Learn to Write esinesrato publishing 2020-07-08 Handwriting is a basic tool used in many subjects -- taking notes, taking tests, and doing classroom work and homework for almost every content area as well as in language arts classes. Handwriting in the earliest grades is linked to basic reading and spelling achievement; for example, when children learn how to form the letter m, they can also be learning its sound. The early years of schooling are especially critical for handwriting instruction; once children have formed counterproductive habits in handwriting, such as poor pencil hold or inefficient letter formation, those habits can be difficult to change. Practice each day is great in helping children develop beautiful handwriting.
