A Modest Proposal Jonathan Swift 2020-01-01 A Modest Proposal' is a 1729 Juvenalian satirical essay written and published anonymously by Jonathan Swift. Swift suggests that the impoverished Irish might ease their economic troubles by selling their children as food for rich gentlemen and ladies. This satirical hyperbole mocked heartless attitudes towards the poor as well as British policy toward the Irish in general.

The Decameron Giovanni Boccaccio 2017-12-06 John Payne's translation of The Decameron was originally published in a private printing for The Villon Society, London in 1886. Comprised of 100 novellas told by ten men and women over a ten day journey fleeing plague-infested Florence, the Decameron is an allegorical work famous for its bawdy portrayals of everyday life, its searing wit and mockery, and its careful adherence to a framed structure. The word "decameron" is derived from the Greek and means "ten days". Boccaccio drew on many influences in writing the Decameron, and many writers, including Martin Luther, Chaucer, and Keats, later drew inspiration from the book. Giovanni Boccaccio (1313-1375) was an Italian writer and humanist, one of the founders of the Renaissance. He studied business but abandoned it eventually to pursue his literary interests. In 1350 Boccaccio met Francesco Petrarca (Petrarch) (1304-1374), one the most important figures in the beginnings of the Renaissance and Humanism.

Smart Learning with Educational Robotics Linda Daniela 2019-06-28 This book will offer ideas on how robots can be used as teachers' assistants to scaffold learning outcomes, where the robot is a learning agent in self-directed learning who can contribute to the development of key competences for today's world through targeted learning - such as engineering thinking, math, physics, computational thinking, etc. starting from pre-school and continuing to a higher education level. Robotization is speeding up at the moment in a variety of dimensions, both through the automation of work, by performing intellectual duties, and by providing support for people in everyday situations. There is increasing political attention, especially in Europe, on educational systems not being able to keep up with such emerging technologies, and efforts to rectify this. This edited volume responds to this attention, and seeks to explore which pedagogical and educational concepts should be included in the learning process so that the use of robots is meaningful from the point of view of knowledge construction, and so that it is safe from the technological and cybersecurity perspective.

Transforming Learning with Meaningful Technologies Maren Scheffel 2019-09-09 This book constitutes the proceedings of the 14th European Conference on Technology Enhanced Learning, EC-TEL 2019, held in Delft, The Netherlands, in September 2019. The 41 research papers and 50 demo and poster papers presented in this volume were carefully reviewed and selected from 149 submissions. The contributions reflect the debate around the role of and challenges for cutting-edge 21st century meaningful technologies and advances such as artificial intelligence and robots, augmented reality and ubiquitous computing technologies and at the same time connecting them to different pedagogical approaches, types of learning settings, and application domains that can benefit from such technologies.

Last Train to Babylon Charlee Fam 2014-10-28 Fans of Alice Sebold and John Green will be transfixed by this sophisticated, edgy debut novel packing dark humor, biting wit, and a lot of Jack Daniels. Who put the word fun in funeral? I can't think of anything fun about Rachel's funeral, except for the fact that she won't be there. Aubrey Glass has a collection of potential suicide notes—just in case. And now, five years—and five notes—after leaving her hometown, Rachel's the one who goes and kills herself. Aubrey can't believe her luck. But Rachel's death doesn't leave Aubrey in peace. There's a voicemail from her former friend, left only days before her death, that Aubrey can't bring herself to listen to—and worse, a macabre memorial-turned-high-school reunion that promises the opportunity to catch up with everyone . . . including the man responsible for everything that went wrong between Aubrey and Rachel. In the days leading up to the funeral and infamous after party, Aubrey slips seamlessly between her past and present. Memories of friendship tangle with painful new encounters while underneath it all Aubrey feels the rush of something closing in, something she can no longer run from. And when the past and present collide in one devastating night, nothing will be the same again. But facing the future means confronting herself and a shattering truth. Now, Aubrey must decide what will define her: what lies behind . . . or what waits ahead.

Ethics for the Information Age Michael Jay Quinn 2006 Widely praised for its balanced treatment of computer ethics, *Ethics for the Information Age* offers a modern presentation of the moral controversies surrounding information technology. Youth Employment and Training Programs National Research Council 1985-02-01 Do government-sponsored youth employment programs actually help? Between 1978 and 1981, the Youth Employment and Demonstration Projects Act (YEDPA) funded extensive programs designed to aid disadvantaged youth. The Committee on Youth Employment Programs examined the voluminous research performed by YEDPA and produced a comprehensive report and evaluation of the YEDPA efforts to assist the underprivileged. Beginning with YEDPA's inception and effective lifespan, this report goes on to analyze the data it generated, evaluate its accuracy, and draw conclusions about which YEDPA programs were effective, which were not, and why. A discussion of YEDPA strategies and their perceived value concludes the volume.

The empirical base of linguistics Carson T. Schütze 2015-12-24 Throughout much of the history of linguistics, grammaticality judgments - intuitions about the well-formedness of sentences - have constituted most of the empirical base against which theoretical hypothesis have been tested. Although such judgments often rest on subtle intuitions, there is no systematic methodology for eliciting them, and their apparent instability and unreliability have led many to conclude that they should be abandoned as a source of data. Carson T. Schütze presents here a detailed critical overview of the vast literature on the nature and utility of grammaticality judgments and other linguistic intuitions, and the ways they have been used in linguistic research. He shows how variation in the judgment process can arise from factors such as biological, cognitive, and social differences among subjects, the particular elicitation method used, and extraneous features of the materials being judged. He then assesses the status of judgments as reliable indicators of a speaker's grammar. Integrating substantive and methodological findings, Schütze proposes a model in which grammaticality judgments result from interaction of linguistic competence with general cognitive processes. He argues that this model provides the underpinning for empirical arguments to show that once extragrammatical variance is factored out, universal grammar succumbs to a simpler, more elegant analysis than judgment data initially lead us to expect. Finally, Schütze offers numerous practical suggestions on how to collect better and more useful data. The result is a work of vital importance that will be required reading for linguists, cognitive psychologists, and philosophers of language alike.

Handbook on Personalized Learning for States, Districts, and Schools Marilyn Murphy 2016-07-01

The recent passage of the Every Student Succeeds Act (ESSA) presents new opportunities and greater flexibility in efforts to personalize learning for all children. The Handbook on Personalized Learning for States, Districts, and Schools provides insight and guidance on maximizing that new flexibility. Produced by the Center on Innovations in Learning (CIL), one of seven national content centers funded by the U.S. Department of Education, this volume suggests how teachers can enhance personalized learning by cultivating relationships with students and their families to better understand a child's learning and motivation. Personalized learning also encourages the development of students' metacognitive, social, and emotional competencies, thereby fostering students' self-direction in their own education, one aimed at mastery of knowledge and skills and readiness for career and college. Chapters address topics across the landscape of personalized learning, including co-designing instruction and learning pathways with students; variation in the time, place, and pace of learning, including flipped and blended classrooms; and using technology to manage and analyze the learning process. The Handbook's chapters include Action Principles to guide states, districts, and schools in personalizing learning.

The Nature of Science in Science Education W.F. McComas 2006-04-11 This is the first book to blend a justification for the inclusion of the history and philosophy of science in science teaching with methods by which this vital content can be shared with a variety of learners. It contains a complete analysis of the variety of tools developed thus far to assess learning in this domain. This book is relevant to science methods instructors, science education graduate students and science teachers.

Barron's GRE Sharon Weiner Green 2009-08-01 The 18th edition of Barron's GRE test preparation manual offers prospective graduate students intensive preparation for the Graduate Record Exam, as it is currently administered. Although question types on the GRE are scheduled to change substantially beginning August 1, 2011, students who opt to take the test before August 1, will find the help they're looking for in this edition. They will want to use Barron's GRE, 18th edition, as their test prep tool. Opening chapters of the 18th edition provide a perspective on the current exam with a GRE overview, advice on effective test-taking tactics, and a diagnostic test to help students pinpoint their strengths and weaknesses. Subsequent chapters review all GRE test areas and include practice exercises for the following topics: antonym, analogy, and sentence-completion questions, reading comprehension, vocabulary, analytical writing, discrete quantitative questions, quantitative comparison questions, data interpretation questions, and math. The math review includes questions in arithmetic, algebra, and geometry. The manual's concluding section presents five full-length model exams that reflect recent GREs in length, question types, and degree of difficulty. All questions are answered and explained. For students who plan to take the GRE after July 31, 2011, the new 19th edition of Barron's GRE (978-0-7641-4616-9) will be available in bookstores everywhere in June 2011.

Embodiment in Language (II) Shelley Ching-yu Depner 2016-11-11 This book provides useful strategies for language learning, researching and the understanding of social factors that influence human behavior. It offers an account of how we use human, animal and plant fixed expressions every day and the cultural aspects hidden behind them. These fixed expressions include various linguistic vehicles, such as fruit, jokes and taboos that are related to speakers' use in the real world. The linguistic research in Mandarin Chinese, Hakka, German and English furthers our understanding of the cultural value and model of cognition embedded in life-form embodiment languages.

Into the Kill Zone David Klinger 2012-06-26 What's it like to have the legal sanction to shoot and kill? This compelling and often startling book answers this, and many other questions about the oft-times violent world inhabited by our nation's police officers. Written by a cop-turned university professor who interviewed scores of officers who have shot people in the course of their duties, *Into the Kill Zone* presents firsthand accounts of the role that deadly force plays in American police work. This brilliantly written book tells how novice officers are trained to think about and use the power they have over life and death, explains how cops live with the awesome responsibility that comes from the barrels of their guns, reports how officers often hold their fire when they clearly could have shot, presents hair-raising accounts of what it's like to be involved in shoot-outs, and details how shooting someone affects officers who pull the trigger. From academy training to post-shooting reactions, this book tells the compelling story of the role that extreme violence plays in the lives of America's cops.

Handbook on Innovations in Learning Marilyn Murphy 2014 The Handbook on Innovations in Learning, developed by the Center on Innovations in Learning, presents commissioned chapters describing current best practices of instruction before embarking on descriptions of selected innovative practices which promise better methods of engaging and teaching students.

Chicano School Failure and Success Richard R. Valencia 1991 This book examines the school failure and success of Chicano students from a wide variety of perspectives. It attempts to promote further understanding of what constitutes, maintains, and helps shape school failure among Chicano students, and to present research and policy agendas that may help to realize Chicano school success. Five sections address current realities of the Chicano schooling experience, language and classroom perspectives on Chicano achievement, cultural and familial perspectives on achievement, educational testing and special education issues, and the big

picture and Chicano school failure. Chapters are: (1) "The Plight of Chicano Students: An Overview of Schooling Conditions and Outcomes" (Richard R. Valencia); (2) "Segregation, Desegregation, and Integration of Chicano Students: Problems and Prospects" (Ruben Donato, Martha Menchaca, Richard R. Valencia); (3) "Chicano Dropouts: A Review of Research and Policy Issues" (Russell W. Rumberger); (4) "Bilingualism, Second Language Acquisition, and the Education of Chicano Language Minority Students" (Eugene E. Garcia); (5) "Promoting School Success for Chicanos: The View from Inside the Bilingual Classroom" (Barbara J. Merino); (6) "From Failure to Success: The Roles of Culture and Cultural Conflict in the Academic Achievement of Chicano Students" (Henry T. Trueba); (7) "Cognitive Socialization and Competence: The Academic Development of Chicanos" (Luis M. Laosa, Ronald W. Henderson); (8) "The Uses and Abuses of Educational Testing: Chicanos as a Case in Point" (Richard R. Valencia, Sofia Aburto); (9) "An Analysis of Special Education as a Response to the Diminished Academic Achievement of Chicano Students" (Robert Rueda); (10) "Systemic and Institutional Factors in Chicano School Failure" (Arthur Pearl); and (11) "Conclusions: Towards Chicano School Success" (Richard R. Valencia). This book contains references in each chapter, 30 data tables and figures, notes on contributors, and author and subject indexes. (SV)

What to Expect: Eating Well When You're Expecting Heidi Murkoff 2010-07-15 EATING WELL WHEN YOU'RE EXPECTING provides mums-to-be with a realistic approach to navigating healthy and deliciously through the nine months of pregnancy - at home, in the office, at Christmas, in restaurants. Thorough chapters are devoted to nutrition, weight gain, food safety, the postpartum diet, and how to eat when trying to conceive again. And the book comes with 150 contemporary, tasty, and healthy recipes that feed mum and baby well, take little time to prepare, and are gentle on queasy tummies. At the heart of the book are hundreds of pressing questions every mother-to-be has: Is it true I shouldn't eat any food cooked with alcohol? Will the caffeine in coffee cross into my baby's bloodstream? I'm entering my second trimester, and I'm losing weight, not gaining - help! Is all sushi off limits? How do I get enough calcium if I'm lactose intolerant? I keep dreaming about a hot fudge sundae - can I indulge? (The answer is yes!)

Sleep Medicine Sudhansu Chokroverty 2015-09-22 This comprehensive volume provides a balanced and easily readable account of the rise of modern sleep medicine, its history and developmental milestones. Authored by an international group of experts, the remarkable progress and fascinating evolution from rudimentary concepts of the ancient prehistoric and early classical periods to our contemporary knowledge are covered in detail. These examples and their relationship to modern therapies offer neurologists, psychiatrists, respiratory specialists, clinicians, researchers and those interested in sleep medicine an important perspective to the origins of current practice.

In Harm's Way Doug Stanton 2003-05-01 A harrowing, adrenaline-charged account of America's worst naval disaster -- and of the heroism of the men who, against all odds, survived. On July 30, 1945, the USS Indianapolis was torpedoed in the South Pacific by a Japanese submarine. An estimated 300 men were killed upon impact; close to 900 sailors were cast into the Pacific Ocean, where they remained undetected by the navy for nearly four days and nights. Battered by a savage sea, they struggled to stay alive, fighting off sharks, hypothermia, and dementia. By the time rescue arrived, all but 317 men had died. The captain's subsequent court-martial left many questions unanswered: How did the navy fail to realize the Indianapolis was missing? Why was the cruiser traveling unescorted in enemy waters? And perhaps most amazing of all, how did these 317 men manage to survive? Interweaving the stories of three survivors -- the captain, the ship's doctor, and a young marine -- journalist Doug Stanton has brought this astonishing human drama to life in a narrative that is at once immediate and timeless. The definitive account of a little-known chapter in World War II history, *In Harm's Way* is destined to become a classic tale of war, survival, and extraordinary courage.

Early Childhood Care and Education and Equality of Opportunity Kaspar Burger 2013-01-11 Early childhood care and education has become a subject of increasing public interest in a great number of countries and among several international organizations and foundations. This book focuses on key issues in early childhood care and education, adding pedagogical, historical, and sociological perspectives to a body of research in education that has neglected important questions to date. The studies presented focus on effects of early childhood care and education on children, on the importance of family background for child development, on the use of institutional services among different families, on the history of such services in France and in the United States of America, and on the way in which children acquire competences both in early childhood care and education institutions and in a family context.

Talk at Work Paul Drew 1993-02-11 Talk at Work is a major collection of studies of language and interaction in a wide variety of institutional and workplace settings, including doctor-patient consultations, legal hearings, mass media, job interviews, visits by health visitors, psychiatric interviews, and calls to emergency services. A theoretical overview of the distinctive contribution made by conversation analysis to our understanding of talk in institutional contexts is followed by reports of the contributors' original empirical research.

The Stigma of Mental Illness - End of the Story? Wolfgang Gaebel 2016-08-10 This book makes a highly innovative contribution to overcoming the stigma and discrimination associated with mental illness - still the heaviest burden both for those afflicted and those caring for them. The scene is set by the presentation of different fundamental perspectives on the problem of stigma and discrimination by researchers, consumers, families, and human rights experts. Current knowledge and practice used in reducing stigma are then described, with information on the programmes adopted across the world and their utility, feasibility, and effectiveness. The core of the volume comprises descriptions of new approaches and innovative programmes specifically designed to overcome stigma and discrimination. In the closing part of the book, the editors - all respected experts in the field - summarize some of the most important evidence- and experience-based recommendations for future action to successfully rewrite the long and burdensome 'story' of mental illness stigma and discrimination.

Leadership Michael Z. Hackman 1996 The practical text presents the topic of leadership crisply & cogently--synthesizing a great deal of information in an easy-to-understand form.
