One Plastic Bag Miranda Paul 2020-01-01 Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! The inspiring true story of how one African woman began a movement to recycle the plastic bags that were polluting her community. Plastic bags are cheap and easy to use. But what happens when a bag breaks or is no longer needed? In Njau, Gambia, people simply dropped the bags and went on their way. One plastic bag became two. Then ten. Then a hundred. The bags accumulated in ugly heaps alongside roads. Water pooled in them, bringing mosquitoes and disease. Some bags were burned, leaving behind a terrible smell. Some were buried, but they strangled gardens. They killed livestock that tried to eat them. Something had to change. Isatou Ceesay was that change. She found a way to recycle the bags and transform her community. This inspirational true story shows how one person's actions really can make a difference in our world.

Traditional Trees of Pacific Islands Craig R. Elevitch 2006-01-01 "This book is for the person who lives in the tropics or subtropics and is interested in native plants, who wants to know about plants that are useful, who loves to watch plants grow, and who is willing to work with them. Such a person might ask questions like, Where will they grow? How do I grow them? Are they good to eat? How are they used? What are their names? These questions and more are answered here." --Préf.

Systems Thinker's Toolbox Joseph Eli Kasser 2018-10-03 Systems Thinker's Toolbox: Tools for Managing Complexity provides more than 100 tools based on systems thinking and beyond. Each tool is described, and when necessary, examples are provided of how each of them can be used. Some of the simplest tools can be combined into more complex tools. The tools may be things such as lists, causal loops, and templates, as well as processes and methodologies. Key Features Provides an explanation of the two views of systems thinking; systemic and systematic thinking, and then shows how to perform each of them in a complimentary manner Presents a set of thinking tools that can be used to apply systems thinking to solving problems in project management, engineering, systems engineering, new product development, and business Describes the tools from simple such as lists, and goes on to more complex such as Categorized Requirements in Process (CRIP) charts, and then onto the processes Introduces new tools that have been tested with positive feedback Discusses a set of communication tools that can improve project reviews and communicating innovative ideas

The Role of the Individual Rebecca Ferguson 2011-06-21 Now more than ever, it is important for our society to understand that global warming is a reality. There are so many things that we have done, under the guise of industrialization and bettering our economy, that have had, and still have, ramifications on our immediate environment. Charts, graphs, maps, and sidebars of key figures and events distill important, proven information regarding global warming, so that readers can easily refer to them for report-writing or while building their own well-informed opinion. Readers will learn about the current and impending challenges facing the planet and how it affects human health. Further exploration in this volume covers the impacts of extreme cold snaps; issues arising from aridity; diminished air capacity from smog, pollution, the ozone, and aero-allergens; and food security and food safety.

Post-Petroleum Design George Elvin 2015-05-15 Despite the growing demand for design strategies to reduce our petroleum use, no one has yet brought together the lessons of the world's leading post-petroleum designers into a single resource. Post-Petroleum Design brings them together for the first time. Readers will be introduced to the most current, innovative, plastic-and petroleum-free products and projects in industrial design, architecture, transportation, electronics, apparel and more. Post-Petroleum Design explores firsthand the client and consumer motivations behind the demand, and shares the case studies, principles, best practices, risks and opportunities of the world's leading post-petroleum design experts who are already meeting that demand. It introduces 40 inspiring individuals from across the globe; people like Eben Bayer, the American innovator whose company, Ecovative, is growing houses from mushrooms; Mohammed Bah Abba, whose Zeer Pot is helping families keep produce fresh in the sweltering Nigerian summer without electricity; and the engineers at Mercedes-Benz Advanced Design Studios whose Biome car evolves from genetically engineered DNA. Post-Petroleum Design gives design professionals the information they need to research, evaluate, and select materials, technologies and design strategies that meet the growing demand for sustainable design, plastic-free materials and process energy conservation. Designer profiles, studies, statistics and many colour illustrations all highlight the work—some of the best design work to be found anywhere, and showcased here for the first time.

Garbage and Recycling Candice L. Mancini 2010-11-24 Editor Candice L. Mancini uses a series of thought-provoking essays to take readers across the globe, exploring international issues relating to garbage and recycling. Is E-waste dangerous in India? Is the Nile being ruined by pollution? Is Serbia doing enough to focus on their waste problems? Is Bangladesh's capital swimming in waste? How is China turning trash into art? Readers will explore these questions. They will learn whether Mexico City is running out of places to dump waste and whether the U.S. has a serious issue with plastic bags. Other cultures explored include Canada, Japan, Australia, Spain, the Philippines, and Sweden. One final treat for readers is they'll explore garbage and recycling in space.

The Magic of Coin-Trees from Religion to Recreation Ceri Houlbrook 2018-04-23 This book traces the history of ritual landscapes in the British Isles, and the transition from religious practice to recreation, by focusing on a highly understudied exemplar: the coin-tree. These are trees imbued with magical properties into which coins have been ritually embedded. This is a contemporary custom which can be traced back in the literature to the 1700s, when it was practiced for folk-medical and dedicatory purposes. Today, the custom is widespread, with over 200 coin-trees distributed across the British Isles, but is more akin to the casual deposition of coins in a wishing-well: coins are deposited in the tree in exchange for wishes, good luck, or future fortune. Ceri Houlbrook contributes to the debate on the historic relationships between religion, ritual, and popular magic in British contexts from 1700 to the present.

Embracing the Infidel Behzad Yaghmaian 2005-11-29 An eye-opening personal account of an epic human drama, Embracing the Infidel takes us on an astounding journey along a modern-day underground railroad that stretches from Istanbul to Paris. In this groundbreaking book, Iranian-American Behzad Yaghmaian has done what no other writer has managed to do—as he enters the world of Muslim migrants and tells their extraordinary stories of hope for a new life in the West. In a tent city in Greece, they huddle together. Men and women from Iraq, Sudan, Afghanistan, Iran, and other countries. Most have survived war and brutal imprisonment, political and social persecution. Some have faced each other in battle, and all share a powerful desire for freedom. Behzad Yaghmaian lived among them, listened to their hopes, dreams, and fears—and now he weaves together dozens of their stories of yearning, persecution, and unwavering faith. We meet Uncle Suleiman, an Iraqi veteran of the Iran-Iraq war; once imprisoned by Saddam Hussein, he is now a respected elder of a ramshackle tent city in Athens, offering comfort and community to his fellow travelers...Purya, who fled Iran only to fall into the clutches of human smugglers and survive beatings and torture in Bulgaria...and Shahroukh Khan, an Afghan teenager whose world at home was shattered twice—once by the Taliban and again by American bombs—but whose story turns on a single moment of awakening and love in the courtyard of a Turkish mosque. A chronicle of husbands separated from wives, children from parents, Embracing the Infidel is a portrait of men and women moving toward a promised land they may never reach—and away from a world to which they cannot return. It is an unforgettable tale of heartbreak and prejudice, courage, heroism, and hope.

Letters from the Chestnut Tree Cafe Tom Winniffrith 2012-12-10 Of course if you are highly opinionated (which Tom is) not everyone loves you. His writings have exposed, lampooned, offended and ridiculed a fair few folk. But no-one is forced to read what he writes. The blog on which this ebook is based is not a democracy but very much a dictatorship. But it has its fans. An old pal of Tom's, Dru Edmonstone, very kindly said: "Tom should have a career as a stand-up comedian. When it comes to investment writing, he sets the standard that we would all like to follow. Sometimes right of Genghis Khan and other times left of Bob Crowe, his words never fail to say it as it is with authority, integrity and lots of humour. A daily MUST READ full of Investment Viagra." And so we come to this e-book. During the course of the summer and early autumn of 2012 Tom produced around 400,000 words. Articles appeared at the rate of up to nine a day. It seemed like a good idea to produce an anthology of the best of the best. Here it is. There is a lot more active material that we could not find room for here on TomWinniffrith.com - and more appears every day. The blog on which this is based is no holds barred with content covering everything from finance to West Ham to celebs, cooking, TV, film, philosophy, politics, cats, Greece and Albania - where Tom spent most of the summer - and his wider family. The Winniffriths (little stepsister Flea excepted) are, as Tom puts it, generally a bunch of deluded lefties but that offers up scope for a few cheap jokes and apparently they do not seem to mind. In each of the 99 articles, emails, LinkedIn and bulletin board posts or tweets appear in the ebook Tom includes an explanation of the context,of the article in question and, where possible, provide a link to the original. The period in question saw Tom head off to Greece in late June on a one-way ticket to write a book on gold (out soon) and "get his head together." Writing, walking and bird watching helped to do just that. Over the course of the articles he goes to Greece, then onto Albania, back to Greece and finally head back to the UK (Airstrip One). The book ends in mid-October. The writing continues, on a daily basis, on TomWinniffrith.com.

Playing With Time Linda Massola 2014 While vacationing on a houseboat situated smack dab in the middle of a dry lake bed, the Stanton kids and their cousins discover a time machine that makes their lives a whole lot more interesting...and without a doubt more dangerous! The Stanton kids once again return to their vacation houseboat. When their old enemy, Mr. Powers, creates a vortex which sends him back in time, the children use their time machine to travel back to 1870, where Mr. Powers is a wanted bushranger who tries to hold them prisoner. In a race against time itself, they try to outwit him by destroying the vortex and leaving him stranded--this time with no possible way of escaping back to their time!

Bitter Tree Frank Altobelli 2011-02-15 Hidden beneath desert sands and cleverly written as an intriguing story in the pages of the Bible wasn't a miracle that would bring clean water to the world's thirsty poor, as Rene idealistically believed. Instead, Eleanor recognized that what was concealed was a weapon capable of

humbling the world's industrial powers if discovered. Eleanor couldn't have guessed influence the handsome, idealistic archaeologist, Rene, would have on her. She gave him her heart...yet kept her secrets. Trapped between the longings of her heart and the danger she's unwittingly unleashed, Eleanor finds herself on the run and separated from the man she loves. In order to do the impossible, she must overcome her mentor and former CIA boss, Steve Clarkson, as well as corrupt men plotting to destroy the strategic oil reserve by poisoning the United States economy's lifeblood. Steve believes she's a traitor to the nation's enemies even as the terrorists see her as the one person capable of thwarting them--and the threat they have to remove at any cost.

[How to Identify Trees in Southern Africa](#) Braam van Wyk 2019-05-01 This book's title says it all! Now in an updated second edition, it provides a clear understanding of how trees are constructed and what to look for when identifying a tree. The book is divided into two parts: Part 1 describes and clearly illustrates the different parts of a tree and their role in tree identification. Part 2 features a key to 43 tree groups, based on easy-to-observe stem and leaf features. It carefully outlines each group and the southern African tree families represented in the different groups. Numerous colour photographs and explanatory illustrations support the text, making this an accessible and easy-to-use guide. How to Identify Trees in Southern Africa will equip readers with a sound understanding of how trees work and what to look for in order to make a positive ID. Sales points: Clear and explanatory introduction to tree identification; includes a tried and tested key to tree groups based on easy-to-observe features; new edition - updated to reflect latest taxonomic changes; ideal companion to field guides to trees.
