Nine, easy-to-understand principles with clear applications for the classroom Includes surprising findings, such as that intelligence is malleable, and that you cannot develop "thinking skills" without facts How an understanding of the brain's workings can help teachers hone their teaching skills "Mr. Willingham's answers apply just as well outside the classroom. When a Ghost Talks, Listen Tim Tingle 2020-11-10 SINCE YOU'RE READING my second book, you already know who I am. You know my name is Isaac, that I'm ten years old, soon to be eleven, and you know I am a ghost. I am not dead, not in the usual way. I am not buried and gone, but I am a ghost. I have learned to travel by closing my eyes and thinking where I want to be. That's how ghosts do it. I can disappear so no one can see me or I can gradually float into sight, as you will recall. But I didn't tell you everything about being a ghost. I didn't want to terrify you. But you're older now—you can handle it.

An Indigenous Peoples' History of the United States Roxanne Dunbar-Ortiz 2015-08-11 New York Times Bestseller Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the

fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United States* is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

Tomorrow's Memories Angeles Monrayo 2003-03-31 Angeles Monrayo (1912-2000) began her diary on January 10, 1924, a few months before she and her father and older brother moved from a sugar plantation in Waipahu to Pablo Manlapit's strike camp in Honolulu. Here for the first time is a young Filipino girl's view of life in Hawaii and central California in the first decades of the twentieth century—a significant and often turbulent period for immigrant and migrant labor in both settings. Angeles' vivid, simple language takes us into the heart of an early Filipino family as its members come to terms with poverty and racism and struggle to build new lives in a new world. But even as Angeles recounts the hardships of immigrant life, her diary of "everyday things" never lets us forget that she and the people around her went to school and church, enjoyed music and dancing, told jokes, went to the movies, and fell in love. Essays by Jonathan Okamura and Dawn Mabalon enlarge on Angeles' account of early working-class Filipinos and situate her experience in the larger history of Filipino migration to the United States.

Red Pedagogy Sandy Grande 2015-09-28 This ground-breaking text explores the intersection between dominant modes of critical educational theory and the socio-political landscape of American Indian education. Grande asserts that, with few exceptions, the matters of Indigenous people and Indian education have been either largely ignored or indiscriminately absorbed within critical theories of education. Furthermore, American Indian scholars and educators have largely resisted engagement with critical educational theory, tending to concentrate instead on the production of historical monographs, ethnographic studies, tribally-centered curricula, and site-based research. Such a focus stems from the fact that most American Indian scholars feel compelled to address the socio-economic urgencies of their own communities, against which engagement in abstract theory appears to be a luxury of the academic elite. While the author acknowledges the dire need for practical-community based research, she maintains that the global encroachment on Indigenous lands, resources, cultures and communities points to the equally urgent need to develop transcendent theories of decolonization and to build broad-based coalitions.

Dreaming of a Place Called Home Greg Wiggan 2016-07-08 "This book auto-ethnographically explores the experiences of students and teachers both locally and globally, while addressing the critical intersection of race,

class, and gender in education. It explores diversity perspectives on schools and society in Japan, the United States, Bahamas, and Jamaica in regards to living and attending schools in a foreign country; being an international minority student in the U.S.; and being a minority teacher in U.S. public schools. In doing so, the book addresses minority experiences as it seeks to promote agency and advocacy for the underserved both locally and globally, and making the world more humane and inclusive through education. It acknowledges that we live in a global society, and as such, we must become global citizens and ambassadors of the world in which we live. Greg Wiggan is an Associate Professor of Urban Education, Adjunct Associate Professor of Sociology, and Affiliate Faculty Member of Africana Studies at the University of North Carolina at Charlotte. His research addresses urban education and urban sociology in the context of school processes that promote high achievement among African American students and other underserved minority student populations. In doing so, his research also examines the broader connections between the history of urbanization, globalization processes and the internationalization of education in urban schools. His books include: *Global Issues in Education: Pedagogy, Policy, Practice, and the Minority Experience*; *Education in a Strange Land: Globalization, Urbanization, and Urban Schools - The Social and Educational Implications of the Geopolitical Economy*; *Curriculum Violence: America's new Civil Rights Issue*; *Education for the New Frontier: Race, Education and Triumph in Jim Crow America (1867-1945)*; *Following the Northern Star: Caribbean Identities and Education in North American Schools*; *Unshackled: Education for Freedom, Student Achievement and Personal Emancipation*; *In Search of a Canon: European History and the Imperialist State*; and *Last of the Black Titans: The Role of Historically Black Colleges and Universities in the 21st Century*. *Korean National Identity under Japanese Colonial Rule* Michael Shin 2018-04-17 Modern Korean nationalism has been shaped by the turbulent historical forces that shook and transformed the peninsula during the twentieth century, including foreign occupation, civil war, and division. This book examines the emergence

of the nation as the hegemonic form of collective identity after the March First Movement of 1919, widely seen as one of the major turning points of modern Korean history. The analysis focuses on Yi Gwangsu (1892–1950), a pioneering novelist, newspaper editor, and leader of the nationalist movement, who was directly involved in many aspects of its emergence during the Japanese occupation period. Yi Gwangsu was one of the few intellectuals who not only wrote for almost the entirety of the colonial period but who also was centrally involved in many institutions related to the production of identity. By focusing on Yi Gwangsu the book provides a different kind of historical narrative linking the various fragments of the nation, puts forward a new understanding of the March First Movement and its role in the emergence of the nation, and demonstrates how central to the emergence of the nation were the development of the print industry, the rise of a modern readership, and the emergence of a capitalist market for print. This book shows how the March First Movement catalyzed the confluence of these factors, enabling the nation to emerge as the dominant form of collective identity.

Voices of a People's History of the United States Howard Zinn 2011-01-04 Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in *Voices of a People's History of the United States*, edited by Howard Zinn and Anthony Arnove. Paralleling the twenty-four chapters of Zinn's *A People's History of the United States*, *Voices of a People's History* is the long-awaited companion volume to the national bestseller. For *Voices*, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. *Voices of a People's History* is a symphony of our nation's original voices, rich in ideas and actions, the

embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience.
