Errors and Disfluencies in Spoken Corpora Gaëtanelle Gilquin 2013-05-29 The papers brought together in this volume illustrate how spoken corpora (be they native or learner corpora) can provide insights into various aspects of errors and disfluencies such as pauses and discourse markers. They show, among others, that such phenomena can be influenced by factors like gender, age or genre, and that they can correlate with, e.g., informativeness and syntactic complexity. Crucially, they also demonstrate that items which are often dismissed as mere disfluencies can fulfil important functions and thus play an essential role in the management of spoken discourse. The book should appeal to linguists who are interested in spoken language in general and in errors and disfluencies in speech in particular, as well as to specialists in second language acquisition and language testing who want to know more about the nature of fluency and accuracy. A Secondhand Lie Pamela Crane 2018-04-01 Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot--my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a

cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington--deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni's *Third Watch* and Dean Koontz's *The Neighbor*. Read as a standalone or as the companion book to *A Secondhand Life*.

Radar Instruction Manual United States. Maritime Administration 2005 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested

Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. The Leopard's Tale Jonathan Scott 2013 Almost everyone on safari hopes for a glimpse of the charismatic and elusive leopard. Chui was the first of a new generation of leopards Jonathan Scott watched and photographed in Kenya's Masai Mara Game Reserve in the 1970s and 1980s. He spent every available moment watching and photographing Chui and her cubs, Light and Dark, aware that he was only privileged to do so for as long as they chose to remain visible. His classic account tells the story of the mother leopard as a solitary hunter providing for herself and her offspring. He records encounters with baboon, hyaena and man, hazards facing the cubs as they learn to fend for themselves and periods of play and relaxation. Some years after Chui disappeared, a young female appeared, Half-Tail. Jonathan and Angela have followed her and her daughter Zawadi, stars of the BBC's Big Cat Diary, for the past twenty years, bringing the story up to date. Nobody has studied leopards more closely or known them more intimately Jonathan says: 'The update is based on our work with Half-Tail and Zawadi from both the pictures and text perspective - Angie worked with us on Big Cat Diary as the stills photographer from 1996 and before that we both worked with Half-Tail from the time she first appeared around Leopard Gorge and Fig Tree Ridge - our kids grew up on safari with Half-Tail and Zawadi as stars of their own Mara adventures.'

Among them are primates coping with habitat loss, big cats in a losing battle with human settlements, elephants hunted for their ivory, and numerous bird species taken as pets. Transfontanellar Doppler Imaging in Neonates A. Couture 2012-12-06 This book examines in detail the role of transfontanellar pulsed and color Doppler imaging in the fetus and neonate. After an introductory chapter its use in the normal neonate is considered. Results of the hemodynamic evaluation of 491 newborns aged from 32 weeks of gestation to 9 months by means of pulsed and color Doppler are reported. Normal values of the resistive index as determined by this technique are documented, and systolic, diastolic, and mean velocities in seven different vessels are presented. It is concluded that Doppler ultrasonography enables reliable analysis of arterial and venous velocities. Subsequent chapters examine the use of transfontanellar Doppler imaging in a variety of commonly encountered pathological conditions.

Disciple IV Abingdon Press 2005-05 *DISCIPLE IV UNDER THE TREE OF LIFE* is the final study in the four-phase *DISCIPLE* program and is prepared for those who have completed *BECOMING DISCIPLES THROUGH BIBLE STUDY*. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for *DISCIPLE IV: UNDER THE TREE OF LIFE*. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week

(40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.
