those in other fields looking to make informed choices in their word usage and their personal interactions.

American Immigration: An Encyclopedia of Political, Social, and Cultural Change James Ciment 2015-03-17

Thoroughly revised and expanded, this is the definitive reference on American immigration from both historic and contemporary perspectives. It traces the scope and sweep of U.S. immigration from the earliest settlements to the present, providing a comprehensive, multidisciplinary approach to all aspects of this critically important subject. Every major immigrant group and every era in U.S. history are fully documented and examined through detailed analysis of social, legal, political, economic, and demographic factors. Hot-topic issues and controversies - from Amnesty to the U.S.-Mexican Border - are covered in-depth. Archival and contemporary

photographs and illustrations further illuminate the information provided. And dozens of charts and tables provide valuable statistics and comparative data, both historic and current. A special feature of this edition is the inclusion of more than 80 full-text primary documents from 1787 to 2013 - laws and treaties, referenda, Supreme Court cases, historical articles, and letters. Internal Revenue Cumulative Bulletin United States. Internal Revenue Service 2003

Language, History, and Identity Paul V. Kroskirty 2016-11-15 The Arizona Tewa are a Pueblo Indian group that migrated around 1700 to First Mesa on the Hopi Reservation and who, while speaking Hopi have also retained their native language. Kroskirty examines this curiosity of language and culture, explaining the various ways in which the Tewa use their linguistic resources to successfully adapt to the Hopi and their

environment while retaining their native language and the cultural identity it embodies.

The Politics of Immigration Across the United States Gary M. Reich 2021-02-16 In recent years, Republicans and Democrats have drifted toward polarized immigration policy positions, forestalling congressional efforts at comprehensive reform. In this book Gary M. Reich helps explain why some states have enacted punitive policies toward their immigrant populations, while others have stepped up efforts to consider all immigrants as de facto citizens. Reich argues that state policies reflect differing immigrant communities across states. In states where large-scale immigration was a recent phenomenon, immigrants became an electorally-enticing target of restrictionist advocates within the Republican party. Conversely established immigrant communities steadily

Downloaded from www.sfeg.it on
December 5, 2022 by guest

strengthened their ties to civic organizations and their role in Democratic electoral and legislative politics. Reich contends that these diverging demographic trends at the state level were central to the increasing partisan polarization surrounding immigration nationally. He concludes that immigration federalism at present suffers from an internal contradiction that proliferates conflict across all levels of government. As long as Congress is incapable of addressing the plight of unauthorized immigrants and establishing a consensus on immigration admissions, state policies inevitably expand legal uncertainty and partisan wrangling. The Politics of Immigration Across the United States will appeal to scholars and instructors in the fields of immigration policy, social policy, and state government and politics. The book will also encourage public policy practitioners

to reflect critically on their work.

Designing the New American University

Michael M. Crow 2015-03-15 Designing the New American University will ignite a national discussion about the future evolution of the American research university.

Boomburbs Robert E. Lang 2007-10-01 A glance at a list of America's fastest growing "cities" reveals quite a surprise: most are really overgrown suburbs. Places such as Anaheim, California, Coral Springs, Florida, Naperville, Illinois, North Las Vegas, Nevada, and Plano, Texas, have swelled to big-city size with few people really noticing—including many of their ten million residents. These "boomburbs" are large, rapidly growing, incorporated communities of more than 100,000 residents that are

not the biggest city in their region. Here, Robert E. Lang and Jennifer B. LeFurgy explain who lives in them, what they look like, how they are governed, and why their rise calls into question the definition of urban. Located in over twenty-five major metro areas throughout the United States, numerous boomburbs have doubled, tripled, even quadrupled in size between census reports. Some are now more populated than traditional big cities. The population of the biggest boomburb—Mesa, Arizona—recently surpassed that of Minneapolis and Miami. Typically large and sprawling, boomburbs are "accidental cities," but not because they lack planning. Many are made up of master-planned communities that have grown into one another. Few anticipated becoming big cities and unintentionally arrived at their status. Although boomburbs possess elements found in cities such as housing, retailing, offices, and

entertainment, they lack large downtowns. But they can contain high-profile industries and entertainment venues: the Los Angeles Angels of Anaheim and Arizona Cardinals are among over a dozen major-league sports teams who play in the boomburbs. Urban in fact but not in feel, these drive-by cities of highways, office parks, and shopping malls are much more horizontally built and less pedestrian friendly than most older suburbs. And, contrary to common perceptions of suburbia, they are not rich and elitist. Poverty is often seen in boomburb communities of small single-family homes, neighborhoods that once represented the American dream. Boomburbs are a quintessential American landscape, embodying much of the nation's complexity, expansiveness, and ambiguity. This fascinating look at the often contradictory world of boomburbs examines why America's suburbs are

thriving and how they are shaping the lives of millions of residents.

Stylistic Variation in Prehistoric

Ceramics Stephen Plog 1980-11-28 Plog argues that there are many more factors that cause design or stylistic variations on prehistoric artifacts than have been previously

acknowledged. Using data primarily from the American Southwest, he shows why the methods of design analysis that have been used are often inappropriate, and presents a new framework of explanation.
