Althusser and Law Laurent de Sutter 2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser’s philosophy. The growing importance of Althusser’s philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called ‘Ideological State Apparatuses’, law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser’s ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Relay Handbook National Electric Light Association 1926 **Disciple IV** Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel’s hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

The Greatest Game Greg Rajaram 2021-04-15 Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an ‘Overman’ who can reach evolution’s pinnacle? Will this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it’s now time that we ask the greatest question yet: when does intelligence transcend to become consciousness?

Voices of Hope Carole B. Shmurak 1998 Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. “Voices of Hope” asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls’ own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

Divine Stories 2013-02-08 Divine Stories is the inaugural volume in a landmark translation series devoted to making the wealth of classical Indian Buddhism accessible to modern readers. The stories here, among the first texts to be inscribed by Buddhists, highlight the moral economy of karma, illustrating how gestures of faith, especially offerings, can bring the reward of future happiness and ultimate liberation. Originally contained in the Divyavadana, an enormous compendium of Sanskrit Buddhist narratives from the early Common Era, the stories in this collection express the moral and ethical impulses of Indian Buddhist thought and are a testament to the historical and social power of narrative. Long believed by followers to be the actual words of the Buddha himself, these divine stories are without a doubt some of the most influential stories in the history of Buddhism.

The Soul of Discipline Kim John Payne 2015-06-02 In this groundbreaking book, parenting expert and acclaimed author of the bestselling book Simplicity Parenting Kim John Payne, M.Ed., flips the script on children’s challenging or defiant behavior and lays out an elegantly simple plan to support parents in establishing loving, age-sensitive boundaries that help children feel safe and settled. In short: What looks like misbehavior is actually your children’s signal that they’re feeling lost, that they are trying to find direction and looking to you to guide them back on course. Payne gives parents heartwarming help and encouragement by combining astute observations with sensitive and often funny stories from his long career as a parent educator and a school and family counselor. In accessible language, he explains the relevance of current brain- and child-development studies to day-to-day parenting. Breaking the continuum of childhood into three stages, Payne says that parents need to play three different roles, each corresponding to one of those stages, to help steer children through their emotional growth and inevitable challenging times: • The Governor, who is comfortably and firmly in charge—setting limits and making decisions for the early years up to around the age of eight • The Gardener, who watches for emotional growth and makes decisions based on careful listening, assisting tweens in making plans that take the whole family’s needs into account • The Guide, who is both a sounding board and moral compass for emerging adults, helping teens build a sense of their life’s direction as a way to influence healthy decision making Practical and rooted in common sense, The Soul of Discipline gives parents permission to be warm and nurturing but also calm and firm (not overreactive). It gives clear, doable strategies to get things back on track for parents who sense that their children’s behavior has fallen into a troubling pattern. And best of all, it provides healthy direction to the entire family so parents can spend less time and energy on outmoded, punitive discipline and more on connecting with and enjoying their kids. Advance praise for The Soul of Discipline “The Soul of Discipline offers practical tools for helping parents implement discipline that’s respectful and effective, but the book is so much more. Kim John Payne offers a framework to guide parents in making decisions about why, when, and how to hold tighter reins as we build skills in our children, and why, when, and how to loosen the reins as we scaffold freedom.”—Tina Payne Bryson, Ph.D., co-author of No-Drama Discipline “This book gets deep inside the challenge of getting along with children and teens and thinks deeply about what they need from us to become strong and self-managing. It elevates discipline to what it should be—a caring process of helping kids orient to the world and live in it happily and well.”—Steve Biddulph, author of The New Manhood “Kim Payne provides a useful model for choosing our parenting stance—Governor, Gardener, or Guide—depending on the situation. Most powerfully, Payne begins with the radical view that children are not disobedient but rather disoriented. The upshot of this shift in perspective is that discipline is about helping children orient themselves effectively, not about controlling or chastising.”—Lawrence J. Cohen, Ph.D., author of Playful Parenting

Hav Jan Morris 2011-08-30 A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris’s only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

Urban School Leadership Tom Payzant 2010-11-04 This important book, written by educational expert and urban school leader, Tom Payzant, offers a realistic understanding of what urban school leadership looks like from the inside. Payzant shares his first-hand knowledge of the unique managerial, instructional, and political tasks of his role. Effectively combining practical lessons and research, Urban School Leadership includes in-depth analysis of various leadership concerns. The book covers topics such as improving student achievement, working with unions, building community, and maintaining and developing resources. Most importantly, it offers stories of real school leaders whose successes and missteps reveal the inherent “messiness” of this difficult job. Urban School Leadership is part of the Jossey-Bass Leadership Library in Education series. "This important book provides compelling examples of how effective leaders can have hope, see progress, and achieve success for all children in the schools and districts they lead."—Richard Riley, former United States Secretary of Education "Tom Payzant is one of the few people who could provide such a comprehensive, useful book for educational leaders at all levels. This very practical book is grounded in the important experiences and impressive judgment of one of our nation’s most successful school superintendents"—Jon Schnur, co-founder and CEO, New Leaders for New Schools "Tom Payzant is one of the finest urban educators of our generation. Urban School Leadership is compelling, crisp, and wise—providing a clear path for those dedicated to improving the trajectory of children’s lives."—Timothy F.C. Knowles, executive director, Center for Urban School Improvement, University of Chicago "Urban School Leadership is a must read for anyone interested in the landscape of urban public education in America."—Beverly Hall, superintendent, Atlanta Public Schools

The Book of L. G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer’s invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.
