**Plastic Reality** Julie A. Turnock 2015-02-03 Julie A. Turnock tracks the use and evolution of special effects in 1970s filmmaking, a development as revolutionary to film as the form's transition to sound in the 1920s. Beginning with the classical studio era's early approaches to special effects, she follows the industry's slow build toward the significant advances of the late 1960s and early 1970s, which set the stage for the groundbreaking achievements of 1977. Turnock analyzes the far-reaching impact of the convincing, absorbing, and seemingly unlimited fantasy environments of that year's iconic films, dedicating a major section of her book to the unparalleled innovations of *Star Wars* and *Close Encounters of the Third Kind*. She then traces these films' technological, cultural, and aesthetic influence into the 1980s in the deployment of optical special effects as well as the "not-too-realistic" and hyper-realistic techniques of traditional stop motion and Showscan. She concludes with a critique of special effects practices in the 2000s and their implications for the future of filmmaking and the production and experience of other visual media.

**The Political Psyche** Andrew Samuels 2015-09-21 What can depth psychology and politics offer each other? In *The Political Psyche* Andrew Samuels shows how the inner journey of analysis and psychotherapy and the passionate political convictions of the outer world are linked. He brings an acute psychological perspective to bear on public themes such as the market economy, environmentalism, nationalism, and anti-Semitism. But, true to his aim of setting in motion a two-way process between depth psychology and politics, he also lays bare the hidden politics of the father, the male body, and of men's issues generally. A special feature of the book is an international survey into what analysts and psychotherapists do when their patients/clients bring overtly political material into the clinical setting. The results, including what the respondents reveal about their own political attitudes, destabilize any preconceived notions about the political sensitivity of analysis and psychotherapy. This Classic Edition of the book includes a new introduction by Andrew Samuels.

**The Oxford Handbook of Women and Competition** Maryanne L. Fisher 2017-08-14 While women are generally perceived to be less competitive than men, women compete in many ways and in a variety of situations. Women try to make themselves look more attractive to draw the attention of a desirable mate. They will use gossip as a form of informational warfare to influence reputations. They compete as mothers to gain access to resources that directly influence the health of their children. They use selfies posted on social media to manipulate others' perceptions. Women compete all of their lives: in the womb, through adolescence and adulthood, and into their elder years. The topic of women's competition has gained significant momentum over the years. Edited by Maryanne L. Fisher, *The Oxford Handbook of Women and Competition* provides readers with direct evidence of this growth and is one of the first scholarly volumes to focus specifically on this topic. Fisher and her team of contributors offer a definitive worldview of the current state of knowledge regarding competition among women today. Many of the chapters are grounded within an evolutionary framework, allowing for authors to investigate the adaptive nature of women's competitive behaviors, motivations, and cognition. Other chapters rely on alternative frameworks, with contributors also asserting that socio-cultural forces are the culprit shaping women's competitive drives. Additionally, several contributors focus their attention on issues faced by adolescent girls, and explore the developmental trajectories for young women through adulthood. Designed to serve as a source of inspiration for future research and direction, *The Oxford Handbook of Women and Competition* is a stand-out scholarly text focusing on the many competitive forces driving women today.

**Acting Together: Performance and the Creative Transformation of Conflict** Cynthia Cohen 2011-12-27 *Acting Together* volume II continues where the first volume left off, presenting more inspiring examples of peacebuilding performances in conflict-ridden regions. Where the first volume emphasizes theater and ritual's potential for resistance and catharsis in the midst of direct violence and in the aftermath of mass violence, the second volume focuses on performance's ability to bridge gaps and create inclusion in the more subtle context of structural violence and social exclusion. Drawing examples from the Americas, Africa, Asia, and Europe, this volume also includes practical recommendations for policy makers, a toolkit for practitioners, and a wealth of resources for artists and educators.

Playback Richard "Cactus" Pryor 2013-09-06 From the town that brought you Molly Ivins, Liz Carpenter, John Henry Faulk, and Greater Tuna, here's Cactus Pryor. For decades, Cactus' wit and wisdom have delighted radio listeners, as well as the many social, political, business, and philanthropic groups throughout the United States whose functions have been enlivened by this accomplished master of ceremonies and after-dinner speaker. Now the University of Texas Press takes great pleasure in bringing you this quintessential Texas humorist. Playback gathers over forty of Cactus Pryor's favorite radio essays, translating "ear words into eye words," as he puts it. In these pieces, Cactus paints vivid word pictures of people and places, offering readers the same "you are there" immediacy that makes his radio broadcasts so popular. In them, you'll take a sentimental journey with Cactus and his wife to the Maui grave site of Charles Lindbergh—discover how legendary University of Texas football coach Darrell Royal faced the agony of defeat with humor—meet unsung heroes like the 104-year-old who's teaching himself to read and write—get acquainted with the notable folks Cactus has known, including Lady Bird Johnson, John Wayne, Jane Fonda, and James Michener—and, of course, share Cactus' love of family, friends, and the Texas coast. As Bailey White's essays on National Public Radio have introduced listeners across the country to the lifeways of the Deep South, so Cactus Pryor offers a humorous, revealing look at how we Texans view ourselves, our neighbors, and the world. Read Playback now, and see what you've been missing.

You Play the Girl Carina Chocano 2017-08-08 WINNER OF THE NATIONAL BOOK CRITICS CIRCLE AWARD FOR CRITICISM A FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY "If Hollywood's treatment of women leaves you wanting, you'll find good, heady company in *You Play the Girl*."—ELLE As a kid in the 1970s and 80s, Carina Chocano was confused by the mixed messages all around her; messages that told her who she could be—and who she couldn't. Dutifully absorbing all the conflicting information the culture has to offer on how to be a woman, Chocano grappled with sexed up sidekicks, princesses waiting to be saved, and morally infallible angels who seemed to have no opinions of their own.

She learned that "the girl" is not a person, but a man's idea of what a woman should be—she's whatever the hero needs her to be in order to become himself. It wasn't until she spent five years as a movie critic, and was laid off just after her daughter was born, however, that she really came to understand how the stories the culture tells us about what it means to be a girl limit our lives and shape our destinies. She resolved to rewrite her own story. In *You Play the Girl*, Chocano blends formative personal stories with insightful and emotionally powerful analysis. Moving from Bugs Bunny to Playboy Bunnies, from Flashdance to Frozen, from the progressive '70s through the backlash '80s, the glib '90s, and the pornified aughts—and at stops in between—she explains how growing up in the shadow of "the girl" taught her to think about herself and the world and what it means to raise a daughter in the face of these contorted reflections. In the tradition of Roxane Gay, Rebecca Solnit, and Susan Sontag, Chocano brilliantly shows that our identities are more fluid than we think, and certainly more complex than anything we see on any kind of screen.

Creativity and resistance in a hostile world Sarita Malik 2020-12-15 What can culture, and its manifestations in artistic and creative forms, 'do'? Creativity and resistance in a hostile world draws on original collaborative research that brings together a range of stories and perspectives on the role of creativity and resistance in a hostile world. In times of racial nationalism across the world, this volume seeks to understand how creative acts have agitated for social change. The book suggests that creative actions themselves, and acting together creatively, can at the same time offer vital sources of hope. Drawing on a series of case studies, this volume focuses on the past and emergent grassroots arts work that has responded to racisms, the legacies of colonialism or the depredations of capitalist employment across several contexts and locations, including England, Northern Ireland and India. The book makes a timely intervention, foregrounding the value of creativity for those who are commonly marginalised from centres of power, including from the mainstream cultural industries. The authors also critically reflect on the possibilities and limitations of collaborative research within and beyond the academy.

Being "In and Out": Providing Voice to Early Career Women in Academia Narelle Lemon 2014-11-04 This book is about a network of women who as a collective and individuals can share their stories to indeed help themselves as well as others. Our stories as—sist in the telling and retelling of important events. Reflecting on these events allow the 'processing', 'figuring out' and 'inquiring', leading to behavioural actions to change situations. The fact that we are women unites us as we have common elements with our roles both within academia, in our families, and in society. The women in this study share their narratives in an open dialogue. Their journey into and out of academia is constructed from "a metaphorical three-dimensional inquiry space" (Clandinin & Connelly, 2000, p. 50). The space enables the authors to capture and communicate the emotional nature of lived experiences (Clandinin & Connelly, 2000). The self-studies explore the changes in social and contextual approaches that are attached to working and studying in higher education. The book provides a narrative of the "ups" and "downs" that female academics have individually and collectively encountered while moving "in" and "out" of academia. Making these stories known establishes a sense of collaboration and community. This action serves to perpetuate and further develop the established pedagogy and look to improve practice. A community practice seeks to locate the learning in the process of co-participation (building social capital) and not just within individuals (Hanks, 1991). It allows females to come together to share experience and discuss ways forward.

**Something More Than Night** Peter Wolfe 1985 Raymond Chandler's eminence as a mystery writer is unchallenged. Somerset Maugham and George Grella both rate him above Dashiell Hammett; Eric Partridge deems him "a serious artist and a very considerable novelist," while praising him as "one of the finest novelists of his time." Peter Wolfe examines the many sides of Chandler and his work--his apparent will to self-destruct, his obsession with beautiful women, and his apparent brush with homosexuality--and casts much new and needed light on this major American author.

*Playing the Other* Nick Rowe 2007 This book is an exploration and critique of 'playback theatre', a form of improvised theatre in which a company of performers spontaneously enact autobiographical stories told to them by members of the audience. With more than ten years' experience as an actor with Playback Theatre York, the author introduces the reader to the basics of playback theatre within a historical and theoretical context. The history and development of the form is traced, from its conception in the late 1970s to its subsequent growth worldwide, and its relationship to the psychodrama tradition from which it has evolved is discussed. Through an examination of playback performances from the perspectives of performers, 'tellers' of their stories and the audience, the author critically explores the nature, implications and ethics of the performers' response to the teller's experience, how notions of the public and personal are constructed, and the risks involved in improvising a response to a member of the audience's story. *Playing the Other* will be essential reading for drama students, dramatherapists and all those interested in the history and use of the theatre.
