The House of My Sojourn Jane S. Sutton 2010-11-30 Evaluates the history of women's equality as an architectural metaphor, arguing that women have been

denied genuine authority by rhetorical practices that claim progressive goals while conversely supporting discrimination, in a report that cites the achievements of such figures as Frances Wright, Lucy Stone and Susan B. Anthony.

2011-10-20 Two Thousand Years of Solitude: Exile After Ovid is an interdisciplinary study of the impact of Ovid's banishment upon later Western literature and explores the responses to Ovid's portrait of his life in exile. Two millennia after his banishment, Ovid is

still a potent symbol of the punished author, suffering in exile.

Ovid and Hesiod Ioannis Ziogas

2013-04-11 The influence on Ovid of Hesiod, the most important archaic Greek poet after Homer, has been underestimated. Yet, as this book shows, a profound engagement with Hesiod's themes is central to Ovid's poetic world. As a poet who praised women instead of men and opted for stylistic delicacy instead of epic grandeur, Hesiod is always contrasted with Homer. Ovid revives this epic rivalry by setting the Hesiodic character of his *Metamorphoses* against the

Homeric character of Virgil's Aeneid. Dr Ziogas explores not only Ovid's intertextual engagement with Hesiod's works but also his dialogue with the rich scholarly, philosophical and literary tradition of Hesiodic reception. An important contribution to the study of Ovid and the wider poetry of the Augustan age, the book also forms an excellent case study in how the reception of previous traditions can become the driving force of poetic creation.

Hidden Wisdom Gedaliahu A.

Guy Stroumsa 1996 This book
investigates the problem of
esoteric traditions in early
Christianity, their origin and
their transformation in Patristic
hermeneutics, in the West as
well as in the East. It argues
that these traditions eventually
formed the basis of nascent
Christian mysticism in Late
Antiquity. These esoteric
traditions do not reflect the
influence of Greek Mystery
religions, as has often been
claimed, but rather seem to
stem from the Jewish
background of Christianity. They

were adopted by various Gnostic teachings, a fact which helps explaining their eventual disappearance from Patristic literature. The ten chapters study each a different aspect of the problem, including the questions of Gnostic and Manichaeism. This book will be of interest to all students of religious history in Late Antiquity. This publication has also been published in paperback, please click here for details.

Ovid and the Moderns Professor Emeritus of German and Comparative Literature Theodore Ziolkowski 2005 "The reasons for the conspicuous popularity of Ovid—his life as well as his works—at the turn of the new millennium bear investigation. . . . This book speaks of the new bodies assumed in the twentieth century by the poems and tales to which Ovid gave their classic form—including prominently the account of his own life, which has been hailed by many writers of our time as the

archetype of exile. . . . I intend to suggest some of the reasons for Ovid's appeal to different writers and different generations."—from the Preface Theodore Ziolkowski approaches Ovid's Latin poetry as a comparatist, not as a classicist, and maintains that the contextualization of individual works helps place them in a larger tradition.

Covering the period 1912–2002, *Ovid and the Moderns* deals with the reception of Ovid and of Ovid's works in literature.

After beginning with a discussion of Giorgio de Chirico's Ariadne paintings of 1912 and the Hofmannsthal–Strauss opera *Ariadne auf*

Naxos, Ziolkowski considers European literary landmarks from the High Modernism of Joyce, Kafka, Mandelstam, and Pound, by way of the mid-century exiles, to postmodernism and the century's end, when a surge of interest in Ovid was fueled by a new generation of translations. One of Ziolkowski's conclusions is that the popularity of Ovid alternates in a regular rhythm and for definable reasons with that of Virgil.

Translation and the Poet's Life
Paul Davis 2008-09-04 *Between the Civil War and the early*

decades of the eighteenth century, English poets of the first rank devoted more of their time and creative energies to translating than they had ever done before or have ever done since. Paul Davis's *Translation and the Poet's Life* is the first study to range across the entirety of this golden age of poetic translation in England, taking as its organizing principle and object of inquiry the significances of translating itself as a distinctive mode of imaginative conduct. Composed of case studies of the five leading poet-translators of the age - John Denham, Henry Vaughan, Abraham Cowley, John Dryden, and Alexander

Pope - it explores the part translation played in their lives as poets and thence in modelling 'the poet's life' during what was a period of transition between early-modern and modern constructions of it. The argumentative method of the book is metaphorical. Each chapter explores the impact on the theory and practice of the poet at issue of a metaphor or group of metaphors broadly current in contemporary translation discourse: in particular, figurations of the translator as an exile, as a child, as a code-breaker, and as a slave; and comparisons of translation to friendship, sexual congress, metamorphosis and

trade. The majority of these metaphors were wholly or potentially pejorative: translation remained a controversial practice throughout this period, widely depreciated and stigmatized. Turning translator accordingly forced the five major poets considered in Translation and the Poet's Life to undertake strenuous efforts of self-inquiry and self-presentation; to find new answers to questions integral to their understandings of themselves and their standing in their culture: questions about vocation and career, fame and happiness, responsibility and freedom. Translation and the Poet's Life tells the stories of

these personal and public remakings.

Egreteau 2015-09-30 With a
young population of more than
52 million, an ambitious
roadmap for political reform,
and on the cusp of rapid
economic development, since
2010 the world's attention has
been drawn to Myanmar or
Burma. But underlying recent
political transitions are other
wrenching social changes and
shocks, a set of transformations
less clearly mapped out.
Relations between ethnic and
religious groups, in the context
of Burma's political model of a

state composed of ethnic
groups, are a particularly
important "unsolved equation".
The editors use the notion of
metamorphosis to look at
Myanmar today and
tomorrow—a term that
accommodates linear change,
stubborn persistence and the
possibility of dramatic
transformation. Divided into four
sections, on politics, identity
and ethnic relations, social
change in fields like education
and medicine, and the
evolutions of religious
institutions, the volume takes a
broad view, combining an
anthropological approach with
views from political scientists
and historians. This volume is

an essential guide to the political and social challenges ahead for Myanmar.

Structures of Epic Poetry

Christiane Reitz 2019-12-16

This compendium (4 vols.) studies the continuity, flexibility, and variation of structural elements in epic narratives. It provides an overview of the structural patterns of epic poetry by means of a standardized,

stringent terminology. Both diachronic developments and changes within individual epics are scrutinized in order to provide a comprehensive structural approach and a key to intra- and intertextual characteristics of ancient epic poetry.

Roman Women Augusto

Fraschetti 2001 This collection
of essays features important
Roman women who were active
in politics, theater, cultural life,
and religion from the first
through the fourth centuries.

The contributors draw on rare
documents in an attempt to
reconstruct in detail the lives
and accomplishments of these
exceptional women, a difficult
task considering that the
Romans recorded very little
about women. They thought it
improper for a woman's virtues

to be praised outside the home.
Moreover, they believed that a
feeble intellect, a weakness in
character, and a general
incompetence prevented a
woman from participating in
public life. Through this
investigation, we encounter a
number of idiosyncratic
personalities. They include the
vestal virgin Claudia; Cornelia,
a matron; the passionate Fulvia;
a mime known as "Lycoris"; the
politician Livia; the martyr and
writer Vibia Perpetua; a hostess
named Helena Augusta; the
intellectual Hypatia; and the
saint Melania the Younger.
Unlike their silent female
counterparts, these women
stood out in a culture where it

was terribly difficult and odd to do so.
