Routledge Revivals: The Islamic Jesus (1977) Don Wismer 2016-09-13 First published in 1977, this book is intended as a record of sources in Islamic prophethood which focus on the prophet Isa – Jesus in Christian theology. The Islamic Isa differs markedly from the Christian Jesus, most obviously in that, although considered an important prophet, he is overshadowed by Muhammad. The doctrine of tawhid – the indivisible oneness of God – also necessarily means the rejection of Christ's incarnation or dual nature. The primary of role of Jesus in Islam, as with all Islamic prophets, is to reaffirm the primeval religion of man, best expressed by the Shadada and Islam. This book collects, as comprehensively as possible, bibliographic sources in English and French from the time of the earliest available texts (circa 1650) providing annotated commentary and source information – making it an invaluable research tool for anyone who wishes to study the Islamic Jesus in more detail.

The Arab State Giacomo Luciani 2015-07-24 It has often been argued that Arab states are arbitrary political creations, lacking historical or present legitimacy. This book, first published in 1990, provides a different picture of 'the Arab state', drawing on historical, economic, philosophical and sociological perspectives to give a balanced and convincing view of the complex reality of contemporary Arab politics. The contributors, from the Arab countries, from Europe and the United States, investigate the roots of the nation state in the Arab world, evaluating in particular the economic bases of individual states. They discuss the evolution of Arab societies and the way this is reflected in different states, and examine the problems of domestic and international integration in the Arab context. Original and comprehensive in its findings, this is an essential text on the fundamental political structure of the Arab world. Its interdisciplinary breadth makes possible an entirely new reading of the political reality of the Middle East.

Dynamism in Islamic Activism 2006 Though the media frequently cover tensions surrounding radical Muslim communities within Western countries, coverage and understanding of similar tensions within Muslim nations themselves are far more limited. This study of the Netherlands Scientific Council for Government Policy analyzes developments in Islamic beliefs, political activism, society and law in twelve Islamic countries since the 1970s. Dynamism in Islamic Activism is a penetrating, timely study that helps citizens and policy makers look beyond simplistic, stereotypical understandings of Islamic societies.

Toward a Healthier Contextualization among Muslims Wonjoo Hwang 2019-01-23 Various ministry approaches have been utilized in Muslim nations in the past in order to lead lost souls into God's Kingdom. One noticeable trend in recent years in the ministry is an increasing emphasis on contextualization. While the evangelical missiological community searches for more effective contextualization models, some ad hoc proposals have complicated the issue. One representative case is the Insider Movement among Muslims, whose advocates contend that Muslim followers of Isa (Jesus) can remain within their own Islamic socio-religious community while continuing in Islamic religious practices. What is urgently needed in the contemporary discussion on contextualization is to develop a comprehensive analytical framework based on a sound biblical-theological foundation for evaluating any missiological model. After reviewing the historical development of Muslim evangelism models, this study provides such an analytical framework for developing a healthier contextualization model among Muslims and applies this framework to the Insider Movement by critically evaluating the biblical interpretations and missiological reasonings of the Insider Movement advocates. The writer calls for a healthier contextualization model among Muslims that is biblically authentic and culturally relevant.

A Companion to the History of the Middle East Youssef M. Choueiri 2008-04-15 A Companion to the History of the Middle East offers a fresh account of the multifaceted and multi-layered history of this region. A fresh account of the multifaceted and multi-layered history of the Middle East Comprises 26 newly-commissioned essays by leading international scholars Primarily focused on the modern and contemporary periods Covers religious, social, cultural, economic, political and military history Treats the region as four differentiated political units – Iran, Turkey, Israel and the Arab world Includes a section on current issues, such as oil, urban growth, the role of women, and democratic human rights **Islam on the Move** Farish A. Noor 2012 "Much nuance and variability have been lost in the process of the reductionist analysis of Islam post 9/11 and, as this study amply demonstrates, we are all the poorer as a result. This exhaustive examination of the rise and spread of the Tablighi Jama'at, arguably the world's largest Islamic missionary movement, locates it in the larger perspective of global Islam and developments in the Muslim societies. Combining an overview of the history and current socio-political perception of the Tablighi Jama'at with a more analytical and philosophical approach to fundamental questions of identity, subject-positioning and representation, the author creates a comprehensive resource of interest to all scholars and students of Islam. Drawing on exhaustive research and records of conversion narratives of the new members of Tablighi Jama'at, cited here at length, the author creates a unique perspective on this complex phenomenon from both an internal and external viewpoints. Ahmad-Noor locates the spiritual framework of the movement in the context of its perception in the eyes of the political and religious authorities of the countries where it has a following, as well as the Western 'securocrat' approach."--Publisher's website.

Issues in Contemporary Islamic Thought Taha Jabir Al Alwani 2005 This collection of papers presents a reformist project calling upon Muslim intellectuals and scholars everywhere to comprehend the vast breadth and depth of the crisis engulfing Muslim thought today and the necessity of solving this crisis to enable

the Ummah to experience a revival and fulfill its role among the nations of the world. Another looks at human rights.

The Genealogy of Terror Matthew L. N. Wilkinson 2018-10-03 In the first two decades of the twenty-first century, the events of 9/11, 7/7, the War on Terror and the Caliphate and atrocities of the so-called Islamic State have dominated Western consciousness and wreaked havoc in parts of the Muslim-majority world. In their wake, a spate of books has been written explaining the phenomenon of Islamist radicalisation and Jihadism. Nevertheless, for normal citizens, as well as scholars of religion and legal professionals, the crucial question remains unanswered: how is mainstream Islam different from both Islamism and the Islamist Extremism that is used to justify terrorist violence? In this highly original book, which draws upon the author's experience as an expert witness in Islamic theology in 27 counter-terrorism trials, the author uses the idea of the Worldview, as well as traditional Islamic theology, to answer this question. The book explains not only what Mainstream Islam, Ideological Islamism and Islamist Extremism are in their broad philosophical characteristics and theological particulars, but also explains comprehensively how and why they are both superficially related and yet essentially and fundamentally different. In so doing, the book also illuminates the cast of characters and the development of their ideas that constitute Mainstream Islam, Ideological Islamism and the Non-Violent and Violent Islamist Extremists who constitute the Genealogy of Terror.

Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding Essien, Essien 2020-03-20 The contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution. Given the curious datum that culture is implicated in nearly every conflict in the world, culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes. Yet, what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored. The Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding is a critical publication that examines cultural differences in conflict resolution based on various aspects of culture such as morals, traditions, and laws. Highlighting a wide range of topics such as criminal justice, politics, and technological development, this book is essential for educators, social scientists, sociologists, political leaders, government officials, academicians, conflict resolution practitioners, world peace organizations, researchers, and students.

Political Islam and Governance in Bangladesh Ali Riaz 2010-10-04 The past decade has seen a marked policy focus upon Bangladesh, home to nearly 150 million Muslims; it has attracted the attention of the world due to weak governance and the rising tide of Islamist violence. This book provides a broad-ranging analysis of the growth and impact of "political Islam" in Bangladesh, and reactions to it. Grounded in empirical data, experts on Bangladesh examine the changing character of Bangladeshi politics since 1971, with a particular focus on the convergence of governance, Islamism and militancy. They examine the impacts of Islamist politics on education, popular culture and civil society, and the regional and extraregional connections of the Bangladeshi Islamist groups. Bringing together journalists and academics - all of whom have different professional and methodological backgrounds and field experiences which impact upon these issues from different vantage points - the book assesses Bangladesh's own prospects for internal stability as well as its wider impact upon South Asian security. It argues that the political environment of Bangladesh, the appeal of Islamist ideology to the general masses and the dynamic adaptability of Islamist organizations all demonstrate that Bangladesh will continue to focus the attention of policy makers and analysts alike. This is a timely, incisive and original explanation of the rise of political Islam and Islamic militancy in Bangladesh.

The Shah and the Ayatollah: Iranian Mythology and Islamic Revolution Fereydoun Hoveyda 2003-02-28 Twenty-two years after Ayatollah Khomeini's ascent to power in Iran many aspects of his 1979 Islamic revolution remain obscure if not baffling. For instance, in November 1978 an offer was made to him in his Paris exile to return to Iran with international guarantees of freedom of speech and action. He refused and demanded the departure of the Shah. Americans put pressure on the monarch to leave the country. Khomeini arrived in Tehran in early February 1979, and he immediately demanded the return of the Shah and his trial before an Islamic tribunal! No one could give a valid explanation of this contradiction in Khomeini's conduct and demands. Many other mysteries in the unfolding of the revolution and the policies of the Islamic republic which replaced the monarchy

have gone unexplained up to now. Scholars and experts in the West have offered the usual explanations for the Islamic revolution-corruption, deepening gaps between the rich and the poor, rapid industrialization, sky-rocketing inflation, westernizing policies that offended traditions, lack of democratic institutions, authoritarian rule, and on and on. But such characteristics which exist in other Muslim countries, especially in the Arab world, fail to clarify the particularities of the Iranian revolution. Indeed, as Ambassador Hoveyda points out, Iran is not an Arab country. It has kept alive its ancient mythological heritage which is not Islamic. It is an Indo-European nation with a recorded history of three thousand years! To understand the real causes of the 1979 revolution one must refer to the deep-rooted beliefs of Iranians and to their very rich mythology. One must also take into account the kind of Islam-shiism-Iranians have created and nurtured. In fact, Iran is a powerful example of how mythologies remain alive and can account for the conduct of a whole nation. Hoveyda shows the influence of myths in history-in-the-making. Indeed, he has found in the Iranian revolution many points that can be clarified only by the impact of old mythology and mindsets. He provides a very original explanation of the events that led to the fall of the Shah and the ascent of Khomeini, changing the political and diplomatic situation in the Middle East, the Persian Gulf, and the Caspian Sea region. As such it will be of great interest to scholars, students, researchers, and foreign policy makers involved with the Middle East and Islamic fundamentalism.

From Muhammad to Bin Laden David Bukay 2011-12-31 From Muhammad to Bin Laden analyzes the ideological, religious, and cultural foundations of one of the most inconceivable phenomena in contemporary world politics. Bukay analyzes the homicide bombings and atrocities perpetuated by worldwide jihad. He also uses information from primary sources to suggest how to cope with this lethal phenomenon. The book explores the meaning and interpretation of the seemingly benign concept of da'wah, the expansion of the Islamic community. Da'wah provides the religious and ideological justification for the lethal phenomenon of worldwide jihad; it describes the incentive and motivational drive that support the emergence and the operation of the fundamentalist Islamic movement. Bukay locates the dimensions of the phenomenon of jihad as well as the reasons, motivations, and aspects of the behavior of fundamentalist groups. The importance of this work lies in its skillful combination of historical perspectives and contemporary dynamics, religious and anthropological aspects of the phenomena, and its use of research tools of both the humanities and social sciences. By exploring the religious and cultural foundations of homicide bombers' activities, Bukay explains the essence of jihad, how it is connected to the da'wah, and together, how da'wah and jihad serve as the platform of the current worldwide terrorist activities. Bukay quotes religious edicts and declarations of classical and modern Islamic texts, as well as contemporary Islamic fanatic movements from Ibn Hanbal in the eighth century to Sayyid Qutb in the mid-twentieth century. He also aims to bring to the world's consciousness the aims and objectives of fundamentalist Islam. The volume concludes by challenging the free world to wake up before the bells of another world war start to ring. From Muhammad to Bin Laden will interest scholars, policymakers, and lay readers. Its importance is transparent, particularly in light of the current developments in the Middle East.

Islam and the Fate of Others Mohammad Hassan Khalil 2012-05-03 Can non-Muslims be saved? And can those who are damned to Hell ever be redeemed? In *Islam and the Fate of Others*, Mohammad Hassan Khalil examines the writings of influential medieval and modern Muslim scholars on the controversial and consequential question of non-Muslim salvation. This is an illuminating study of four of the most prominent figures in the history of Islam: Ghazali, Ibn 'Arabi, Ibn Taymiyya, and Rashid Rida. Khalil demonstrates that though these paradigmatic figures tended to affirm the superiority of the Islamic message, they also envisioned a God of mercy and justice and a Paradise populated by Muslims and non-Muslims. *Islam and the Fate of Others* reveals that these theologians' interpretations of the Qur'an and hadith corpus—from optimistic depictions of Judgment Day to notions of a temporal Hell and salvation for all—challenge widespread assumptions about Islamic scripture and thought. Along the way, Khalil examines the writings of many other important writers, such as Ibn Qayyim al-Jawziyya, Mulla Sadra, Shah Wali Allah of Delhi, Muhammad Ali of Lahore, James Robson, Sayyid Qutb, Yusuf al-Qaradawi, Farid Esack, Reza Shah-Kazemi, T. J. Winter, and Muhammad Legenhausen. *Islam and the Fate of Others* is both timely and overdue.

The Meaning and Explanation of the Glorious Qur'an (Vol 8) Muhammad Saed Abdul-Rahman 2009-10-29 This is the 2nd edition of volume 8 of the ten volumes of *The Meaning And Explanation Of The Glorious Qur'an*. The first edition of this book contained many formatting and typing errors. In this new edition, we have corrected all the errors found in the first edition. We have also re-arranged the structure of the book and added the full Arabic Text of the thirty Parts of the Qur'an. The reader is now able to read not only the meaning, the transliteration and the tafsir (explanation) of the Glorious Qur'an but also the full Arabic text as well. Our mission is to gather in one place, for the English-speaking public, all relevant information needed to make the Qur'an more understandable and easier to study. This book tries to do this by providing the following: 1. The Arabic Text for those who are able to read Arabic 2. Transliteration of the Arabic text for those who are unable to read the Arabic script. This will give them a sample of the sound of the Qur'an, which they could not otherwise comprehend from reading the English meaning. 3. The meaning of the Qur'an (translated by Dr. Muhammad Taqi-ud-Din Al-Hilali, Ph.D. and Dr. Muhammad Muhsin Khan) 4. Background introductions by two famous Islamic scholars, Maududi and Ibn Kathir 5. Explanation (abridged Tafsir) by Ibn Kathir (translated by Safi-ur-Rahman al-Mubarakpuri) We hope that by doing this an ordinary English-speaker will be able to pick up a copy of this book and study and comprehend *The Glorious Qur'an* in a way that is acceptable to the understanding of the Rightly-guided Muslim Ummah (Community).

Justice in Islam RAYMOND WILLIAM. BAKER 2022 Justice rather than the jihad or "holy war" of the Western imagination defines the Islam of the Qur'an and explains the global appeal of Islam's quest for the righteous community. For centuries, Abu Dharr al Ghifari, the seventh-century companion of the Prophet Muhammad, has provided a human face for Islamic justice as the core value of the faith. In this study of justice in Islam, Raymond Baker focuses on the influence of Abu Dharr, and the work of major intellectuals who have contributed to the Islamic Awakening. The Message of Islam.
