International Comparative Perspectives on Religion and Education

Charl C. Wolhuter
2014-05-31 This book scrutinises religion in education in ten countries. It reveals much about the tension between religion and education in secular countries, and the blending between religion and education in religious countries, such as Iran and Malaysia, as well as secular countries such as the Netherlands. It also shows the important role the church currently plays in education in developing countries, such as Tanzania.

The Leader in Me Stephen R. Covey
2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-

grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Shooting Star Shivya Nath
2018-09-14 Shivya Nath quit her corporate job at age twenty-three to

travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, *The Shooting Star* is a travel memoir that maps not just the world but the human spirit.

God, Schools, and Government Funding
Laurence H. Winer 2016-04-15 In recent years, a conservative majority of the U.S. Supreme Court, over vigorous dissents, has developed circumventions to the Establishment Clause of the First Amendment that allow state legislatures unabashedly to use public tax dollars increasingly to aid private elementary and secondary education. This expansive and innovative legislation provides considerable governmental funds to support parochial schools and other religiously-affiliated education providers. That political response to the perceived declining quality of traditional public schools and the vigorous school choice movement for alternative educational opportunities provokes passionate constitutional controversy. Yet, the Court's recent decision in *Arizona Christian School Tuition Organization v. Winn* inappropriately denies taxpayers recourse to challenge these proliferating tax funding schemes in federal courts. Professors Winer and Crimm clearly elucidate the complex and controversial policy, legal, and constitutional issues involved in using tax expenditures - mechanisms such as exclusions, deductions, and credits that economically function as government subsidies - to finance private, religious schooling. The authors argue that legislatures must

take great care in structuring such programs and set forth various proposals to ameliorate the highly troubling dissention and divisiveness generated by state aid for religious education.

The Sonny Chronicles Volume I Tobe Carberry 2010-10 B.G.P., 'Tha' Berch', 'Weed Gardens...' All nicknames representing a neighborhood - Berchwin Gardens Projects! Berchwin was a Garden because of the talented budding youth housed in the neighborhood. Hundreds of bright young children ran in courtyards, on playgrounds and in hallways of a Garden. That Garden budded youth that blossomed into adults affected by the ills of the projects. Some say it is hard to have a Garden in the Projects because there is rarely even one rose

that grows from concrete. There are a few success stories of those who escaped from B.G.P.'s, finding success and never returning, but those stories are not told for inspiration but rather disgust. One thing about those housed in this Project Garden, unity was essential. Poverty had a vise grip on those of Berchwin but close inter-family bonds gave Berchwin a sense of community pride. Even with the common ills of the projects; dysfunctional families, drug abuse, alcohol abuse, disease and poverty 'Tha' Berch was home to a special budding star. A star that was destined to represent the Garden... This young rose of "Weed Gardens" was destined because those before him of the same lineage and genes struggled. That struggle was passed down through painful family issues that created a youngster focused on not being like "them." Meet that youngster... Meet that star... Meet that rose amongst weeds.... See life through his eyes... Tobe Carberry and Samont Washington Present; *The Sonny Chronicles, Volume One: First Things Learned Are Hardest to Forget.* Routledge Handbook of Modern Japanese Literature Rachael Hutchinson 2016-06-03 The Routledge Handbook of Modern Japanese Literature provides a comprehensive overview of how we study Japanese literature today. Rather than taking a purely chronological approach to the content, the chapters survey the state of the field through a number of pressing issues and themes, examining the ways in which it is possible to read modern Japanese literature and situate it in relation to critical theory. The Handbook examines various modes of literary production (such as fiction, poetry, and critical essays) as distinct forms of expression that nonetheless are closely interrelated. Attention is drawn to the idea of the bunjin as a 'person of letters' and a more realistic assessment is provided of how writers have engaged with ideas - not labelled a 'novelist' or 'poet', but a 'writer' who may at one time or another choose to write in various forms. The book provides an overview

of major authors and genres by situating them within broader themes that have defined the way writers have produced literature in modern Japan, as well as how those works have been read and understood by different readers in different time periods. The Routledge Handbook of Modern Japanese Literature draws from an international array of established experts in the field as well as promising young researchers. It represents a wide variety of critical approaches, giving the study a broad range of perspectives. This handbook will be of interest to students and scholars of Asian Studies, Literature, Sociology, Critical Theory, and History.

The Last Lecture Randy Pausch 2008-04-08 "We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Life Is Good Today: Freshly Brewed Devotions for Your Coffee and Sanity Breaks Dr. Thomas E Engel 2016-01-08

All sorts of bad things can happen in a day, but the hard and tough situations do not have to overshadow our lives. We do not need to linger in our problems, but instead we can live in the good promises of God. In all that Jesus has done by dying and rising for us, we can have a good day every day. God's glory is too awesome to stay stuck in anything bad. Life is too short for a bad cup of coffee and for a whole lot of other bad things. In the midst of our often crazy and chaotic lives, faith says, "Life is good today."

Assume the Worst Carl Hiaasen
2018-04-10 This is Oh, the Places You'll Never Go--the ultimate hilarious, cynical, but absolutely realistic view of a college graduate's future. And what he or she can or can't do about it. "This commencement address will never be given, because graduation speakers are supposed to offer encouragement and inspiration. That's not what you need. You need a warning." So begins Carl Hiaasen's attempt to prepare young men and women for their future. And who better to warn them about their precarious paths forward than Carl Hiaasen? The answer, after reading *Assume the Worst*, is: Nobody. And who better to illustrate--and with those illustrations, expand upon and cement Hiaasen's cynical point of view--than Roz Chast, best-selling author/illustrator and National Book Award winner? The answer again is easy: Nobody. Following the format of Anna Quindlen's commencement address (*Being Perfect*) and George Saunders's commencement address (*Congratulations, by the way*), the collaboration of Hiaasen and Chast might look typical from the outside, but inside it is anything but. This book is bound to be a classic, sold year after year come graduation time. Although it's also a good gift for anyone starting a job, getting married, or recently released from prison. Because it is not just funny. It is, in its own Hiaasen way, extremely wise and even hopeful. Well, it might not be full of hope, but there are certainly enough slivers of the stuff in there to more than keep us all going.

The Making of Modern Iran Dr

Stephanie Cronin 2012-11-12 This collection of essays, by a distinguished group of specialists, offers a new and exciting interpretation of Riza Shah's Iran. A period of key importance, the years between 1921-1941 have, until now, remained relatively neglected. Recently, however, there has been a marked revival of interest in the history of these two decades and this collection brings together some of the best of this recent new scholarship. Illustrating the diversity and complexity of interpretations to which contemporary scholarship has given rise, the collection looks at both the high politics of the new state and at 'history from below', examining some of the fierce controversies which have arisen surrounding such issues as the gender politics of the new regime, the nature of its nationalism, and its treatment of minorities.

Lessons from a Third Grade Dropout
Rick Rigsby 2019-02-05 A USA TODAY and Wall Street Journal bestseller! Learn how to live a life of character and integrity-by following the simple advice of a third grade dropout. Be inspired by the book behind Dr. Rick Rigsby's viral graduation speech. After his wife died, Rick Rigsby was ready to give up. The bare minimum was good enough. Rigsby was content to go through the motions, living out his life as a shell of himself. But then he remembered the lessons his father taught him years before-

incredibly simple, yet incredibly profound. These lessons weren't about advanced mathematics or the secrets of the stock market. They were quite straightforward, in fact, as Rigsby's father never made it through third grade. But if this man's instructions were powerful enough to inspire one of his children to earn a Ph.D. and another to become a judge—imagine what they can do for you. While Rick Rigsby's father was a third-grade dropout, he was a man who never hid behind any excuse. A man who never allowed his problems or lack of a formal education to determine his present or affect his future. A man who realized that destiny was a choice and not a chance. In *Lessons from a Third Grade Dropout*, Rigsby shares the simple lessons from his father that will transform your mindset, including: Remain true to yourself Think the best at all times Give your best regardless of the circumstances Keep standing no matter what Join Rigsby as he dusts off time-tested beliefs and shares his father's impactful, far-reaching story—of how a life can be enhanced, of how a corporate culture can be changed, of how a family can be united—by living the simple lessons of a third-grade dropout.

Small Groups and Political Rituals in China Martin King Whyte 1983-04-18
Dude, You're a Fag C. J. Pascoe 2011-11-01 High school and the difficult terrain of sexuality and gender identity are brilliantly explored in this smart, incisive ethnography. Based on eighteen months of fieldwork in a racially diverse working-class high school, *Dude, You're a Fag* sheds new light on masculinity both as a field of meaning and as a set of social practices. C. J. Pascoe's unorthodox approach analyzes masculinity as not only a gendered process but also a sexual one. She demonstrates how the "specter of the fag" becomes a disciplinary mechanism for regulating heterosexual as well as homosexual boys and how the "fag discourse" is as much tied to gender as it is to sexuality.

Certain Trumpets Garry Wills 2013-05-28 This "beautifully written and reasoned" (Booklist) narrative by Pulitzer Prize-winning author Garry Wills examines what constitutes meaningful leadership, and why it is so essential to society. What makes a leader? How do we identify effective leadership, and how should—and shouldn't—that power be used? In *Certain Trumpets*, Garry Wills presents portraits of eminent leaders including FDR to Ross Perot, King David, Martha Graham, and many others, offering an illuminating lens

for studying society and ourselves. Dividing these portraits into sixteen leadership categories ranging from military to charismatic, intellectual, rhetorical, and elected, Wills highlights what makes each of his subjects unique, crafting along the way a distinct and incisive definition of leadership as a reciprocal engagement between two contrasting wills that serves to mobilize us toward a common good, and explaining why leadership is so often a contentious and emotionally charged subject. "A stunningly literate and thoughtful examination of what makes a leader...[and] a welcome antidote to some of the more egregious 'management style' drivel," (Kirkus Reviews), *Certain Trumpets* is an inspiring and edifying tour through the history of an indispensable social art.

You Are Not Special David McCullough, Jr. 2014-04-22 A profound expansion of David McCullough, Jr.'s popular commencement speech—a call to arms against a prevailing, narrow, conception of success viewed by millions on YouTube—*You Are (Not) Special* is a love letter to students and parents as well as a guide to a truly fulfilling, happy life "Every once in a long while, a voice seems to come out of nowhere, and you wonder how you ever managed without [it]. David McCullough, Jr. has that startling, insightful, wry, reassuring, helpful voice and *You Are Not Special* may be the wisest ?'parenting' book I've read in decades."—Madeline Levine, author of *The Price of Privilege* and *Teach Your Children Well* Children today, says David McCullough—high school English teacher, father of four, and son and namesake of the famous historian—are being encouraged to sacrifice passionate engagement with life for specious notions of success. The intense pressure to excel discourages kids from taking chances, failing, and learning empathy and self-confidence from those failures. In *You Are (Not) Special*, McCullough elaborates on his now-famous speech exploring how, for what purpose, and for whose sake, we're raising our kids. With wry, affectionate humor, McCullough takes on hovering parents, ineffectual schools, professional college prep, electronic distractions, club sports, and generally the manifestations, and the applications and consequences of privilege. By acknowledging that the world is indifferent to them, McCullough takes pressure off of students to be extraordinary achievers and instead exhorts them to roll up their sleeves and do something useful with their advantages.

If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves—and the world—for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments.
