**Work Reimagined** Richard J. Leider 2015-11-02 DISCOVER WHAT YOU'RE HERE TO DO It's the end of work as we know it. Career paths look nothing like they did in the days before phones got smart. We work more hours at more jobs for more years than ever before. So it's vital that we know how to find work that allows us to remain true to who we are in the deepest sense, work that connects us to something larger than ourselves--in short, our "calling." We all have one, and bestselling authors Richard Leider and David Shapiro can help you uncover yours. Through a unique Calling Card exercise that features a guided exploration of fifty-two "natural preferences" (such as Advancing Ideas, Doing the Numbers, Building Relationships, and Performing Events), Leider and Shapiro give us a new way to uncover our gifts, passions, and values and find work that expresses them. Along the way, they mix in dozens of inspiring true stories about people who have found, or are in the process of finding, their own callings. Uncovering your calling enables you to experience fulfillment in all aspects and phases of your life. And here's the even better news: you'll never have to work again. When you choose to do what you are called to do, you're always doing what you want to do. Work Reimagined offers an enlightening, effective, and entertaining approach to discovering what you were born to do, no matter your age or stage of life.

Egg Drop Mini Grey 2012-06-27 Now for something completely different from Mini Grey! A mother hen tells her chicks about the egg that wanted to fly. "The egg was young. It didn't know much. We tried to tell it, but of course it didn't listen." The egg loves looking up at the birds (yes, it has eyes). It climbs 303 steps (yes, it has legs) to the top of a very tall tower--and jumps. It feels an enormous egg rush. "Whee!" it cries. "I am flying!" But it is not flying, it is falling. Hold your tears, dear reader--there is a sunny ending for this modern-day Humpty Dumpty. Impossible to categorize, Egg Drop is Mini Grey at her zaniest.

[The Science of Breakable Things](#) Tae Keller 2019-05-21 Natalie’s uplifting story of using the scientific process to “save” her mother from depression is what Booklist calls “a winning story full of heart and action.” Eggs are breakable. Hope is not. When Natalie’s science teacher suggests that she enter an egg drop competition, Natalie thinks that this might be the perfect solution to all of her problems. There’s prize money, and if she and her friends wins, then she can fly her botanist mother to see the miraculous Cobalt Blue Orchids—flowers that survive against impossible odds. Natalie’s mother has been suffering from depression, and Natalie is sure that the flowers’ magic will inspire her mom to love life again. Which means it’s time for Natalie’s friends to step up and show her that talking about a problem is like taking a plant out of a dark cupboard and giving it light. With their help, Natalie begins an uplifting journey to discover the science of hope, love, and miracles. A vibrant, loving debut about the coming-of-age moment when kids realize that parents are people, too. Think *THE FOURTEENTH GOLDFISH* meets *THE THING ABOUT JELLYFISH*. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR \* KIRKUS REVIEWS \* THE CHICAGO PUBLIC LIBRARY \* “Natalie’s Korean heritage is sensitively explored, as is the central issue of depression.” --Publishers Weekly “A compassionate glimpse of mental illness accessible to a broad audience.” --Kirkus Reviews, STARRED REVIEW “Holy moly!!! This book made me feel.” --Colby Sharp, editor of *The Creativity Project*, teacher, and cofounder of Nerdy Book Club

*National Science Education Standards* National Research Council 1996-01-07 Americans agree that our students urgently need better science education. But what should they be expected to know and be able to do? Can the same expectations be applied across our diverse society? These and other fundamental issues are addressed in *National Science Education Standards*—a landmark development effort that reflects the contributions of thousands of teachers, scientists, science educators, and other experts across the country. The *National Science Education Standards* offer a coherent vision of what it means to be

scientifically literate, describing what all students regardless of background or circumstance should understand and be able to do at different grade levels in various science categories. The standards address: The exemplary practice of science teaching that provides students with experiences that enable them to achieve scientific literacy. Criteria for assessing and analyzing students' attainments in science and the learning opportunities that school science programs afford. The nature and design of the school and district science program. The support and resources needed for students to learn science. These standards reflect the principles that learning science is an inquiry-based process, that science in schools should reflect the intellectual traditions of contemporary science, and that all Americans have a role in improving science education. This document will be invaluable to education policymakers, school system administrators, teacher educators, individual teachers, and concerned parents.
