Handbook of Early Literacy

Research Susan B. Neuman

2017-05-08 Current research

increasingly highlights the role of early literacy in young children's development--and facilitates the growth of practices and policies that promote success among diverse learners. The Handbook of Early Literacy Research presents cutting-edge knowledge on all aspects of literacy learning in the preschool years. Volume 1 covers such essential topics as major theories of early literacy; writing development; understanding learning disabilities, including early intervention approaches; cultural and socioeconomic contexts of literacy development; and tutoring

programs and other special intervention efforts.

Peer-assisted Learning Keith

Topping 1998-07 Peer Assisted

Learning (PAL) involves

children in school consciously

assisting others to learn, and in

so doing learning more

effectively themselves. It

encompasses peer tutoring,

peer modeling, peer education,

peer counseling, peer

monitoring, and peer

assessment, which are

differentiated from other more

general "co-operative learning" methods. PAL is not diluted or surrogate "teaching"; it complements and supplements (but never replaces) professional teaching--capitalizing on the unique qualities and richness of peer interaction and helping students become empowered democratically to take more responsibility for their own learning. In this book, PAL is presented as a set of dynamic, robust, effective, and flexible approaches to teaching and learning, which can be used in a range of different settings. The chapters provide descriptions of good practice blended with research findings

on effectiveness. They describe procedures that can be applied to all areas of the school curriculum, and can be used with learners of all levels of ability, including gifted students, students with disabilities, and second-language learners. Among the distinguished contributors, many are from North America, while others are from Europe and Australia. The applicability of the methods they present is worldwide. Peer-Assisted Learning is designed to be accessible and useful to teachers and to those who employ, train, support, consult with, and evaluate them. Many chapters will be helpful to teachers aiming to replicate in

their own school environments
the cost-effective procedures
described. A practical resources
guide is included. This volume
will also be of interest to faculty
and researchers in the fields of
education and psychology, to
community educators who want
to learn about the implications
of Peer Assisted Learning
beyond school contexts, and to
employers and others involved
in post-school training.

Editors' Choice Moving, honest,

and deeply personal, Red Scarf

Girl is the incredible true story

of one girl's courage and

determination during one of the

most terrifying eras of the twentieth century. It's 1966, and twelve-year-old Ji-li Jiang has everything a girl could want: brains, popularity, and a bright future in Communist China. But it's also the year that China's leader, Mao Ze-dong, launches the Cultural Revolution—and Ji-li's world begins to fall apart. Over the next few years, people who were once her friends and neighbors turn on her and her family, forcing them to live in constant terror of arrest. And when Ji-li's father is finally imprisoned, she faces the most difficult dilemma of her life. Written in an accessible and engaging style, this page-turning autobiography will

appeal to readers of all ages, and it includes a detailed glossary and a pronunciation guide.

Common Core Literacy for ELA, History/Social Studies, and the Humanities Katherine S.

McKnight 2014-04-18 Common Core Literacy for ELA,

History/Social Studies, and the Humanities In this age of the

Common Core State Standards, all content area teachers must

integrate literacy standards into their curriculum. If you're like

most content area educators, you're feeling a bit overwhelmed

at the thought of applying the

new standards, or you might just need a little extra help. In this

hands-on resource, Common Core literacy expert

KatherineMcKnight offers secondary teachers a clear understanding of whatliteracy looks like in English Language Arts (ELA), social studies,and other humanities-related subjects. She gives educators proven teaching techniques that will help them to develop literacy skillsin their students. The book offers a wealth of practical strategiesand activities that content area teachers can integrate seamlessly.Included are A selection of activities that support literacy skills andbuild content knowledge Ideas for implementing the literacy requirements of the CommonCore in specific content areas An easy-to-use

Difficulty Dial that indicates the complexity ofeach activity Robust student samples that bring the activities to life acrossa variety of grade levels Praise for Common Core Literacy for ELA, History/SocialStudies, and the Humanities "McKnight eloquently dispels much of the mythology surroundingthe new standards, and explains how to help students find success.You'll find this engaging book your 'go-to' resource forimplementing the Common Core!" – Richard M. Cash,Ed.D., Educational Consultant; Author, AdvancingDifferentiation: Thinking and Learning for the

21st Century "While this book would be a gift to any beginning teacher, its practical and comprehensible support for literacy as defined by the Common Core State Standards makes it a must-have for all teachers."— Laura Garner, Language Arts Coordinator, Berkeley County (South Carolina) Public Schools "This is a must-read for all middle and high school content area teachers! McKnight shows how every strategy in the book supports student achievement of the Common Core." — LeAnn Nickelsen, M.Ed., Educational Consultant; Coauthor, *Deeper Learning and Bringing the Common Core to*

Life in K – 8 Classrooms: Academic Assessment and Intervention Steven Little 2014-01-21 Serving students with academic deficiencies necessitates communication and collaboration among professionals from several disciplines. *Academic Assessment and Intervention* brings together divergent approaches in order to demonstrate that scientific evidence, rather than biases or previous practice, must determine assessment practices that are selected and used for particular purposes. Similar to a handbook in its comprehensive topical coverage, this edited collection provides a contextual

foundation for academic assessment and intervention; describes both norm-referenced and curriculum-based assessment/measurement in detail; considers the implications of both of these assessments on ethnically diverse populations; provides a clear link between assessment, evidence-based interventions and the RTI model; and considers other important topics related to this area such as teacher behavior. Intended primarily for graduate-level courses in education, school psychology, or child clinical psychology, it will also be of interest to practicing professionals in these fields.

CSET English Subtests I-IV

Learning disabilities screening and evaluation guide for low-

and middle-income countries

Anne M. Hayes 2018-04-29

Learning disabilities are among the most common disabilities experienced in childhood and adulthood. Although identifying learning disabilities in a school setting is a complex process, it is particularly challenging in low- and middle-income countries that lack the appropriate resources, tools, and supports. This guide provides an introduction to learning disabilities and describes the processes and practices that are necessary for the identification process. It also describes a phased approach that countries can use to assess their current screening

and evaluation services, as well as determine the steps needed to develop, strengthen, and build systems that support students with learning disabilities. This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development. Although this guide primarily addresses learning disabilities, the practices, processes, and systems described may be also used to improve the identification of other disabilities commonly encountered in schools.
