Lessons Learned: A life in education Brian Lightman 2018-05-17 Drawing on 38 years of experience, Brian Lightman's perceptive and thoughtful book is a reflective account of his career, looking at the development of the education system both from his perspective as a teacher and school leader and, more recently, as one involved in national policy. Major themes include the disruptive impact of the electoral cycle that has consistently led to a failure for developments to be properly embedded, and a visceral criticism of what the author sees as a highly polarised and divided education service in the Michael Gove era. The final section makes the case for a radical change to the culture that pervades our education service.

Reaching the Unseen Children Jean Gross 2021-11-16 *Reaching the Unseen Children* provides a powerful and accessible resource for schools working to raise the attainment of all disadvantaged pupils, with particular emphasis on white children from low-income backgrounds. This group – especially boys – consistently on average underperform in the education system, and the effects of COVID-19 will only have widened the gap. Drawing on her long experience of working with disadvantaged and left-behind communities, Jean Gross describes the path that many children take, from early language delays to persistent literacy and numeracy difficulties, which lead to progressive disengagement from learning. She argues that progress will only be made through early intervention and building pupils' sense of capability, and sets out low-cost, low-effort ways in which teachers can transform outcomes for their students – through the everyday language they use, the expectations they convey, and the relationships they build with pupils and their parents. Providing practical, evidence-based strategies and case studies of schools with outstanding practice, this an essential guide for anyone working in education who is seeking equity for all their pupils.

Shakespeare on Toast Ben Crystal 2015-12-24 Actor, producer and director Ben Crystal revisits his acclaimed book on Shakespeare for the 400th anniversary of his death, updating and adding three new chapters. *Shakespeare on Toast* knocks the stuffing from the staid old myth of the Bard, revealing the man and his plays for what they really are: modern, thrilling, uplifting drama. The bright words and colourful characters of the greatest hack writer are brought brilliantly to life, sweeping cobwebs from the Bard – his language, his life, his world, his sounds, his craft. Crystal reveals man and work as relevant, accessible and alive – and, astonishingly, finds Shakespeare's own voice amid the poetry. Whether you're studying Shakespeare for the first time or you've never set foot near one of his plays but have always wanted to, this book smashes down the walls that have been built up around this untouchable literary figure. Told in five fascinating Acts, this is quick, easy and good for you. Just like beans on toast.

The Lost Girls: Why a feminist revolution in education benefits everyone Charlotte Woolley 2020-03-20 Life for girls is a battle of contrasting expectations, being told you should be 'empowered' but also be a 'good girl', putting others first but still striving for perfection yourself. This conflict, internalizing expectations of an impossible standard, has led to an explosion in mental-health and anxiety-

related disorders in young women. The traditional narrative of education feeds the perception that girls are good. They achieve, work hard, are co-operative. They achieve better grades. But where do these high achievers disappear to? They aren't becoming CEOs, politicians or social leaders. Women are still disproportionately the family carers and domestic managers. This book explores: * research around biological difference, and how our schools encode gendered expectations. * how our curricula can provide role-models as well as modes of thinking, valuing traditionally feminine traits as equal to masculine * using psychological approaches to develop girls' independence. * how school systems and leadership can model approaches to encourage all students to create a gender-balanced environment. With practical questions and suggestions at the end of each chapter, this book is a guide to the research and a tool to help teachers and leaders shape a genuinely empowering school experience for young women.

A Curious Curriculum Mick Waters 2022-10-31 Foreword by Mary Myatt. All children deserve an engaging, exciting curriculum designed to spark their curiosity, feed their imagination and develop their skills and knowledge. So how can school leaders ensure this is what they receive? We know that the balance of knowledge, skills and understanding in any curriculum is vital to its success; however, depth of learning and excellence within a curriculum is often left to chance or to individual teacher expertise. This book will support executive leaders, head teachers, Curriculum Coordinators and subject leaders on the journey towards school improvement by helping them to design a curriculum that not only encourages children to be active participants in their own learning, but also to see the benefits of being part of a bigger, wider family of learners. Claire Banks and Mick Waters share the story of one multi-academy trust (MAT) which designed and delivered a shared educational vision, a rationale for excellence in the curriculum, and the resources and support given to help reduce teachers' workload. With clear timelines, an honest and transparent dialogue about the challenges and benefits of working together collaboratively, and the importance of external expertise, *A Curious Curriculum* is an essential read for all school leaders. Suitable for middle and senior leaders in primary school settings.
