*Countercultures and
Popular Music* Sheila
Whiteley 2016-05-13

'Counterculture' emerged
as a term in the late 1960s
and has been re-deployed in
more recent decades in

relation to other forms of cultural and socio-political phenomena. This volume provides an essential new academic scrutiny of the concept of 'counterculture' and a critical examination of the period and its heritage. Recent developments in sociological theory complicate and problematise theories developed in the 1960s, with digital technology, for example, providing an impetus for new understandings of counterculture. Music played a significant part in the way that the counterculture authored space in relation to articulations of community by providing a shared sense of collective identity. Not least, the heady mixture of genres provided a socio-cultural-political backdrop for distinctive musical practices and innovations which, in relation to counterculture ideology, provided a rich experiential setting in which different

groups defined their relationship both to the local and international dimensions of the movement, so providing a sense of locality, community and collective identity. Emblems of Eloquence
Wendy Heller 2004-01-12
Opera developed during a time when the position of women—their rights and freedoms, their virtues and vices, and even the most basic substance of their sexuality—was constantly debated. Many of these controversies manifested themselves in the representation of the historical and mythological women whose voices were heard on the Venetian operatic stage. Drawing upon a complex web of early modern sources and ancient texts, this engaging study is the first comprehensive treatment of women, gender, and sexuality in seventeenth-century opera. Wendy Heller explores the operatic manifestations of female chastity, power,

transvestism, androgyny, and desire, showing how the emerging genre was shaped by and infused with the Republic's taste for the erotic and its ambivalent attitudes toward women and sexuality. Heller begins by examining contemporary Venetian writings about gender and sexuality that influenced the development of female vocality in opera. The Venetian reception and transformation of ancient texts—by Ovid, Virgil, Tacitus, and Diodorus Siculus—form the background for her penetrating analyses of the musical and dramatic representation of five extraordinary women as presented in operas by Claudio Monteverdi, Francesco Cavalli, and their successors in Venice: Dido, queen of Carthage (Cavalli); Octavia, wife of Nero (Monteverdi); the nymph Callisto (Cavalli); Queen Semiramis of Assyria (Pietro Andrea Ziani); and Messalina, wife of Claudius

(Carlo Pallavicino). *The Years of Alienation in Italy* Alessandra Diazzi 2019-06-11 *The Years of Alienation in Italy* offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory

work during these two decades.

Magicians, necromancers and astrologers are assiduous characters in the European golden age theatre. This book deals with dramatic characters who act as physiognomists or palm readers in the fictional world and analyses the fictionalisation of physiognomic lore as a practice of divination in early modern Romance theatre from Pietro Aretino and Giordano Bruno to Lope de Vega, Calderón de la Barca and Thomas Corneille.

Primo Levi Lucie

Benchouiha 2006 As one of the best-known survivors of the concentration camps, Primo Levi's testimony to his experiences in Auschwitz is internationally recognised as one of the most significant works of

the last century. This volume examines each of Levi's works in detail, assessing and analysing the influence of Levi's time in Auschwitz on his writing. It identifies a variety of thematic, temporal, stylistic and linguistic echoes of Levi's concentration camp testimony, and traces these echoes throughout his subsequent, apparently unrelated, work. The book provides original and fascinating insights into the works of this remarkable writer, giving readers a new understanding and perspective on the immense significance and the pervasive influence of the holocaust on Levi's creative output.

Variazioni Belliche Amelia

Rosselli 2016 Poetry. Italian Studies. Translated from the

Italian by Lucia Re and Paul Vangelisti. Although for much of her life controversial and underrated in her own country, Amelia Rosselli (1930-1996) is now acknowledged internationally as one of the most important European poets of the 20th century. "VARIAZIONI BELLICHE" [WAR VARIATIONS] is her groundbreaking 1964 collection, posthumously edited and to which poems were added in the definitive 2009 Mondadori "I Meridiani" edition. WAR VARIATIONS is a new edition of Lucia Re's and Paul Vangelisti's prize winning translation (Premio Flaiano & PEN USA translation awards, 2006), with entirely revised & corrected texts, as well as the additional poems from the definitive Italian edition. Amelia Rosselli's accomplishments as poet and linguistic innovator remain unique and unsurpassed in her own

language and in post-War European literature. WAR VARIATIONS is an extremely moving fusion of the personal and public, within a singularly innovative poetic vision and diction.

Animals and Animality in Primo Levi's Work Damiano Benvegnù 2018-06-21
Situated at the intersection of animal studies and literary theory, this book explores the remarkable and subtly pervasive web of animal imagery, metaphors, and concepts in the work of the Jewish-Italian writer, chemist, and Holocaust survivor Primo Levi (1919-1987). Relatively unexamined by scholars, the complex and extensive animal imagery Levi employed in his literary works offers new insights into the aesthetical and ethical function of testimony, as well as an original perspective on contemporary debates surrounding human-animal relationships and

posthumanism. The three main sections that compose the book mirror Levi's approach to non-human animals and animality: from an unquestionable bio-ethical origin ("Suffering"); through an investigation of the relationships between writing, technology, and animality ("Techne"); to a creative intellectual project in which literary animals both counterbalance the inevitable suffering of all creatures, and suggest a transformative image of interspecific community ("Creation").

Il giocoliere elettronico

Nam June Paik 2002 An homage to Nam June Paik, "The Electronic Wizard" focuses on the video art pioneer's intense period of collaboration with cellist Charlotte Moorman.

Opening the book is a series of black-and-white photographs, many of them shot by Peter Moore, documenting the complex

relationship and artistic collaboration between Paik and Moorman, which began in 1964 and continued for a decade. The American musician is portrayed in various performances, in particular "Opera Sextronique" from 1967. Next come Paik's video sculptures, made of old radios, ancient televisions, and other retro objects--robot like forms that appear as ironic and imaginary metaphorical portraits of the soul of the new electronic man. "The Electronic Wizard" closes with a section dedicated to Paik's videos, presenting stills from eighteen individual works made between 1974 and 1989, including "Beatles Electronique," "Electronic Yoga," "Good Morning Mr. Orwell," and "Living with the Theater."

[Authenticity in Architectural Heritage Conservation](#)

Katharina Weiler

2016-07-01 The book contributes to a

recontextualization of authenticity by investigating how this value is created, reenacted, and assigned. Over the course of the last century, authenticity figured as the major parameter for the evaluation of cultural heritage. It was adopted in local and international charters and guidelines on architectural conservation in Europe, South and East Asia. Throughout this period, the concept of authenticity was constantly redefined and transformed to suit new cultural contexts and local concerns. This volume presents colonial and postcolonial discourses, opinions, and experiences in the field of architectural heritage conservation and the use of site-specific practices based on representative case studies presented by art historians, architects, anthropologists, and conservationists from Germany, Nepal, India, China, and Japan. With more than 180 illustrations

and a collection of terminologies in German, English, Sanskrit, Hindi, Nevari and Nepali, classical Chinese and standard Mandarin, and Japanese, these cross-cultural investigations document the processual re-configuration of the notion of authenticity. They also show that approaches to authenticity can be specified with key analytical categories from transcultural studies: appropriation, transformation, and, in some cases, refusal.

La Città Altra. Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese Francesca Capano 2018-10 This volume proposes a rich corpus of papers about the 'Other City', a subject only few times dealt with, but worthy of all our attention: it imposes itself on the scene of international

modern and contemporary historiography for its undeniable topicality. Throughout history, the city has always had to deal with social 'otherness', i.e. with class privileges and, consequently, with discrimination and marginalization of minorities, of the less well-off, of foreigners, in short, with the differences in status, culture, religion. So that the urban fabric has ended up structuring itself also in function of those inequalities, as well as of the strategic places for the exercise of power, of the political, military or social control, of the spaces for imprisonment, for the sanitary isolation or for the 'temporary' remedy to the catastrophes. From the first portraits of cities, made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes, which often, through increasingly refined graphic

techniques, distort or even deny the true urban image, we reach, at the dawn of contemporary history, the new meaning given by scientific topography and new methods of representation; these latter aimed at revealing the structure and the urban landscape in their objectivity, often unexpected for who had known the city through the filter of 'regime' iconography. The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities, other times rejects them, showing the unease of a difficult integration.

The Complete

Danteworlds Guy P. Raffa
2009-08-01 Dante Alighieri's Divine Comedy has, despite its enormous popularity and importance, often stymied readers with its multitudinous characters, references, and themes. But until the publication in 2007 of Guy Raffa's guide to the Inferno, students lacked a suitable resource to help them navigate Dante's underworld. With this new guide to the entire Divine Comedy, Raffa provides

readers—experts in the Middle Ages and Renaissance, Dante neophytes, and everyone in between—with a map of the entire poem, from the lowest circle of Hell to the highest sphere of Paradise. Based on Raffa's original research and his many years of teaching the poem to undergraduates, *The Complete Danteworlds* charts a simultaneously geographical and textual journey, canto by canto, region by region, adhering closely to the path taken by Dante himself through Hell, Purgatory, and Paradise. This invaluable reference also features study questions, illustrations of the realms, and regional summaries. Interpreting Dante's poem and his sources, Raffa fashions detailed entries on each character encountered as well as on many significant historical, religious, and cultural allusions.

Kengo Kuma. Catalogo della mostra (Padova, 27 ottobre

Ediz. italiana e inglese. Con CD-ROM Kengo Kuma 2007
Il volume illustra l'opera completa di Kengo Kuma, cercando di svelare il continuo e dialettico rapporto tra materia e forma che l'architetto continuamente insegue e realizza nei suoi progetti. L'estetica zen è la fonte di ispirazione di Kuma. Con l'aggregazione di pochi elementi, in sintonia con la linea concettuale indicata proprio dalla filosofia Zen, l'architetto definisce spazi di pura contemplazione. Spazi fluidi in cui il vuoto si manifesta come presenza e non come assenza, diviene luogo di pensiero e non silenzio sterile. Ad una parte introduttiva, segue una raccolta di architetture già realizzate, ma anche alcune in fase di costruzione o di progettazione che cercano di mostrare il processo di genesi progettuale e materiale dell'opera di Kuma, caratterizzata dalla ricerca

compositiva applicata ai materiali naturali come elementi costitutivi della fabbrica. Il volume accompagnerà la mostra dedicata all'illustre architetto giapponese che si terrà nell'autunno prossimo al Palazzo della Ragione di Padova.

The Two-fold Thought of Deleuze and Guattari

Charles J. Stivale
1998-06-05 French philosophers Gilles Deleuze and Felix Guattari worked together extensively from the 1960s into the 1990s, and the resulting "intersections" of their different sensibilities and modes of knowing fueled powerful alternatives to Marxian and psychoanalytic orthodoxies. Yet readers approaching Deleuze and Guattari's works are often frustrated by the paucity or unfamiliarity of specific examples that might clarify their complex arguments. This timely volume

"animates" key concepts and terminology by applying them to provocative readings of literary texts, films, and cultural phenomena--from *Apocalypse Now* to Cajun music and dance. Drawing extensively from primary and critical sources to elucidate Deleuze and Guattari's theoretical contributions, Stivale reinvigorates their "two-fold thought" for use as an analytical tool in the humanities and social sciences. The book also offers a clear introduction to the precollaborative phase of each thinker's work, an interview Stivale conducted with Guattari, and the first-time English translation of a 1967 essay by Deleuze. This volume explores the reorganisation of knowledge taking place in the course of

Galileo's research process extending over a period of more than thirty years, pursued within a network of exchanges with his contemporaries, and documented by a vast collection of research notes. It has revealed the challenging objects that motivated and shaped Galileo's thinking and closely followed the knowledge reorganization engendered by these challenges. It has thus turned out, for example, that the problem of reducing the properties of pendulum motion to the laws governing naturally accelerated motion on inclined planes was the mainspring for the formation of Galileo's comprehensive theory of naturally accelerated motion.

"Metamorphosis" includes work by 28 artists from around the world: Julie Allen, Stefano Arienti, Betty Bee, Luigi Carboni, Francesco Clemente, Mario Dellavedova, George Jiri Dokoupil, Jeanne Dunning, Nan Goldin, Jim Hodges, Massimo Kaufmann, Margherita Manzelli, Raffaella Mariniello, Luigi Ontani, Marco Papa and Pino Pasca.

Modern Forms of Work

Stefano Bellomo 2020-10-06 The collective volume "Modern Forms of Work. A European Comparative Study" evokes the intent to embody a reflection focused

on modern labour law issues from a comparative perspective. A first set of essays contains national reports on modern forms of work. The second group contains some reflections regarding critical issues on digitalization, platforms and algorithms, analysing the different facets of the galaxy of digital work. The third group of essays flows into the section entitled “new balances and workers’ rights in the digital era”, a crucial topic in the debate. The complex of the writings, despite the diversity of approaches and methods, reveals the existence of a dense and inexhaustible dialogue between young scholars, at European and extra-European level. The analysis of new forms of work – the offspring of transnational processes of globalization and technologization – forms a fertile ground for experimenting a transnational dialogue on which young researchers

can practice with excellent results, as this small volume confirms.

Hegemony and Power

Benedetto Fontana Presents a comparative and textual exploration of Gramsci's interpretation of Machiavelli's political analyses. This valuable contribution to our understanding of Gramsci includes a comparison of the major Machiavellian ideas such as the nature of political knowledge, the new principality, the concept of the people, and the relation between thought and action, to Gramsci's concepts of hegemony, moral and intellectual reform, and the collective will.

Imperial City Susan

Vandiver Nicassio
2009-10-15 In 1798, the
armies of the French
Revolution tried to
transform Rome from the

capital of the Papal States to a Jacobin Republic. For the next two decades, Rome was the subject of power struggles between the forces of the Empire and the Papacy, while Romans endured the unsuccessful efforts of Napoleon's best and brightest to pull the ancient city into the modern world. Against this historical backdrop, Nicassio weaves together an absorbing social, cultural, and political history of Rome and its people. Based on primary sources and incorporating two centuries of Italian, French, and international research, her work reveals what life was like for Romans in the age of Napoleon. "A remarkable book that wonderfully vivifies an understudied era in the history of Rome. . . . This book will engage anyone interested in early modern cities, the relationship between religion and daily life, and the history of the city of Rome."—Journal of Modern

History "An engaging account of Tosca's Rome. . . . Nicassio provides a fluent introduction to her subject."—History Today "Meticulously researched, drawing on a host of original manuscripts, memoirs, personal letters, and secondary sources, enabling [Nicassio] to bring her story to life."—History [The Computer and Music](#) Harry B. Lincoln 2019-06-30 *Leonardo Da Vinci as a Musician* Emanuel Winternitz 1982-01-01 *The Imagined Immigrant* Ilaria Serra 2009 Using original sources--such as newspaper articles, silent movies, letters, autobiographies, and interviews--Ilaria Serra depicts a large tapestry of images that accompanied mass Italian migration to the U.S. at the turn of the twentieth century. She chooses to translate the Italian concept of *immaginario* with the Latin *imago* that felicitously blends the double English

translation of the word as "imagery" and "imaginary." Imago is a complex knot of collective representations of the immigrant subject, a mental production that finds concrete expression; impalpable, yet real. The "imagined immigrant" walks alongside the real one in flesh and rags.

Félix Guattari Franco Berardi Bifo 2008-11-05
Félix Guattari: Thought, Friendship, and Visionary Cartography, by Franco Berardi 'Bifo', originates in the author's close personal acquaintance with Félix Guattari's writings and political engagement in the context of Berardi Bifo's activism in Italian autonomist politics and his ongoing collaboration with Guattari in the 1970s and

1980s. This biography gains distinction from its keen insight into Guattari's political practice and from a precise understanding of how this practice relates to the theoretical and conceptual aspects of Guattari's writings, alone and with Gilles Deleuze. Thanks to an approach at once personal and theoretically well informed, Bifo's biography provides a clear and accessible introduction to Guattari's works. This edition also includes a critical introduction and a 2005 interview with Bifo on a range of topics relating Guattari's works to the current political conjuncture.
