[The Story and Trials of Adolph Julius Weber](#) Lewis J. Swindle 2002 The mystery surrounding the accuser only deepened as more facts became known. In the fall of 1905, the State of California was forced to change its inheritance law. The State Legislature enacted what was being referred to then as "The Patricide Law". This book is about the young individual (20 years of age) who caused the enactment of that law. This book is about Adolph Julius Weber, who was arrested for what was considered at the time as one of the most atrocious crimes ever committed in California at the start of the 20th century. It being committed in the small town of Auburn, Calidornia, a population of 2,000. Adolph Weber had not only committed Patricide, but Matricide, Parricide and Fratricide. This book takes an in-depth look at the events that surrounded the crimes that were committed, and follows the events surrounding Adolph J. Weber as they unfolded and were followed by the newspapers. Although there was no actual proof that Adolph J. Weber committed the crime, he became the prime suspect, partly because of his own actions after the murders, thus Adolph Weber was arrested and eventually tried for the crime mostly on circumstantial evidence. the book covers the Coroner's Inquest that was held, the Preliminary Examination, the Grand Jury, the Trial itself, and the appeal to the State Supreme Court, and a number of interesting events that occurred during the time the various hearings and such were taking place. The book covers the period from 1904 through 1906 and much of what was actually said by the accused at different times as reported by the newspapers from that time period. There were more lawyers involved in this case than in any other period were different as they are now Some of what took place although considered legal at the time is not legal today. Hence, it could have been possible, following today's law standards, the accused could possibly been found innocent of the crime he was convicted of, thus it could be said was he given a fair trial? What also makes this story interesting is the different side issues that arose out of the multiple crimes he was thought to have committed.

[Grading for Equity](#) Joe Feldman 2018-09-25 “Joe Feldman shows us how we can use grading to help students become the leaders of their own learning and lift the veil on how to succeed. . . . This must-have book will help teachers learn to implement improved, equity-focused grading for impact.” --Zaretta Hammond, Author of Culturally Responsive Teaching & The Brain Crack open the grading conversation Here at last—and none too soon—is a resource that delivers the research base, tools, and courage to tackle one of the most challenging and emotionally charged conversations in today’s schools: our inconsistent grading practices and the ways they can inadvertently perpetuate the achievement and opportunity gaps among our students. With Grading for Equity, Joe Feldman cuts to the core of the conversation, revealing how grading practices that are accurate, bias-resistant, and motivational will improve learning, minimize grade inflation, reduce failure rates, and become a lever for creating stronger teacher-student relationships and more caring classrooms. Essential reading for schoolwide and individual book study or for student advocates, Grading for Equity provides A critical historical backdrop, describing how our inherited system of grading was originally set up as a sorting mechanism to provide or deny opportunity, control students, and endorse a “fixed mindset” about students’ academic potential—practices that are still in place a century later A summary of the research on motivation and equitable teaching and learning, establishing a rock-solid foundation and a “true north” orientation toward equitable grading practices Specific grading practices that are more equitable, along with teacher examples, strategies to solve common hiccups and concerns, and evidence of effectiveness Reflection tools for facilitating individual or group engagement and understanding As Joe writes, “Grading practices are a mirror not just for students, but for us as their teachers.” Each one of us should start by asking, “What do my grading practices say about who I am and what I believe?” Then, let’s make the choice to do things differently . . . with Grading for Equity as a dog-eared reference.
