It is especially valuable for graduate programs and DNP programs as it provides a foundation for contemporary leadership and emphasizes the characteristics necessary to lead complex organizations. The Fourth Edition features an additional chapter on the complexity of leadership in health care reform in an effort to incorporate the newest requirements of the Patient Protection Affordable Care Act in a manner that is relevant to leadership development and capacity. Case studies found within each chapter help reinforce translational work while new application exercises found in the "The Quantum Workbook" are an excellent supplement for learning. Additional updates to the text include: chapter podcasts, additional translational and learning material related to chapter case studies. Marketing William O. Bearden 2007 Marketing: Principles and Perspectives, 5e is a cutting edge text. In the first four editions, we demonstrated this leading coverage with our strong integration of Integrated Marketing Communication, cross-functional teams, and integration of the Internet throughout. The authors not only talk about what marketing is, but prepare students to be marketers by involving them in interactive exercises which strengthen decision making skills. Marketing, 5e offers the latest coverage and quality supplements, but is still approximately \$20 less than most principles of marketing competitors. The perspectives approach is present in the fifth edition; however, the over-riding theme concentrates on building customer equity.
