Every topic is covered on a single page, providing a simple pick-up-and-go solution. Perfect for GCSE Maths students everywhere.
*Moon dust*
Andrew Smith 2006-04-04
In 1999, Andrew Smith was interviewing Charlie Duke, astronaut and moon walker, for the Sunday Times. During the course of the interview, which took place at Duke’s Texan home, the telephone rang and Charlie left the room to answer it. When he returned, some twenty minutes later, he seemed visibly upset. It seemed that he’d just heard that, the previous day, one of his fellow moon walkers, the astronaut Pete Conrad, had died. The more Charlie spoke the more Andrew realised that his grief was something more than the mere fact of losing a friend. ‘Now theres only nine of us,’ he said. Only nine. Which meant that, one day not long from now, there would be none, and when that day came, no one on earth would have known the giddy thrill of gazing back at us from the surface of the moon. The thought shocked Andrew, and still does. Moon dust is his attempt to understand why. The Apollo moon programme has been called the last optimistic act of the 20th Century. Over a strange three year period between 1969 and 1972, twelve men made the longest and most eccentric of all journeys, and all were indelibly marked by it. In Moon dust Andrew sets out to interview all the remaining astronauts who walked on the moon, and to find out how their lives were changed for ever by what had happened. ‘Where do you go after you’ve been to the moon?’ In addition to this question that would prove hugely troubling to many of the returned astronauts, they also had to deal with the fantasies of faceless millions at their backs, for this was the first truly global media event. The walkers would forever be caught between the gravitational pull of the moon and the earth’s collective dreaming.

**Making it as a Teacher**
Victoria Hewett 2019-05-10
Teaching is a delightfully rewarding, wonderfully enlightening and diverse career. Yet, at present, teacher recruitment and retention are in crisis, with some of the most at risk of leaving the profession being those in their early years of teaching. Making it as a Teacher offers a variety of tips, anecdotes, real-life examples and practical advice to help new teachers survive and thrive through the first 5 years of teaching, from the first-hand experiences of a teacher and middle leader. Divided into thematic sections, Making It, Surviving and Thriving, the book explores the issues and challenges teachers may face, including: Lesson planning, marking and feedback Behaviour and classroom management Working-life balance Progression, CPD and networking With the voices of teaching professionals woven throughout, this is essential reading for new teachers, those undertaking initial teacher training, QJ mentors and other teaching staff that support new teachers in the early stages of their career.

**Edexcel A level Economics A Book 2**
Peter Smith 2015-07-31
Exam Board: Edexcel Level: AS/A-level Subject: Economics First Teaching: September 2015 First Exam: June 2017
Develop your students’ knowledge of themes 3 and 4 of the Edexcel specification and put theory into context with focused case studies and practice activities. Maximise their potential in Edexcel A level Economics A with this Edexcel-endorsed textbook, which includes topic-by-topic guidance from Peter Smith: - Keep your students’ up to date with the rapidly changing world: new exciting case studies will help them analyse and evaluate - Build their quantitative skills with worked examples and practice activities throughout the book - Ensure they can explain key economic concepts and issues accurately and effectively: learn the key terms throughout the text and in the theme-by-theme glossaries - Feel confident in their exam skills: put what they learn into practice with activities and practice questions

**WJEC GCSE Chemistry**
Adrian Schmit 2016-11-14
Exam Board: WJEC Level: GCSE Subject: Chemistry First Teaching: September 2016 First Exam: June 2018
Welsh edition. Expand and challenge your students’ knowledge and understanding of Chemistry with this textbook that guides students through each topic within the new curriculum; produced by a trusted author team and the established WJEC GCSE Science publisher. - Test understanding and reinforce learning with differentiated Test Yourself questions, Discussion points, exam-style questions and useful chapter summaries. - Provide support for all required practicals along with extra tasks for broader learning. - Support the mathematical and Working scientifically requirements of the new specification with opportunities to develop these skills throughout. - Supports the separate sciene Chemisrty and is also suitable to support the WJEC GCSE Science (Double Award) qualification.

**Edexcel GCSE (9-1) History Weimar and Nazi Germany, 1918-1939 Student Book**
John Child 2016-09-16
Supporting great history teaching: developing confident, articulate and successful historians. Our new resources\* include 16 Student Books - one for every option in the Edexcel GCSE (9-1) History specification - for first teaching from September 2016.

**Edexcel GCSE (9-1) Mathematics**
Pearson Education, Limited 2015-06-01
Our Practice, Problem Solving and Reasoning Books provide students with questions relating to every exercise in the main lessons of the Student Book to give twice the practice.

**Perfect ICT Every Lesson**
Mark Anderson 2013-09-30
Technology is at the heart of learning for all of us and every teacher needs to be using social media, mobile technologies and transformational digital learning opportunities as an integral part of their range of strategies for helping students make the maximum progress. In this book in the ‘Perfect’ series, Mark Anderson, the ICT Evangelist, takes the technology-relatedelements of all the recent subject reports from Ofsted and using them offers clear and practical strategies that are proven to be successful in classrooms and offers up ideas for how they can be turned into a daily reality for all teachers.

**GCSE Geography Edexcel B**
2020-07-16
A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

**Edexcel GCSE (9-1) Combined Science Student Book**
Mark Levesley 2016
Series Editor: Mark Levesley
Pearson’s resources are designed to be simple, inclusive and inspiring and to support students in studying for Edexcel GCSE (9-1) Combined Science.

**DNA**
Dennis Kelly 2021-05-20
Dennis Kelly’s play DNA centres on friendship, morality and responsibility in odd circumstances. When a group of young friends are faced with a terrible accident, they deliberately make the wrong choices to cover it up and find themselves in an unusually binding friendship where no one will own up to what they’ve done. The play began life as a National Theatre Connections commission in 2008 and has subsequently been produced, studied and toured around the world. DNA is published for the first time in the Methuen Drama Student Edition series with commentary and notes by Clare Finburgh Delijani, which look at the play’s context, themes, dramatic form, staging possibilities and production history, plus offers suggestions for further reading.

**Edexcel GCSE History (9-1): Weimar and Nazi Germany 1918-39 Student Book**
Aaron Wilkes 2022-04-25

*The Story of English in 100 Words*
David Crystal 2012-03-27
The world’s foremost expert on the English language takes us on an entertaining and eye-opening tour of the history of our vernacular through the ages. In *The Story of English in 100 Words*, an entertaining history of the world’s most ubiquitous language, David Crystal draws on one hundred words that best illustrate the huge variety of sources, influences and events that have helped to shape our vernacular since the first definitively English word—‘roe’—was written down on the femur of a roe deer in the fifth century. Featuring ancient words (‘loaf’, cutting edge terms that reflect our world (‘tweetersphere’), indispensable words that shape our tongue (‘and’, ‘what’), fanciful words (‘fopdoodle’) and even obscene expressions (the ‘c word’...), David Crystal takes readers on a tour of the winding byways of our language via the rude, the obscure and the downright surprising.

**Student book**
Ann Fullick 2008-01-01
Edexcel’s own resources for the GCE 2008 specifications. A single-user licence of the ActiveBook is provided in the back of the student’s book, along with key vocabulary linked to an audio glossary, plus the facility to zoom into specific sections of the text and images.

*Oxford Revise: AQA GCSE Physics Revision and Exam Practice*
Helen Reynolds 2020-10-08
Based on principles of cognitive science, this three-step approach to effective revision combines knowledge, retrieval and interleaving, and extensive exam-style practice to help students master knowledge and skills for GCSE success. UK schools save 50% off the RRP! Discount will be automatically applied when you order on your school account.

**The Language of Measurement**
Association for Science Education 2010
The aim of this booklet is to enable teachers, publishers, awarding bodies and others to achieve a common understanding of important terms that arise from practical work in secondary science, consistent with the terminology used by professional scientists. This vocabulary underpins all empirical science and so is applicable not only to school science experiments but also to evaluating aspects of scientific claims made in the public domain.

**Wild Animals in Captivity**
Abraham Dee Bartlett 1898

**The Large Hadron Collider**
Lyndon R. Evans 2009
Describes the technology and engineering of the Large Hadron collider (LHC), one of the greatest scientific marvels of this young 21st century. This book traces the feat of its construction, written by the head scientists involved, placed into the context of the scientific goals and principles.

**Pheromones and Animal Behavior**
Tristram D. Wyatt 2014-01-23
This book explains how animals use chemical communication, emphasising the evolutionary context and covering fields from ecology to neuroscience and chemistry.

**Edexcel IGCSE Science**
Cliff Curtis 2011-05-01
This is a complete guide to using the Edexcel IGCSE biology, chemistry and physics student books to teach or study science double award, so you can be sure you and your students know where to access all the material you need.

**Quantum Theory Cannot Hurt You**
Marcus Chown 2008-09
The two towering achievements of modern physics are quantum theory and Einstein’s general theory of relativity. Together, they explain virtually everything about the world we live in. But, almost a century after their advent, most people haven’t the slightest clue what either is about. Did you know that there’s so much empty space inside matter that the entire human race could be

squeezed into the volume of a sugar cube? Or that you grow old more quickly on the top floor of a building than on the ground floor? And did you realize that 1% of the static on a TV tuned between stations is the relic of the Big Bang? Marcus Chown, the bestselling author of What A Wonderful World and the Solar System app, explains all with characteristic wit, colour and clarity, from the Big Bang and Einstein’s general theory of relativity to probability, gravity and quantum theory. ‘Chown discusses special and general relativity, probability waves, quantum entanglement, gravity and the Big Bang, with humour and beautiful clarity, always searching for the most vivid imagery.’ Steven Poole, Guardian

**New GCSE English Language AQA Workbook - For the Grade 9-1 Course (Includes Answers)**
CGP Books 2015-08-10

**City of the Beasts**
Isabel Allende 2021-01-05
A search for the Beast, a Yeti-like creature within the heart of the Amazon, becomes a quest for self-discovery in this young adult coming-of-age story filled with international adventure, rich mythology, and magical realism from globally celebrated novelist Isabel Allende. Fifteen-year-old Alexander Cold has the chance to take the trip of a lifetime. Parting from his family and ill mother, Alexander joins his fearless grandmother, a magazine reporter for International Geographic, on an expedition to the dangerous, remote world of the Amazon. Their mission, along with the others on their team—including a celebrated anthropologist, a local guide and his young daughter Nadia, and a doctor—is to document the legendary Yeti of the Amazon known as the Beast. Under the dense canopy of the jungle, Alexander is amazed to discover much more than he could have imagined about the hidden worlds of the rain forest. Drawing on the strength of the jaguar, the totemic animal Alexander finds within himself, and the eagle, Nadia’s spirit guide, both young people are led by the invisible People of the Mist on a thrilling and unforgettable journey to the ultimate discovery.

**BTEC First Media Student Book**
Paul Baylis 2007
Provides students with the information and advice they need to succeed in BTEC First Media.

**Germany, 1858-1990**
Alison Kitson 2001
Specially written for the AS/A2 examinations, this book combines extended period cover with detailed focus on exam board-selected topics. The lively, accessible text is supplemented by Spotlights, providing detailed study of sources on key issues and topics, and Document Exercises, which offer opportunities for assessment and exam practice. Covering almost 150 years between unification and reunification, with a particular emphasis on the interwar years, the text encourages students to think for themselves around the issues that have affected German history during this period and to consider important historical debates and controversies.

**75 Long Answer Questions in GCSE Science**
Primrose Kitten 2018-03-11
Answering six mark questions in your GCSE is much more than just writing down six correct things. There is a skill to answering them that needs to be practiced. Here I have written 25 questions on each subject, given you the answers and guided you through how to answer to get full marks. The more you practice, the more confident you’ll be in the exam!
Example Question58 - Renewable and Non-Renewable Energy
SourceIn June 2017, for the first time, over 50% of energy in the UK was supplied by renewable energy. The UK government is leading a drive to promote the increased use of renewable energy sources for generating electricity. Evaluate the use of renewable and non-renewable energy sources.Planning,... \* Evaluate give good points, bad points your option and justify your opinion\* You can use a table for planning\* What are the good points (aim for at least 2)?\* What are the bad points (aim for at least 2)?\* What is your opinion?\* Explain why you have that opinion\* Don’t stress too much about your opinion, the examiner is never going to cross-examine you on this, just make one up
Table of Contents\* Exam command words \* Glossary of exam command words \* How to answer 6-mark questions \* How the examiners will mark your work \* Biology \* 1 - Drugs \* 2 - Respiration \* 3 - Genetic Engineering \* 4 - Plant Growth \* 5 - Digestive System \* 6 - Reflex Arcs \* 7 - Leaves \* 8 - Pathogens \* 9 - Genetic Testing \* 10 - Contraception \* 11 - IVF \* 12 - Defence Against Pathogens \* 13 - Drugs in Sport \* 14 - Cloning \* 15 - Stem Cells \* 16 - Menstrual Cycle \* 17 - IVF \* 18 - Cells \* 19 - Enzymes \* 20 - Homeostasis \* 21 - Blood \* 22 - Genetic Disorders \* 23 - Enzymes \* 24 - Hormonal Contraception. \* 25 - Plants \* Chemistry \* 26 - Covalent bonding \* 27 - Rates of Reaction (concentration) \* 28 - Atoms and Ions \* 29 - Magnesium Chloride \* 30 - Reactivity series \* 31 - Extracting Copper \* 32 - Rates of Reaction (Temperature) \* 33 - Water \* 34 - Properties of mystery white powders \* 35 - Fractional Distillation \* 36 - Diamond and Graphite \* 37 - Le Chatelier’s Principle \* 38 - Evolution of Atmosphere \* 39 - Life Cycle Assessment \* 40 - Metals \* 41 - Carbon in the Atmosphere \* 42 - Reactivity in Group 1 and Group 7 \* 43 - States of Matter \* 44 - Rate of Reaction (surface area) \* 45 - The Periodic Table \* 46 - Models of the Atom \* 47 - Group 1 \* 48 - Group 7 \* 49 - Aluminium Electrolysis \* 50 - Acids and Alkalis \* Physics \* 51 - Generators \* 52 - Radioactivity \* 53 - Journeys \* 54 - Thermistors \* 55 - Nuclear Power \* 56 - Isotopes \* 57 - Forces \* 58 - Renewable and Non-Renewable Energy Sources \* 59 - AC/DC \* 60 - Surfaces \* 61 - Car Safety \* 62 - Climate Change \* 63 - Heating \* 64 - National Grid \* 65 -Energy Changes \* 66 - Diodes \* 67 - Circuits \* 68 - Waves \* 69 - Electromagnetic Spectrum \* 70 - Loudspeakers \* 71 - Waves \* 72 - Newton’s Laws of Motion \* 73 - Atmosphere \* 74 - Weight and Mass \* 75 -Electrical Safety \* Answers

**Economics in Practice: Evidence-Based Policymaking in Singapore**
Ming Leong Kuan 2022-02-14
Introduction: Economics for Evidence-Based Policymaking; Section I: Economic Policies: Singapore Exceptionalism: The Importance of Growth in a Small Open Economy; Tapping on Growth Opportunities Through Trade and Investment; Towards a Productivity-Driven and Innovation-Led Singapore Economy; Industrial Development in Singapore; Singapore’s Enterprise Landscape; Empowered Individuals, Inclusive Workforce, and Secure Retirement; Section II: Socioeconomic and Security Policies: Income Inequality and Mobility in Singapore; Nurturing Strong Families in Singapore; Managing Healthcare Costs; The Economics of Sanction Regimes and Criminal Decision-Making; Section III: Infrastructural Policies: Using Economics to Analyse Environmental Issues; Managing the Housing Market in Singapore; The Economic Forces that Shape Land Transport; Conclusion: The Way Ahead

*The Large Hadron Collider*
Lyndon Evans 2018

**E-business and E-commerce Management**
Dave Chaffey 2007
Aimed at students, this work covers various aspects of e-business - focusing on sales and marketing, as well as detailing procurement, supply chains, and the legal and security considerations. It contains a range of features to help you learn effectively including margin definitions, international case studies, activities and web links.

*Edexcel IGCSE Physics*
Brian Arnold 2009
"Written specifically for Edexcel’s new IGCSE Physics (from 2009) qualification in a clear and engaging style that students will find easy to understand. This book includes a wide range of activities and exercises for self-study, as well as examination style questions and summaries to aid revision."--Publisher’s description.

**Advanced Automotive Fault Diagnosis**
Tom Denton 2006-08-14
Diagnostics, or fault finding, is a fundamental part of an automotive technician’s work, and as automotive systems become increasingly complex there is a greater need for good diagnostic skills. Advanced Automotive Fault Diagnosis is the only book to treat automotive diagnostics as a science rather than a check-list procedure. Each chapter includes basic principles and examples of a vehicle system followed by the appropriate diagnostic techniques, complete with useful diagrams, flow charts, case studies and self-assessment questions. The book will help new students develop diagnostic skills and help experienced technicians improve even further. This new edition is fully updated to the latest technological developments. Two new chapters have been added - On-board diagnostics and Oscilloscope diagnostics - and the coverage has been matched to the latest curricula of motor vehicle qualifications, including: IMI and C&G Technical Certificates and NVQs; Level 4 diagnostic units; BTEC National and Higher National qualifications from Edexcel; International Motor Vehicle qualifications such as C&G 3905; and ASE certification in the USA.

**AQA GCSE Physics Teacher Handbook (Third Edition)**
Darren Forbes 2016-03-04
Specially tailored for the new 2016 AQA GCSE Science (9-1) specifications, this third edition supports your students on their journey from Key Stage 3 and through to success in the new linear GCSE qualifications. This series help students and teachers monitor progress, while supporting the increased demand, maths, and new practical requirements.

**Cryptography and Network Security**
William Stallings 2016-02-18
This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. The Principles and Practice of Cryptography and Network Security Stallings’ Cryptography and Network Security, Seventh Edition, introduces the reader to the compelling and evolving field of cryptography and network security. In an age of viruses and hackers, electronic eavesdropping, and electronic fraud on a global scale, security is paramount. The purpose of this book is to provide a practical survey of both the principles and practice of cryptography and network security. In the first part of the book, the basic issues to be addressed by a network security capability are explored by providing a tutorial and survey of cryptography and network security technology. The latter part of the book deals with the practice of network security: practical applications that have been implemented and are in use to provide network security. The Seventh Edition streamlines subject matter with new and updated material — including Sage, one of the most important features of the book. Sage is an open-source, multiplatform, freeware package that implements a very powerful, flexible, and easily learned mathematics and computer algebra system. It provides hands-on experience with cryptographic algorithms and supporting homework assignments. With Sage, the reader learns a powerful tool that can be used for virtually any mathematical application. The book also provides an unparalleled degree of support for the reader to ensure a successful learning experience.

**Edexcel AS and a Level Modular Mathematics Core Mathematics 1 C1**
Greg Attwood 2008-04
"This book helps in raising and sustaining motivation for better grades. These books are the best possible match to the specification, motivating readers by making maths easier to learn. They include complete past exam papers and student-friendly worked solutions which build up to practice questions, for all round exam preparation. These books also feature real-life applications of maths through the ‘Life-links’ and ‘Why ...?’ pages to show readers how this maths relates, presenting opportunities to stretch and challenge more apply students. Each book includes a Live Text CDROM which features: fully worked solutions examined step-by-step, animations for key learning points, and revision support through the Exam Cafe."--Publisher’s description
**AQA GCSE English Language: AQA GCSE English Language Student Book 1**
Helen Backhouse 2015-01-01
This book develops the reading and writing skills that students will be assessed on in the exams. Using a thematic approach that focuses on the AOs, with SPAG delivered in context, this book supports students of all abilities. Peer and self-assessment activities, end-of-chapter assessments and sample exam papers allow progress to be monitored.

**How Language Works**
David Crystal 2007-03-29
In this fascinating survey of everything from how sounds become speech to how names work, David Crystal answers every question you might ever have had about the nuts and bolts of language in his usual highly illuminating way. Along the way we find out about eyebrow flashes, whistling languages, how parents teach their children to speak, how politeness travels across languages and how the way we talk show not just how old we are but where we’re from and even who we want to be.

**From Stars to Stalagmites**
Paul S. Braterman 2012
Explains the essence of chemistry to the layman while exploring such topics as the noble gases, wave-particle duality, and bonds.
