Digital Information Processing and Communications Václav Snásel 2011-06-30 This two-volume-set (CCIS 188 and CCIS 189) constitutes the refereed proceedings of the International Conference on Digital Information Processing and Communications, ICDIPC 2011, held in Ostrava, Czech Republic, in July 2011. The 91 revised full papers of both volumes

presented together with 4 invited talks were carefully reviewed and selected from 235 submissions. The papers are organized in topical sections on network security; Web applications; data mining; neural networks; distributed and parallel processing; biometrics technologies; e-learning; information ethics; image processing; information and data management; software engineering; data compression; networks; computer security; hardware and systems; multimedia; ad hoc network; artificial intelligence; signal processing; cloud computing; forensics; security; software and systems; mobile networking; and some miscellaneous topics in digital information and communications.

Applications of Computing and Communication

Technologies Ganesh Chandra Deka 2018-08-29 This book (CCIS 899) constitutes the refereed proceedings of the First International Conference on Applications of Computing and Communication Technologies, ICACCT 2018, held in Delhi, India, in March 2018. The 30 full papers were carefully reviewed and selected from 109 submissions. The papers are organized in topical sections on communication and system technologies, computing and network technologies, application and services.

Essential SQA Exam Practice: National 5 Computing Science Questions and Papers Lesley Russell 2021-08-20 Exam board: SQA Level: National 5 Subject: Computing Science First teaching: August 2017 First exam: Summer 2018 Practice makes permanent. Feel confident and prepared for the SQA National 5 Computing Science exam with this two-in-one book, containing practice questions for every topic, plus two full practice papers - all written by an experienced examiner. B" Choose which topics you want to revise: B" Remember more in your exam: B" Familiarise yourself with the exam paper: B" Find out how to achieve a better grade: Fully up to date with SQA's requirements The questions, mark schemes and guidance in this practice book match the requirements of the revised SQA National 5 Computing Science specification for examination from 2018 onwards.

Rewired Carl D. Marci 2022-01-01 Living in an age of digital distraction has wreaked havoc on our brains--but there's much we can do to restore our tech-life balance. We live in a world that is always on, where everyone is always connected. But we feel increasingly disconnected. Why? The answer lies in our brains. Carl D. Marci, MD, a leading expert on social and consumer neuroscience, reviews the mounting evidence that overuse of smart phones and social media is rewiring our brains, resulting in a losing deal: we are neglecting the relationships that sustain us and keep us healthy in favor of weaker and more ephemeral ties. The ability to connect and form strong social bonds is fundamental to human experience and emerged through unique structures in our brains. But ever-more-powerful technologies

and ubiquitous access to media have hijacked our need to connect intimately and emotionally with others. The quick highs of clicking "like" and swiping right overstimulate the same neurological reward centers associated with social relationships. The habits that accompany our digital lifestyles are putting tremendous pressure on critical components of the brain associated with attention, emotion, and memory, changing how we process information and altering how we communicate and relate, even at a physiological level. As a psychiatrist working at the forefront of research on the impact of digital technology, Marci has seen this transformation up close and developed a range of responses. *Rewired* provides scientifically supported solutions for everyone who wants to restore their tech-life balance--from parents concerned about their children's exposure to the internet to stressed workers dealing with the deluge of emails and managing the expectation of 24/7 availability.

Geological Survey Professional Paper 1949

Scientific Examination of Questioned Documents Michael S. Bisesi 2006-04-27 Considered the forensic document examiner's bible, *Scientific Examination of Questioned Documents* is an authoritative and comprehensive reference that focuses on the pertinent advancements made within the field. This newest edition presents the qualifications necessary for a well-trained examiner and details the most up-to-date methodologies used in Computational Nondestructive Evaluation Handbook Sourav Banerjee 2020-06-01 Introducing computational wave propagation methods developed over 40 years of research, this comprehensive book offers a computational approach to NDE of isotropic, anisotropic, and functionally graded materials. It discusses recent methods to enable enhanced computational efficiency for anisotropic materials. It offers an overview of the need for and uses of NDE simulation. The content provides a basic understanding of ultrasonic wave propagation through continuum mechanics and detailed discussions on the

mathematical techniques of six computational methods to simulate NDE experiments. In this book, the pros and cons of each individual method are discussed and guidelines for selecting specific simulation methods for specific NDE scenarios are offered. Covers ultrasonic CNDE fundamentals to provide understanding of NDE simulation methods Offers a catalog of effective CNDE methods to evaluate and compare Provides exercises on real-life NDE problems with mathematical steps Discusses CNDE for common material types, including isotropic, anisotropic, and functionally graded materials Presents readers with practical knowledge on ultrasonic CNDE methods This work is an invaluable resource for researchers, advanced students, and industry professionals across materials, mechanical, civil, and aerospace engineering, and anyone seeking to enhance their understanding of computational approaches for advanced material evaluation methods.

Proceedings of the Fourth International Conference on Signal and Image Processing 2012 (ICSIP 2012) Mohan S 2013-01-11 The proceedings includes cutting-edge research articles from the Fourth International Conference on Signal and Image Processing (ICSIP), which is organised by Dr. N.G.P. Institute of Technology, Kalapatti, Coimbatore. The Conference provides academia and industry to discuss and present the latest technological advances and research results in the fields of theoretical, experimental, and application of signal, image and video processing. The book provides latest and most informative content from engineers and scientists in signal, image and video processing from around the

world, which will benefit the future research community to work in a more cohesive and collaborative way.

Recent Advances in Image Restoration with Applications to Real World Problems Chiman Kwan 2020-11-04 In the past few decades, imaging hardware has improved tremendously in terms of resolution, making widespread usage of images in many diverse applications on Earth and planetary missions. However, practical issues associated with image acquisition are still affecting image quality. Some of these issues such as blurring, measurement noise, mosaicing artifacts, low spatial or spectral resolution, etc. can seriously affect the accuracy of the aforementioned applications. This book intends to provide the reader with a glimpse of the latest developments and recent advances in image restoration, which includes image super-resolution, image fusion to enhance spatial, spectral resolution, and temporal resolutions, and the generation of synthetic images using deep learning techniques. Some practical applications are also included.
