Conducting Action Research to Evaluate Your School Library Judith Anne Sykes 2013-05 How should teacher librarians or instructional leaders engage in action research to improve their school library and benefit students' learning? This book provides the answers. Teacher librarians need to get directly involved with the research process in the learning commons in order to create actions and strategies that will enhance student learning—and benefit their own professional development as well as demonstrate accountability through their action research efforts. This book provides practical tips and work spaces for educators at the local, state, and national levels, clearly modeling and explaining the process and the tools for conducting action research in a school library setting that will identify the program's strengths and weaknesses. The author coalesces current expert opinions on the topic of action research in the school library environment and highlighting what other teacher librarians in the field have identified as the pros and cons of using the process. Readers are directed to focus on mitigating the "cons" through the use of specific working pages and templates and by initially exploring "five favorite" links, thereby encouraging those who are new to action research to try what might otherwise seem a daunting process. School principals K-12 who read this book will be better equipped to support their teacher librarians and teachers in this important professional process. Supplies invaluable insights from experts and practitioners on the subject of action research Provides a clear model of the process in action Directs readers to additional resources that facilitate effective action research and timely topics for school library research, such as time management and technology in learning

The Library Screen Scene Renee Hobbs 2019-06-07 In the past two decades, several U.S. states have explored ways

to mainstream media literacy in school curriculum. However one of the best and most accessible places to learn this necessary skill has not been the traditional classroom but rather the library. In an increasing number of school, public, and academic libraries, shared media experiences such as film screening, learning to computer animate, and video editing promote community and a sense of civic engagement. The Library Screen Scene reveals five core practices used by librarians who work with film and media: viewing, creating, learning, collecting, and connecting. With examples from more than 170 libraries throughout the United States, the book shows how film and media literacy education programs, library services, and media collections teach patrons to critically analyze moving image media, uniting generations, cultures, and communities in the process.

CILIP Guidelines for Secondary School Libraries Sue Shaper 2014-04-30 This fully updated version of the CILIP-endorsed guidelines for secondary school libraries addresses the changing schools landscape and impact of technological changes of recent years. Focusing on the librarian at the heart of the school, each chapter interweaves best practice, technological development and context-specific options to provide clear guidance and support for all involved in the provision of school library services. Amongst other key topics the Guidelines cover: - Providing quality resources - Information literacy - Reader development - Pro-active marketing - Evaluation - Partnerships and the wider community. - Developed with an international audience in mind, these guidelines provide a comprehensive and flexible model for a modern school library service.

Readership: This will be essential reading for all those who work in school library services, whatever their level of qualification. The guidelines will also be of interest to teachers, especially those in management positions, school governors, business people who service school libraries, and students of librarianship.

School Library Collection Development Claire Gatrell Stephens 2012 This practical manual demystifies the process of creating and maintaining a quality school library collection--an invaluable resource for anyone working in a library media center. Today's school librarians have many different responsibilities, but arguably the most important aspect of their job is developing and maintaining a collection that their library customers love. School Library Collection

Development: Just the Basics is an accessible, practical manual that explains the fundamentals of purchasing, developing, and managing a collection. Containing information useful to anyone from a paraprofessional working under the guidance of a certified school librarian to a newcomer to the field to a certified media specialist, this book covers all of the basics through best practices. The authors provide much-needed advice on how to add to an existing collection, how to weed books no longer needed, and how to process and inventory that collection. This book is a must-have resource for staff members who are new to school libraries and need an easy-to-read guide to help them quickly learn the job.

Political Advocacy for School Librarians: Leveraging Your Influence Ann Dutton Ewbank 2019-01-31 School librarians are prepared to be leaders and can use their strengths to advocate for policy that benefits school libraries. This book will teach you how to engage elected officials to effect change that extends to your library. • Realize how to use your strengths as a librarian to influence issues that matters to you, even if you consider yourself apolitical • Discover the "hidden rules" of representative democracy • Learn strategies to leverage your institutional knowledge to advocate for effective school libraries at all levels of government

American Public School Librarianship Wayne A. Wiegand 2021-10-12 The first comprehensive history of American public school librarianship. "Can I get a library pass?" Over the past 120 years, millions of American K-12 public school students have asked that question. Still, we know little about the history of public school libraries, which over the decades were pulled together and managed by hundreds of thousands of school librarians. In *American Public School Librarianship*, Wayne A. Wiegand recounts the unseen history of both school libraries and their librarians. Why, Wiegand asks, did school librarianship turn out the way it did? And what can its history tell us about limitations and opportunities in the coming decades of the twenty-first century? Addressing issues of race, social class, gender, and sexual orientation (among others) as they affected American public school librarianship throughout its history, Wiegand explores how libraries were transformed by the Great Depression, the civil rights era, Lyndon Johnson's Great Society programs, and more recent legislation like No Child Left Behind, Common Core, and the Every Student Succeeds Act. Wiegand touches on censorship, the impact of school segregation on school libraries, disparities in funding that fall along lines of race and class, the development of school librarianship as a profession, the history of organizations like the American Association for School Librarians, and how emerging technologies affected school librarianship. Wiegand clarifies the historical role of the school librarian as an opponent of censorship and defender of intellectual freedom. He also analyzes the politics of a female-dominated school library profession, identifies and evaluates the profession's major players and their battles (often against patriarchy), and challenges the priorities of librarianship's current agendas, particularly regarding the role of "reading" in the everyday lives of children and young adults. Filling a huge void in the history of education, *American Public School Librarianship* provides essential background information to members of the nation's school library and educational communities who are charged with supervising and managing America's 80,000 public school libraries.

Global Action on School Library Education and Training Barbara A. Schultz-Jones 2018-11-19 This book illuminates school librarian and teacher librarian education and training in light of the 2015 IFLA School Library Guidelines, second edition. The Guidelines

provide a framework for effective service delivery to ensure that students and teachers have access to quality library services delivered by qualified librarians and information professionals. The book focuses on moving professional practice forward, translating the Guidelines into actions ensuring effective education and training and improved practice. The book highlights issues and concerns related to school librarian and teacher librarian education and training. What attitudes, skills and knowledge are required to inspire students and support teaching and learning effectively? What curriculum content is required? How are field and practical experiences integrated appropriately into face-to-face and online educational and training programmes? How are leadership skills developed effectively? Case studies and innovative educational and training programmes from around the world illustrate the diverse ways of preparing librarians for the roles identified in the Guidelines. Topics covered include: delivering school librarian credentialled programmes; improving school librarian services; providing professional development; preparing and delivering educational and/or cultural programmes and services; managing human resources; collection development of digital and print resources; innovative aspects of technology use; promotion and advocacy; and evaluation and assessment.

Teaching Civics in the Library Reneé Critcher Lyons 2015-10-20 Civics education is "on the books" in all 50 states, yet civic illiteracy is widespread. Only one third of 12th graders are able to explain the significance of the Declaration of Independence, and fewer than half of 8th graders know the purpose of the Bill of Rights. This instructional guide explores the foundations of civics education--and the reasons for its demise--with commentary from civics education leaders and scholars across the nation. Questions for eliciting civics discussion are provided for all grade levels, along with detailed civic action and service projects and reading plans. Best practices and grant writing options are included. The author argues for a return to early 20th century civics education and details the traditional and present-day role of America's libraries in developing a civic-minded populace. School and public librarians are urged to utilize trade books and carefully evaluated websites to integrate civics within educational and youth services offerings.

Teen Services 101: A Practical Guide for Busy Library Staff Megan P. Fink 2015-02-02 Need to amp up teen services, but you're short on time or not sure where to start? *Teen Services 101: A Practical Guide for Busy Library Staff* provides useful information that will help staff put together a basic teen services program with minimal time and hassle. The author, Megan Fink, along with contributions from Maria Kramer, provides practical tips and instructions on how to build core teen services into the overall library program. Whether you're a new teen services librarian, or staff in a one person library, this how-to guide on teen services can help you effectively serve teen patrons. Let's face it, teens are sometimes overlooked by libraries when it comes to services and programs. However, there are over 42 million teens in the US, which makes them a sizeable and important demographic to serve. Many of today's teens are struggling. More are living in poverty than before and nearly 7,000 teens drop out of high school per day. By setting aside some time to increase your library's focus on teens, you will be providing a vital service and positioning your library as an indispensable part of the community. The resources and information in this book can help you achieve that.

Information Services Today Sandra Hirsh 2015-03-19 This essential overview of what it means to be a library and information professional today provides a broad overview of the transformation of libraries as information organizations, why these organizations are more important today than ever before, the technological influence on how we provide information resources and services in today's digital and global environment, and the various career opportunities available for information professionals. The book begins with a historical overview of libraries and their transformation as information and technology hubs within their communities. It also covers the various specializations within the field emphasizing the exciting yet complex roles and opportunities for information professionals. With that foundation in place, it presents how libraries serve different kinds of communities, highlighting the unique needs of users across all ages and how libraries fulfill those needs through a variety of services, and addresses key issues facing information organizations as they meet user needs in the Digital Age. The book then concludes with career management strategies to guide library and information science professionals in building not only vibrant careers but vibrant information organizations for the future as well.

Intellectual Freedom Issues in School Libraries April M. Dawkins 2020-11-30
This volume of collected articles from the archives of School Library Connection provides school librarians and LIS professors with a one-stop source of information for supporting the core library principle of intellectual freedom. School librarians continue to advocate and champion for student privacy and the right to read and have unfettered access to needed information. Updated and current information concerning these issues is critical to school librarians working daily with students, parents, and faculty to manage library programs, services, and print and digital collections. This volume is an invaluable resource as school librarians revisit collection development, scheduling, access and other policies. Library Science professors will find this updated volume useful for information and discussion with students. Drawing on the archives of School Library Connection, Library Media Connection, and School Library Monthly magazines—and with comprehensive updates throughout—chapters tackle privacy, the right to read, censorship, equal access to information, and other intellectual freedom issues. New laws and legal and ethical opinions continue to appear and help inform the daily response school librarians have to current issues. This volume updates all included articles with current legal thought and opinion. Intellectual freedom expert April Dawkins, PhD and editor, offers practical advice and commentary throughout. Includes up-to-date coverage of a wide range of intellectual freedom topics Looks at current and applicable laws Features important topics for discussion

in LIS classes Immediately usable in schools, and for school district staff development on these important and relevant topics

Teaching Integrated Reading Strategies in the Middle School Library Media Center Kathleen M. Alley 2008
Drawing on the success of the popular elementary level book, *Teaching Reading Strategies in the School Library* (Walker and Shaw, Libraries Unlimited, 2004), this title will provide library media specialists with a resource to help integrate research-based reading strategies into the middle school library curriculum as part of the library lesson. The strategies discussed are those commonly used by teachers in the classroom and are easily adapted to use in the library media center, allowing library teachers to support school-wide reading initiatives through instruction while sharing appreciation of literature. Reading strategies are incorporated in a chapter format, explaining the strategy and benefits of integration, as well as offering resources, a review of the relevant research, methods, and a clear step-by-step approach to instruction. Chapters share general knowledge about reading instruction, and illustrate how media specialists can incorporate specific examples, including reproducible items and graphic organizers. The overall outline of the book parallels the usual reading instructional pattern of strategies to use before, during, and after reading. Grades 6-8
