Classics and Prison Education in the US
Emilio Capettini 2021-05-17 This volume focuses on teaching Classics in carceral contexts in the US and offers an overview of the range of incarcerated adults, their circumstances, and the ways in which they are approaching and

reinterpreting Greek and Roman texts. *Classics and Prison Education in the US* examines how different incarcerated adults – male, female, or gender non-conforming; young or old; serving long sentences or about to be released – are reading and discussing Classical texts, and what this may entail. Moreover, it provides a sophisticated examination of the best pedagogical practices for teaching in a prison setting and for preparing returning citizens, as well as a considered discussion of the possible dangers of engaging in such teaching – whether because of the potential complicity with the carceral state, or because of the historical position of Classics in elitist education. This edited volume will be a resource for those interested in Classics pedagogy, as well as the role that Classics can play in different areas of society and education, and the impact it can have.

The Allegory of the Cave Plato 2021-01-08 The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a-520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

All Bullshit and Lies? Chris Heffer 2020 "In a post-factual world in which claims are often held to be true only to the extent that they partisanly confirm one's preexisting beliefs, this book asks the following crucial questions: How can one

identify the many forms of untruthfulness in discourse? How can one know when their use is ethically wrong? How can one judge untruthfulness in the messiness of situated discourse? Drawing on pragmatics, philosophy, psychology, and law, *All Bullshit and Lies?* develops a comprehensive framework for analyzing untruthful discourse in situated context. The TRUST (Trust-Related Untruthfulness in Situated Text) framework sees untruthfulness as encompassing not just deliberate manipulations of what you believe to be the truth (the insincerity of withholding, misleading, and lying), but also the distortions that arise pathologically from an irresponsible attitude toward the truth (dogma, distortion, and bullshit). Truth is often not "in play" (as in jokes or fiction), or concealing it can achieve a greater good (as in saving another's face). Untruthfulness becomes unethical in discourse, though, when it unjustifiably breaches the trust an interlocutor invests in the speaker. In such cases, the speaker

becomes willfully insincere or epistemically negligent and thus culpable to a greater or lesser degree. In addition to the theoretical framework, the book provides a clear, practical heuristic for analyzing discursive untruthfulness and applies it to such cases of public discourse as the Brexit "battle bus," Trump's tweet about voter fraud, Blair's and Bush's claims about weapons of mass destruction, and the multiple forms of untruthfulness associated with the Skripal poisoning case"--

'Being Towards Death' Sylvie Avakian

2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological-spiritual insights from the East, especially that of Nikolai Berdyaev. Thus, it brings into dialogue the West with the East, and philosophy with theology. By doing so, it offers Christian theology an existential-spiritual language that is relevant and meaningful for the contemporary reader. In particular, the work explores Heidegger's 'being towards death' (Sein zum Tode) as the basis for theological-philosophical thinking. Only the one who

embraces 'being towards death' has the courage to think and poetize. This thinking, in turn, makes 'being towards death' possible, and in this circular movement of thinking and being, the mystery of being reveals itself and yet remains hidden. Since the work aims at demonstrating 'being towards death' through language, it transitions away from the common formulations and traditionally accepted ways of writing (dogmatic) theology towards an original, philosophical reflection on faith and spirituality. At different points, however, the work also retrieves the profound thoughts and theologies of the past, the insightful creativity of which cannot be denied.

The Liberal Arts Tradition Bruce A. Kimball

2010-05-13 Ranging from Plato in antiquity to Martha Nussbaum in the present era, the authors

of the seventy readings included in The Liberal Arts Tradition present significant and exemplary views addressing liberal arts education over the course of its history, particularly in the United States. Most of the documents are newly translated or no longer available in print. Arranged chronologically, each selection is accompanied by an informative introduction and extensive explanatory notes discussing its place within the liberal arts tradition. Based upon the author's twenty-five years of experience leading seminars concerning the history of liberal education, this collection presents a uniquely comprehensive and salient set of documents, while incorporating the neglected portrayal and discussion of women within the history of the liberal arts.

Plato's 'Republic': An Introduction Sean McAleer 2020-11-09 It is an excellent book - highly intelligent, interesting and original. Expressing high philosophy in a readable form without trivialising it is a very difficult task and McAleer manages the task admirably. Plato is, yet again, intensely topical in the chaotic and confused world in which we are now living. Philip Allott, Professor Emeritus of International Public Law at Cambridge University This book is a lucid and accessible companion to Plato's Republic,

throwing light upon the text's arguments and main themes, placing them in the wider context of the text's structure. In its illumination of the philosophical ideas underpinning the work, it provides readers with an understanding and appreciation of the complexity and literary artistry of Plato's Republic. McAleer not only unpacks the key overarching questions of the text – What is justice? And Is a just life happier than an unjust life? – but also highlights some fascinating, overlooked passages which contribute to our understanding of Plato's philosophical thought. Plato's 'Republic': An Introduction offers a rigorous and thought-provoking analysis of the text, helping readers

navigate one of the world's most influential works of philosophy and political theory. With its approachable tone and clear presentation, it constitutes a welcome contribution to the field, and will be an indispensable resource for philosophy students and teachers, as well as general readers new to, or returning to, the text. *Werner's Magazine* 1898
