Suck and Blow John Popper 2016-04-05 Hailed by many as the world's greatest harmonica player, John Popper has redefined the instrument. As the lead singer and principal songwriter of Blues Traveler, Popper has performed for more than 30 million people over 2,000 live dates and composed such radio staples as "Hook," "But Anyway," and "Run-Around," the longest-charting single in Billboard history. He has appeared with Eric Clapton

and B. B. King at the White House, welcomed the Hungarian ambassador to the stage, and inducted Carlos Santana into the Rock and Roll Hall of Fame. In *Suck and Blow*, Popper shares a candid, spirited account of his life and career. A straight-F student at Princeton High School, Popper's life changed with one serendipitous harmonica solo that captured the attention of his mercurial band teacher (the same teacher whose life was later fictionalized in the Academy Award-winning film *Whiplash*). After befriending three fellow musicians with whom he would form Blues Traveler, Popper's academic career nearly ended in twelfth grade, until a meeting with the Dean of the New School for Social Research in which Popper pulled out his trusty harp and played his way into college. Popper and Blues Traveler soon became enmeshed in the lower Manhattan music scene of the late 1980s, eventually becoming the house band at the fabled Wetlands Preserve and embarking on a journey

that would one day land the group at Madison Square Garden on New Year's Eve. Along the way, Popper and his cohorts commanded the attention of fans and bands alike, through inspired performances and riotous debauchery. Popper's unique perspective on the music business began under the tutelage of Blues Traveler's mentor and manager Bill Graham. After the rock impresario's untimely passing, Popper applied many of Graham's lessons to the formation of the H.O.R.D.E. tour, which John co-owned and hosted over eight years, welcoming such artists as Neil Young, the Allman Brothers Band, Phish, Dave Matthews Band, Ziggy Marley, and his longtime friends the Spin Doctors. Popper also shares a forthright assessment of his longstanding battle with obesity. Plagued by weight problems since childhood, a motorcycle accident a few years into his career confined him to a wheelchair for two years while his weight

ballooned to 436 pounds. Angioplasty, gastric bypass surgery, and a tattoo on his chest that reads "I Want to Be Brave" when viewed in the mirror are products of Popper's struggle, compounded by codependency issues and the untimely death of founding Blues Traveler bassist Bobby Sheehan. Popper's personal identity is entwined with his political passions. A staunch supporter of gun rights, he has performed at the National Republican Convention, yet he also maintains liberal positions on social issues. He will reconcile these views and share his encounters with the Bush family, the Clintons, the Gores, and other politicians. The iconoclastic, self-described Johnny Appleharp also dishes on cutting contests, Twitter trolls, party fouls, and prostitutes. In *Suck and Blow*, John Popper does it all with his signature honesty, humility, and humor. /DIV

Western Plainchant David Hiley 1995 Plainchant is the oldest substantial body of music that has been preserved in any shape or form. It was first written down in Western Europe in the eighth to ninth centuries. Many thousands of chants have been sung at different times or places in a multitude of forms and styles, responding to the differing needs of the church through the ages. This book provides a clear and concise introduction, designed both for those to whom the subject is new and those who require a reference work for advanced study. It begins with an explanation of the liturgies that plainchant was designed to serve. It describes all the chief genres of chant, different types of liturgical book, and plainchant notations. After an exposition of early medieval theoretical writing on plainchant, Hiley provides a historical survey that traces the constantly changing nature of the repertory. He also discusses important musicians

and centers of composition. Copiously illustrated with over 200 musical examples, this book highlights the diversity of practice and richness of the chant repertory in the Middle Ages. It will be an indispensable introduction and reference source on this important music for many years to come.

Learn Better Ulrich Boser
2019-09-03 For centuries, experts have argued that learning was about memorizing information: You're supposed to study facts, dates, and details; burn them into your memory; and then apply that knowledge at opportune times. But this approach to learning isn't nearly enough for the world that we live in today, and in *Learn Better* journalist and education researcher Ulrich Boser demonstrates that how we learn can matter just as much as what we learn. In this brilliantly researched book, Boser maps out the new science of learning, showing how simple techniques like comprehension check-ins and making material personally relatable can help people gain expertise in dramatically better ways. He covers six key steps to help you "learn how to

learn," all illuminated with fascinating stories like how Jackson Pollock developed his unique painting style and why an ancient Japanese counting device allows kids to do math at superhuman speeds. Boser's witty, engaging writing makes this book feel like a guilty pleasure, not homework. *Learn Better* will revolutionize the way students and society alike approach learning and makes the case that being smart is not an innate ability—learning is a skill everyone can master. With Boser as your guide, you will be able to fully capitalize on your brain's remarkable ability to gain new skills and open up a whole new world of possibilities.
